(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface morphing window controls, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display screen or portion thereof with a with graphical user interface morphing window control according to our design; and,

FIG. 2 is a front view, showing a second image thereof. The appearance of the image transitions sequentially between FIGS. 1-2. The process or period in which an image transitions to another forms no part of the claimed design. The broken lines showing portions of a display screen, text, background imagery and other features in the figures are environmental only and form no part of the claimed design.
