(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of a display screen with animated graphical user interface showing our new design; and, FIG. 2 is a front view of a second image thereof. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2. The broken lines of uneven length show the display screen and form no part of the claimed design. The broken lines of even length shown in the drawings illustrate portions of the display screen with animated graphical user interface that form no part of the claimed design.
