(57) **CLAIM**

We claim the ornamental design for the directional controls, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a directional control in accordance with the present design, the shaft length (indicated by bracket) being variable;
FIG. 2 is a rear view thereof;
FIG. 3 is a side view (left) thereof;
FIG. 4 is a side view (right) thereof;
FIG. 5 is a top view thereof;
FIG. 6 is a bottom view thereof;
FIG. 7 is an isometric view thereof;
FIG. 8 is an isometric view of the directional control shown in FIG. 7 in accordance with another embodiment of the present design;
FIG. 9 is an isometric view of the directional control shown in FIG. 7 in accordance with another embodiment of the present design;
FIG. 10 is an isometric view of the directional control shown in FIG. 7 in accordance with another embodiment of the present design;
FIG. 11 is an isometric view of the directional control shown in FIG. 7 in accordance with another embodiment of the present design; and,
FIG. 12 is an isometric view of the directional control shown in FIG. 7 in accordance with another embodiment of the present design.
The broken lines show portions of the directional controls which form no part of the claimed design.
