(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of a sequence showing the new design;

FIG. 2 is a front view showing a second image thereof;

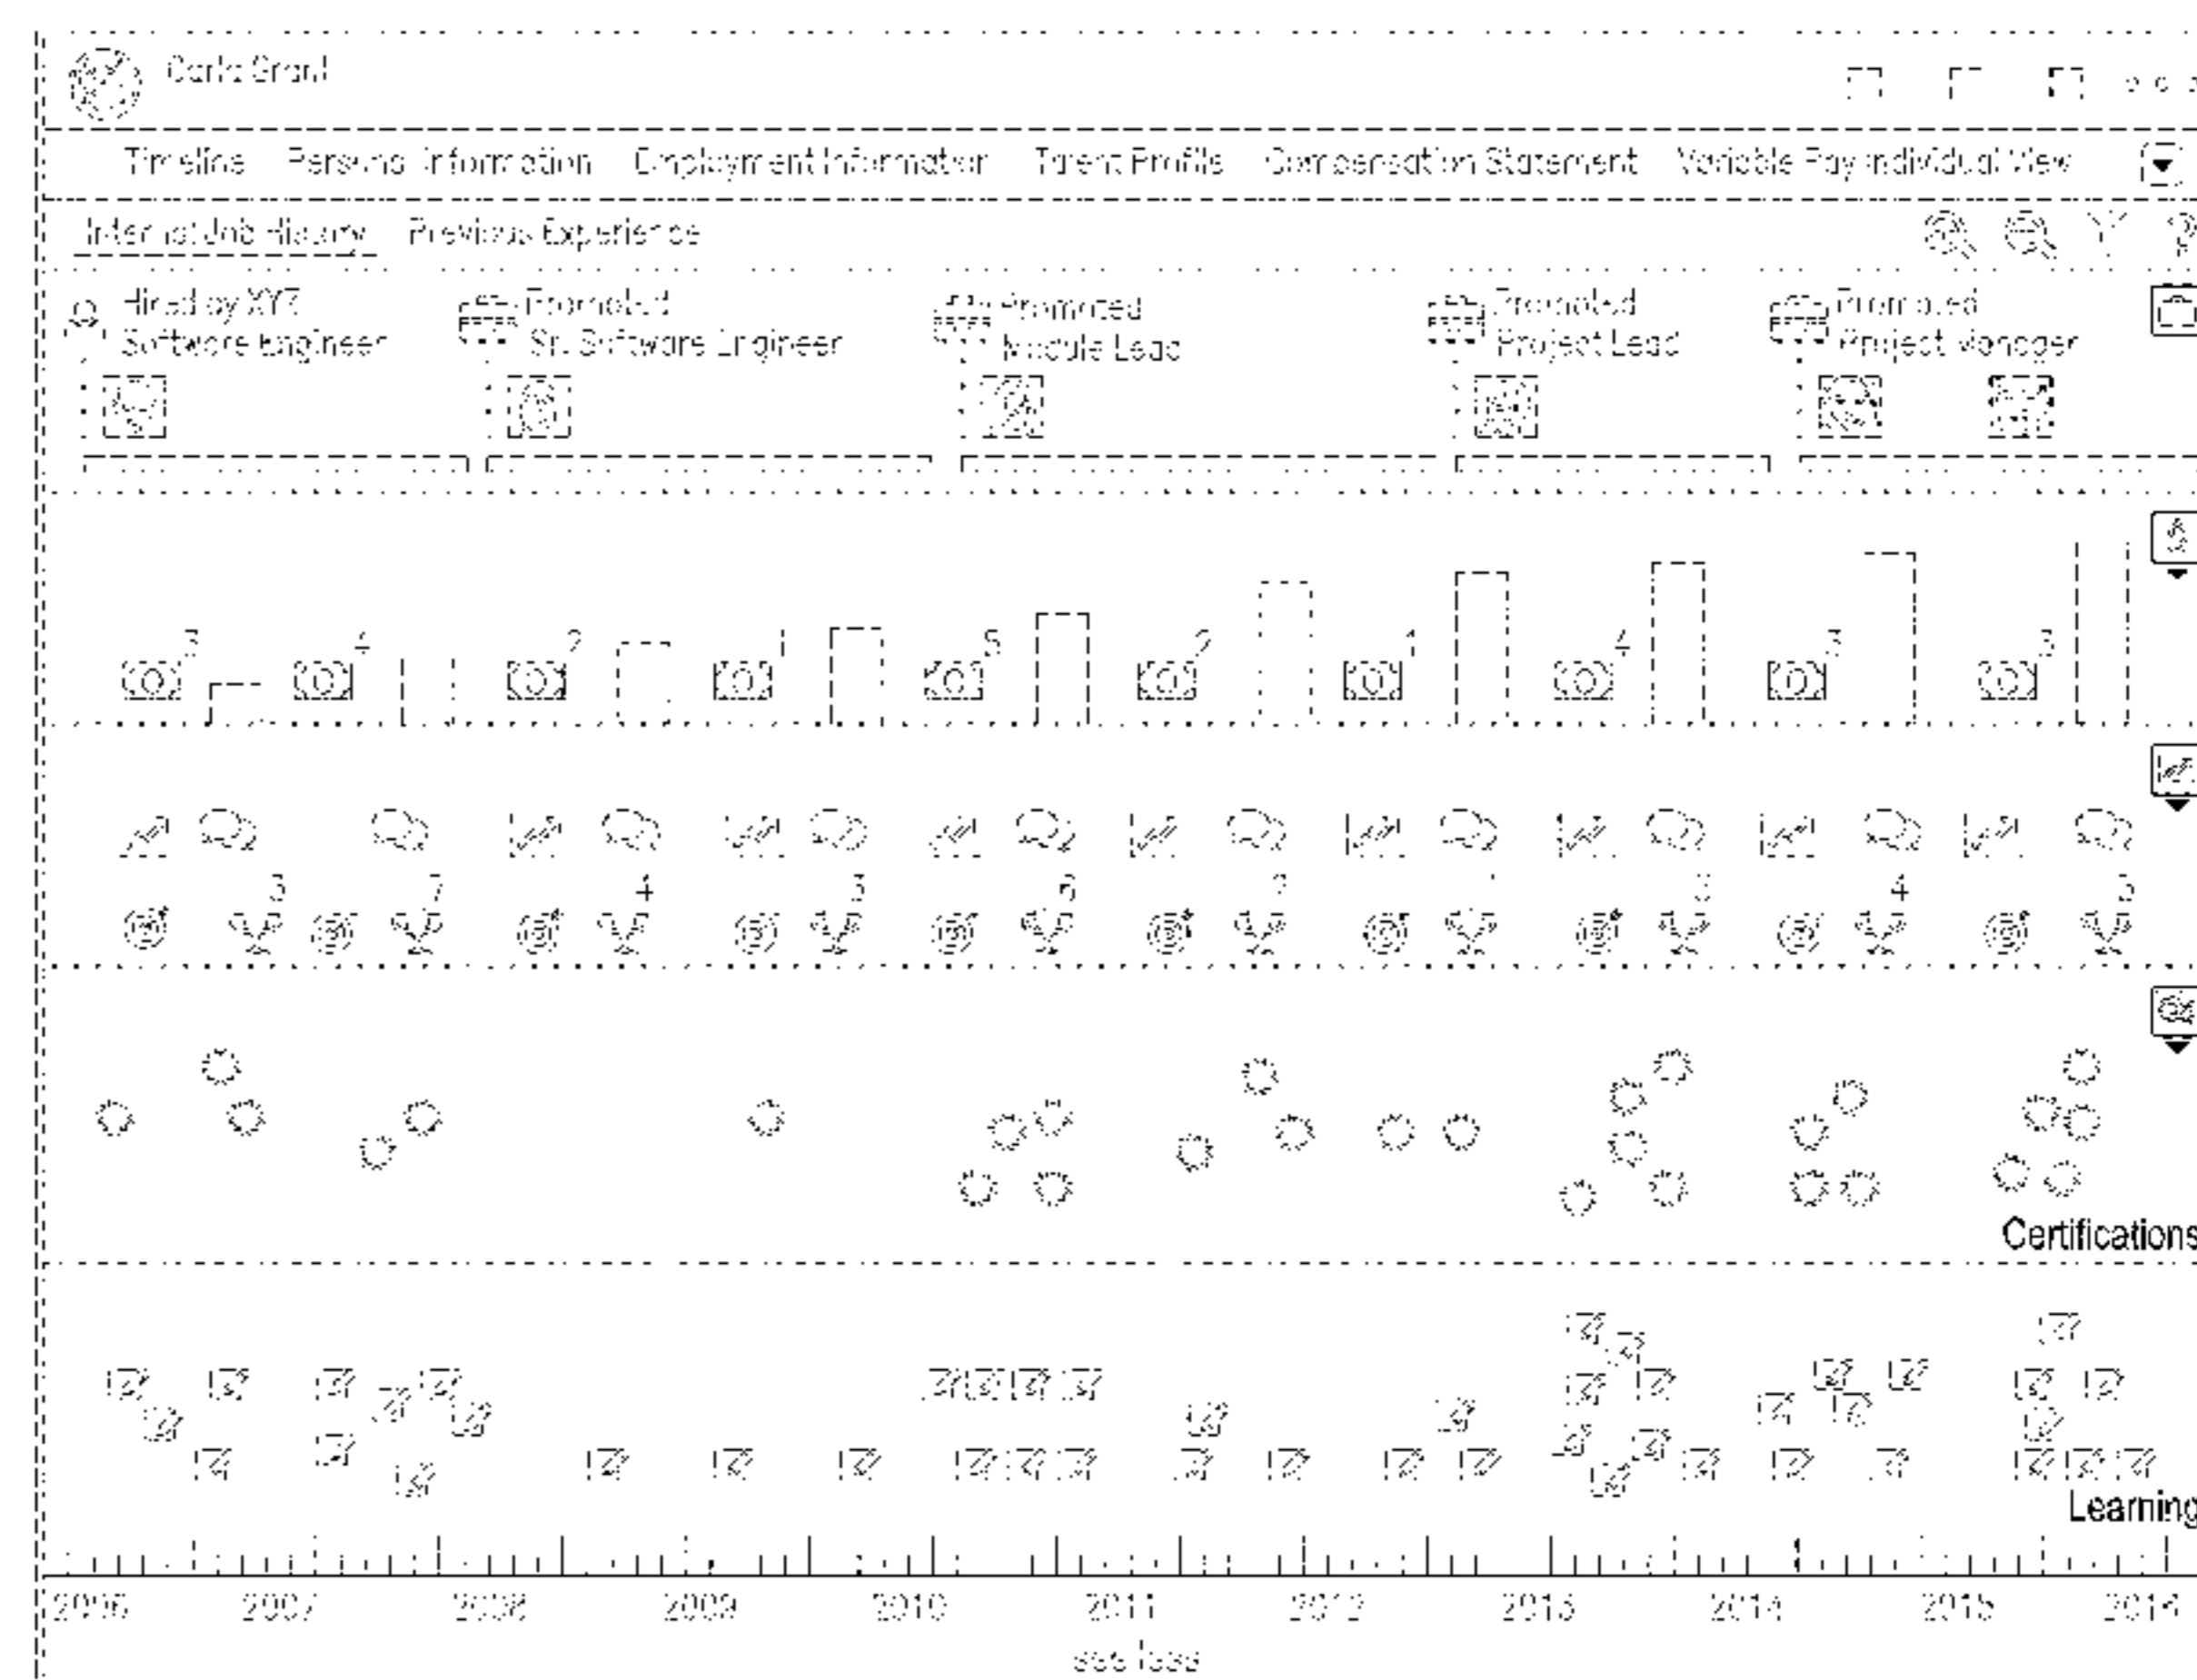

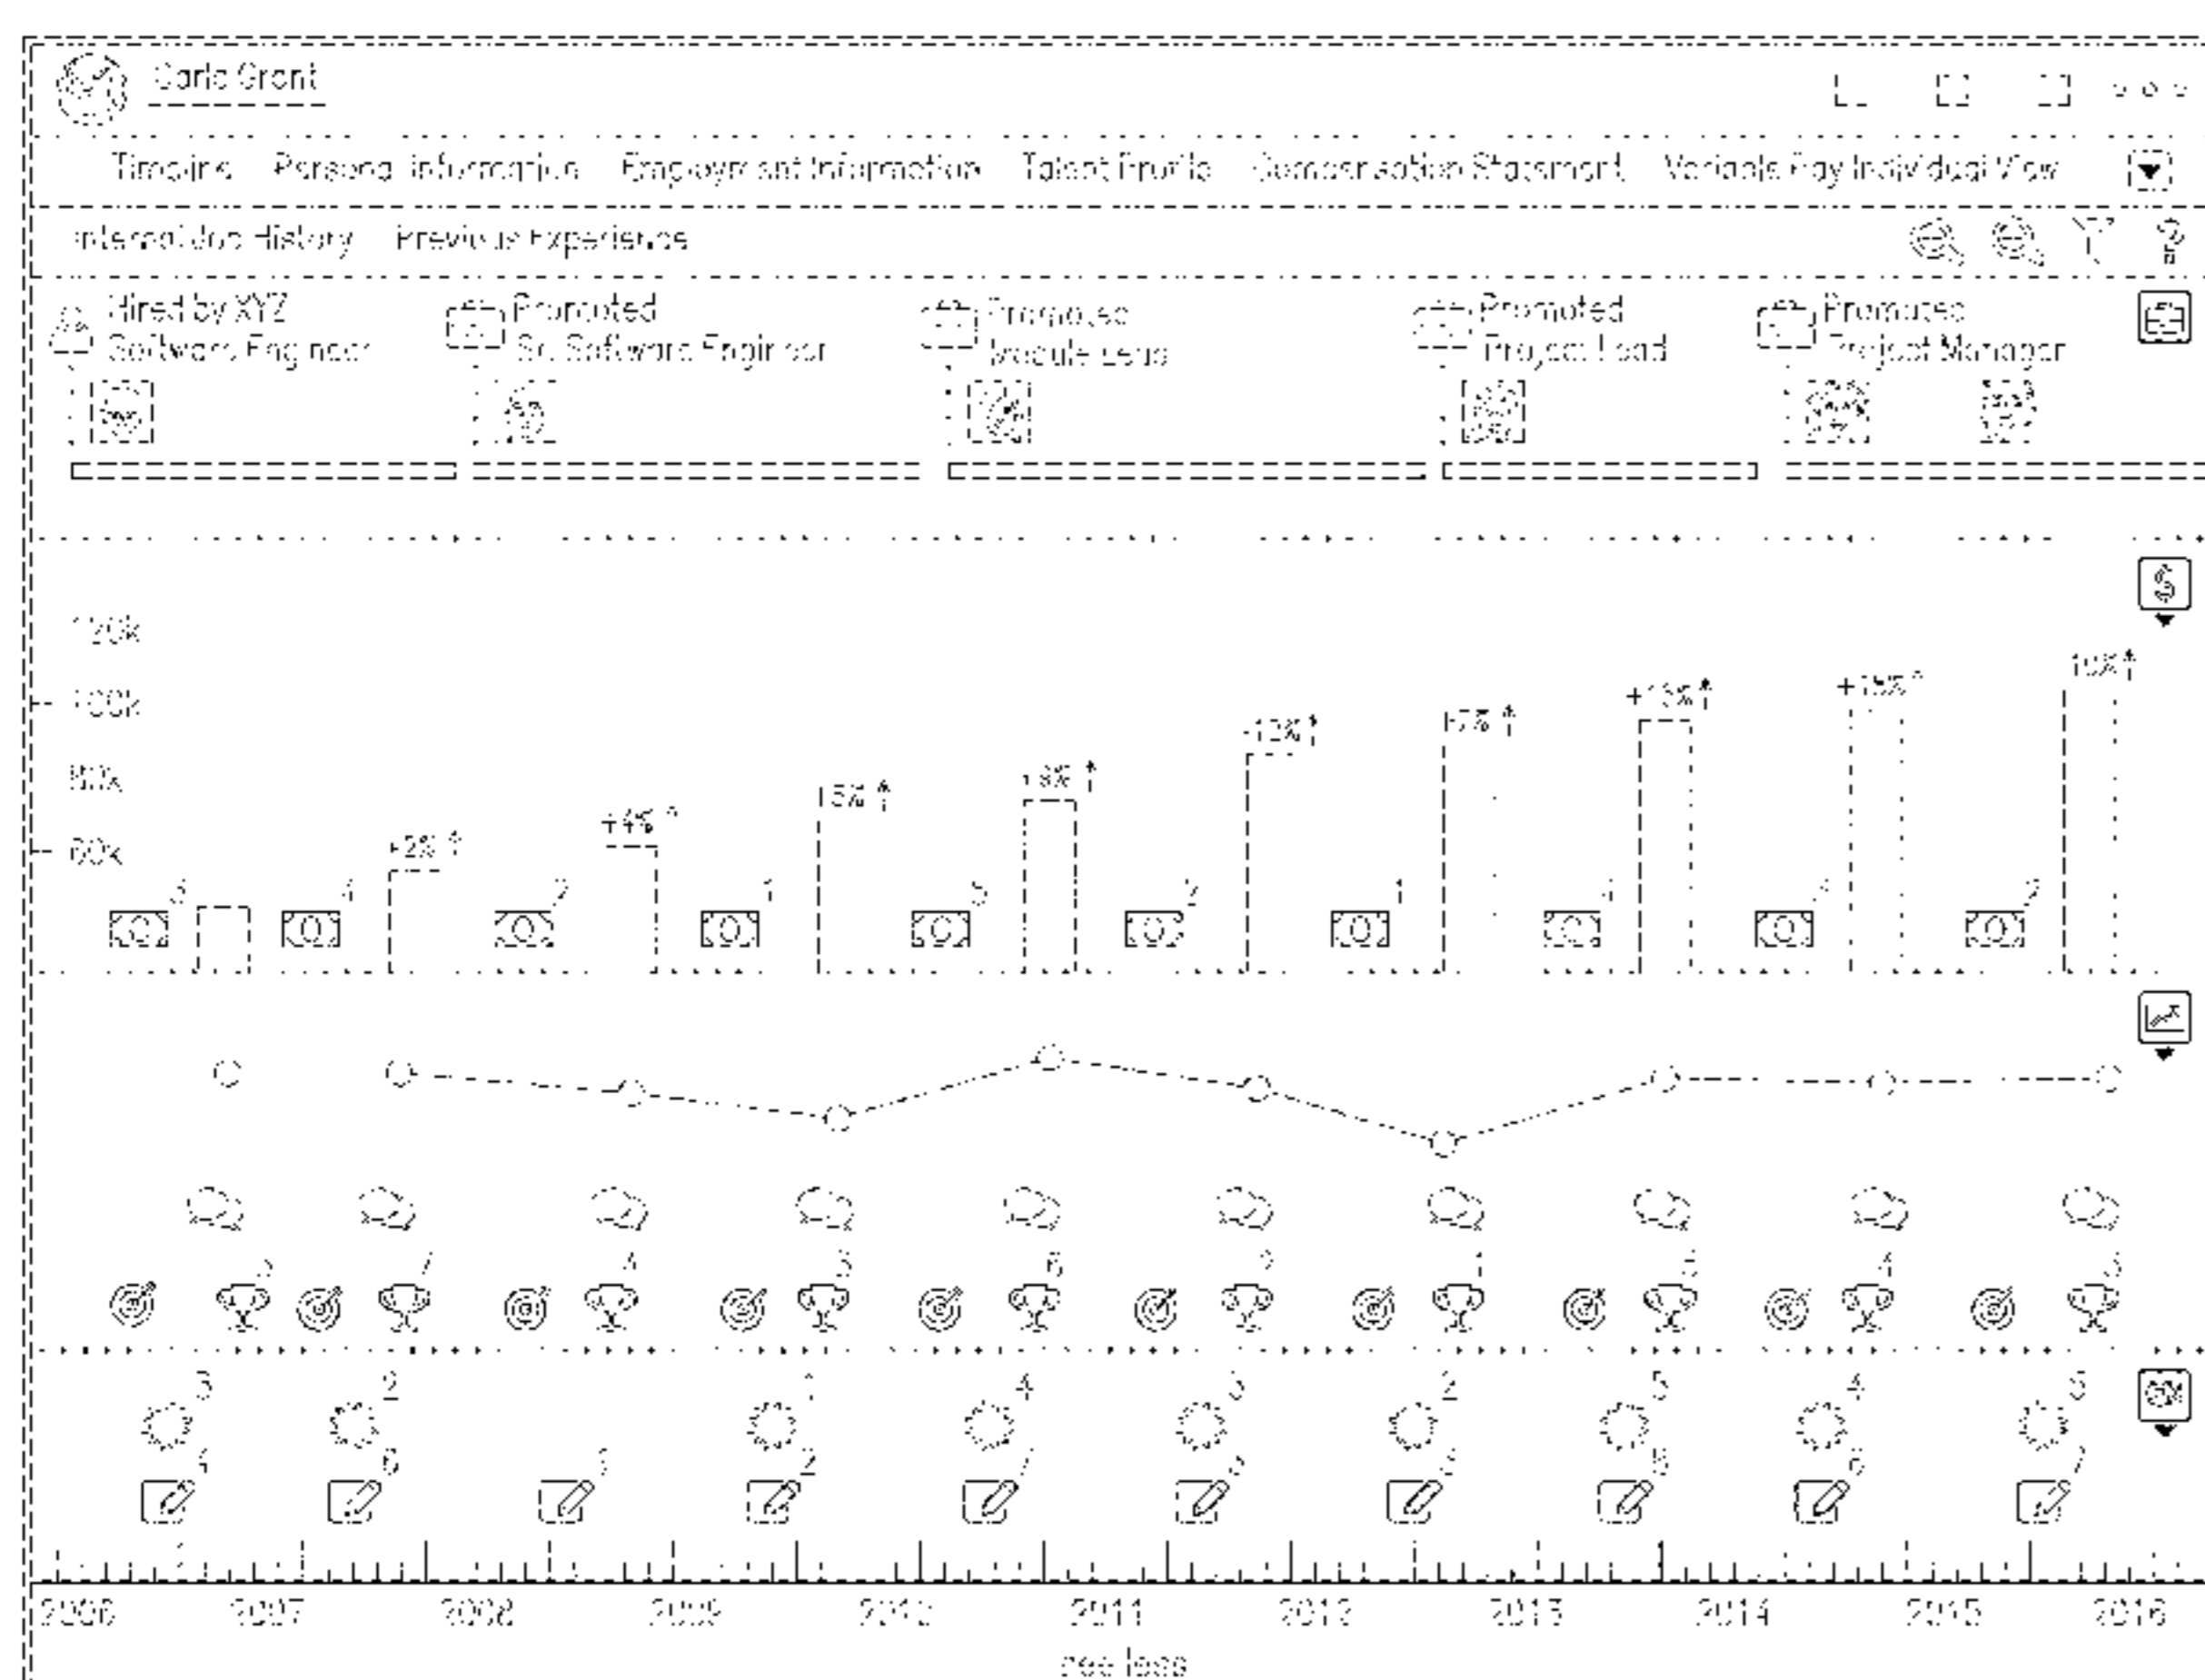

FIG. 3 is a front view showing a third image thereof; and,

FIG. 4 is a front view showing a fourth image thereof.

The appearance of the image transitions sequentially between the images shown in FIGS. 1-4. The process or period in which an image transitions to another forms no part of the claimed design.

The outermost dashed broken lines in all views illustrate a display panel or portion thereof that forms no part of the claimed design. The remaining dashed broken lines in all views illustrate portions of the graphical user interface that form no part of the claimed design. All numerals and text and the row of starburst icons, in all views, are also shown in dashed broken lines, and form no part of the claimed design. The dotted lines in all views do form part of the claimed design.
