(57) **CLAIM**

The ornamental design for a garment, as shown and described.

**DESCRIPTION**

FIG. 1 is a front left perspective view of a garment showing my new design in an in-use configuration;  
 FIG. 2 is a front view thereof;  
 FIG. 3 is a rear view thereof;  
 FIG. 4 is a first side view thereof;  
 FIG. 5 is a second side view thereof; and,  
 FIG. 6 is a top view thereof.

The even-length broken lines shown in the drawings are directed to environment, are for informational purposes only, and form no part of the claimed design.

The long and short broken lines are boundary lines, which define the bounds of the claimed design. These boundaries do not exist in reality in the article embodying the design. It is understood that the claimed design extends to these boundaries but does not include the boundaries.

The contrast in shading represents a contrast in appearance only and does not represent any particular color, material, texture or finish.
