(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

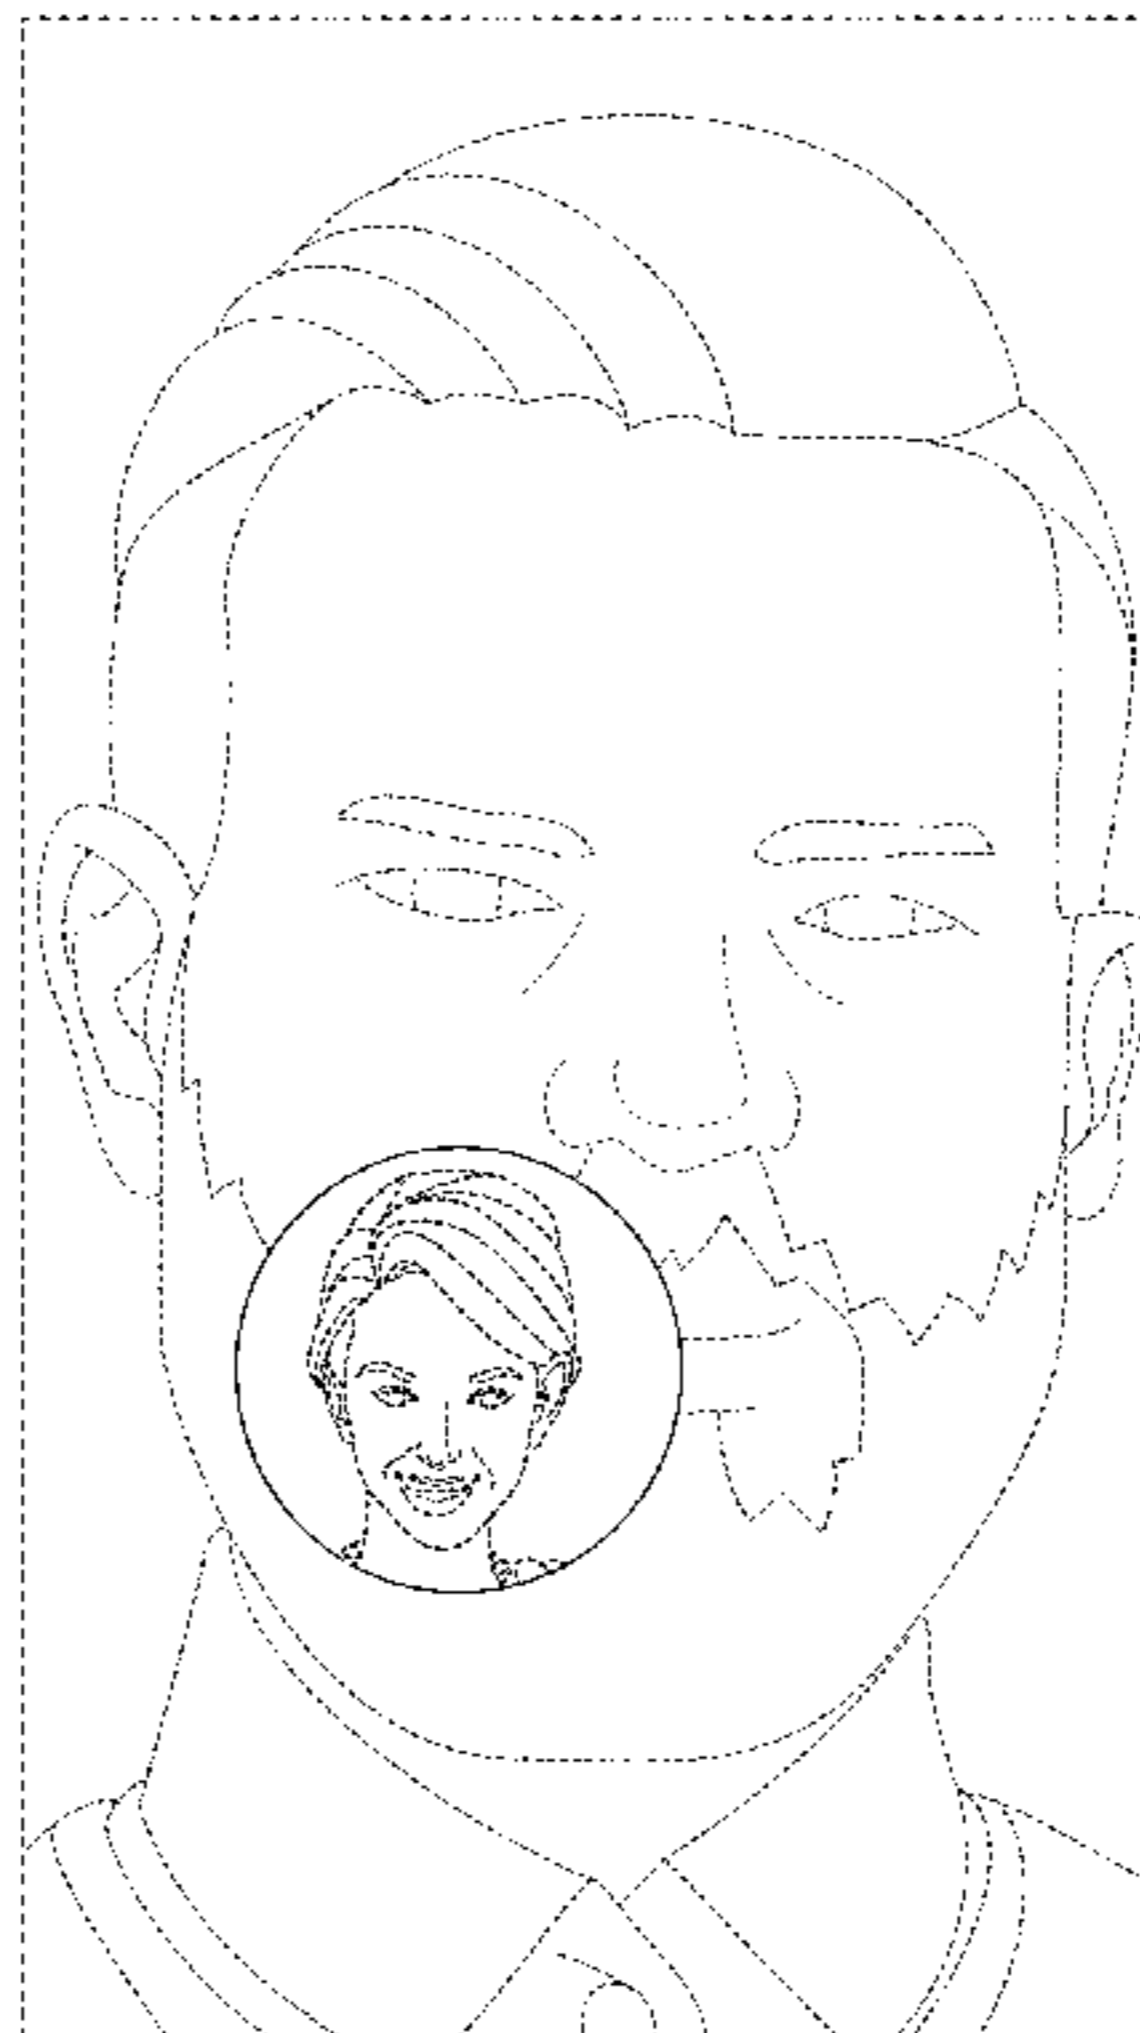

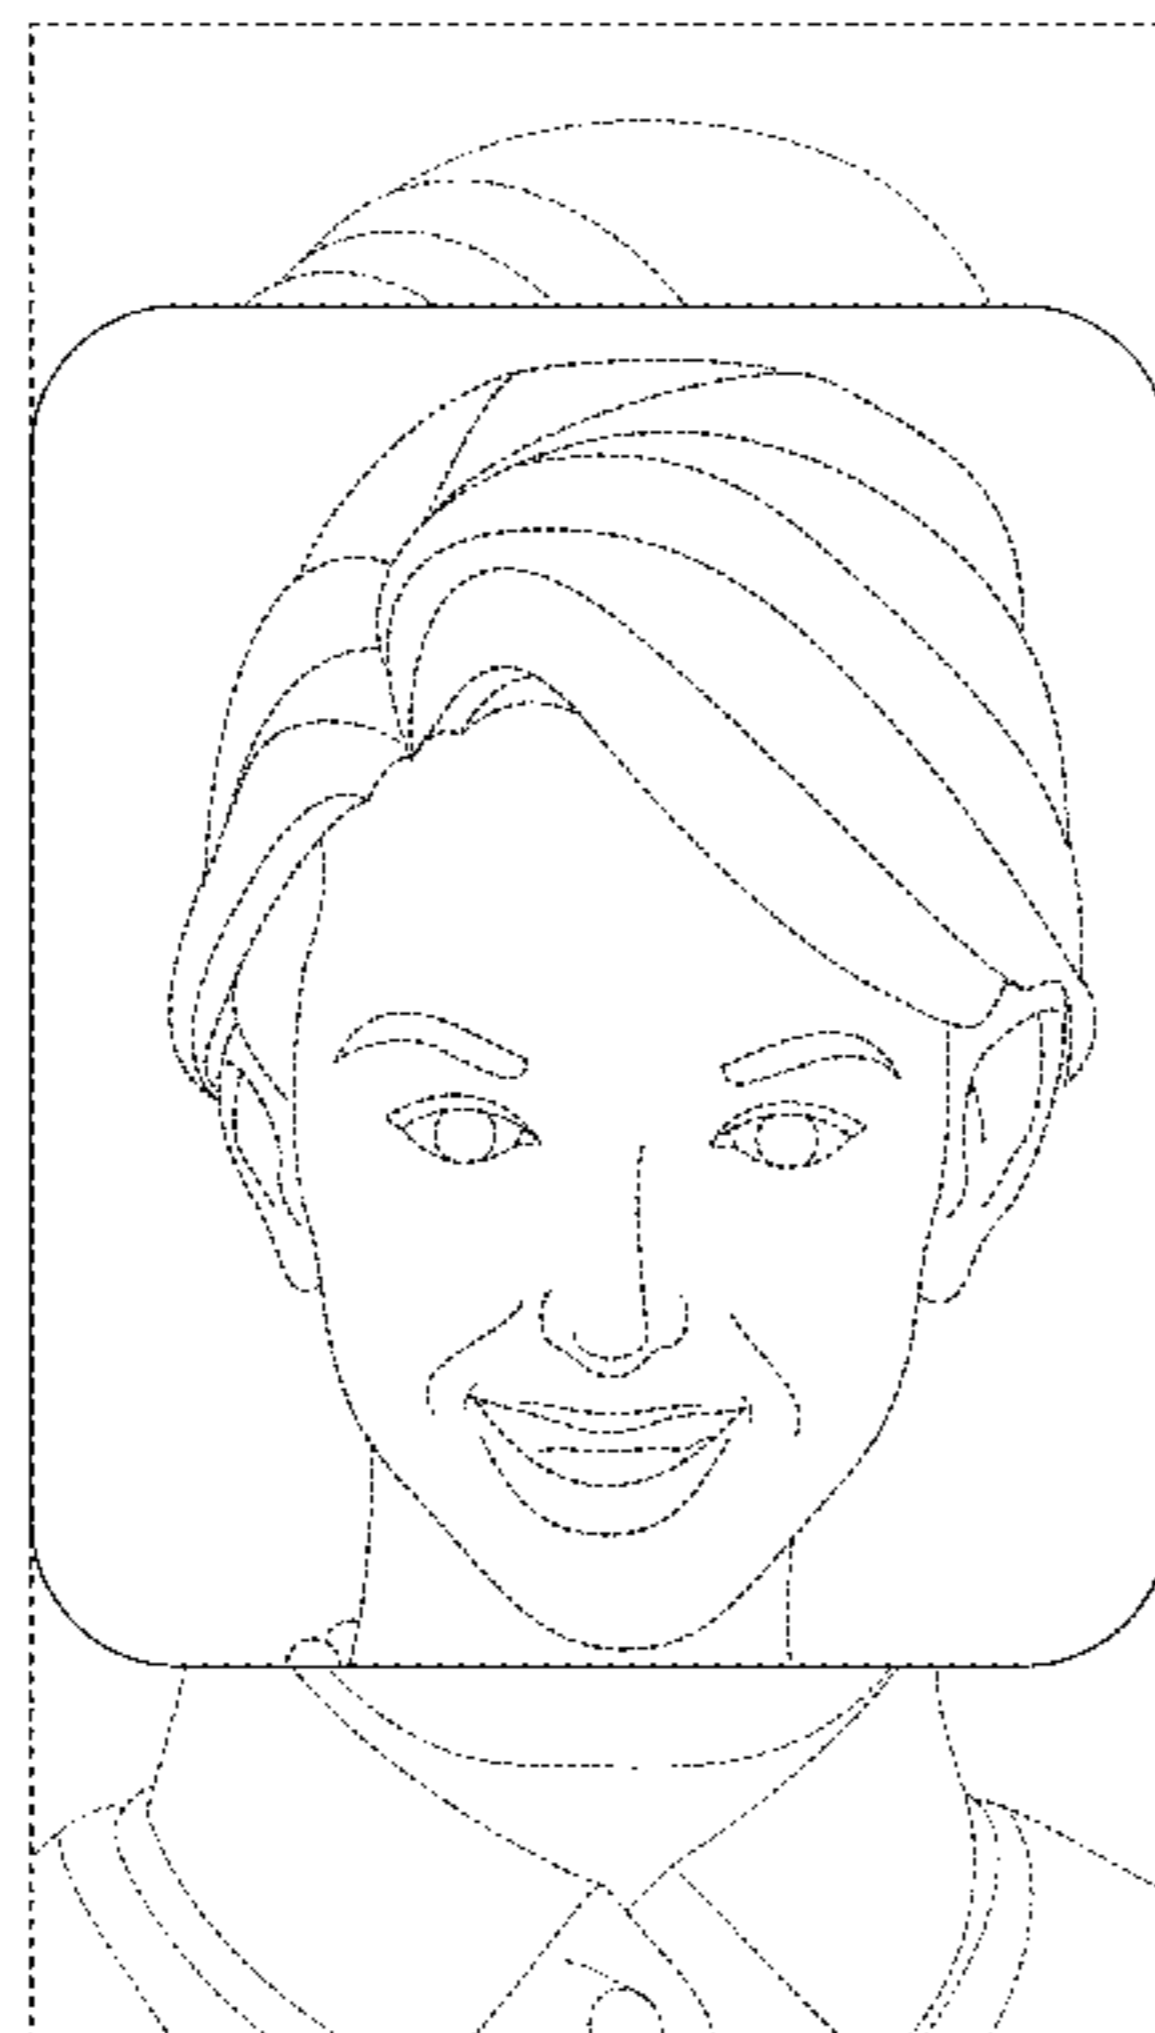

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image in a sequence of our new design;
FIG. 2 is a second image thereof;
FIG. 3 is a third image thereof;
FIG. 4 is a fourth image thereof;
FIG. 5 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image in another sequence of our new design;
FIG. 6 is a second image thereof;
FIG. 7 is a third image thereof; and,
FIG. 8 is a fourth image thereof.

The broken lines form no part of the claimed design. The outer rectangle in broken lines is included to show an unclaimed portion of an example display screen and forms no part of the claimed design. The portions of the graphical user interface shown in broken lines form no part of the claimed design.

In an embodiment, the appearance of the animated images transitions between the images shown in FIGS. 1-4. In another embodiment, the appearance of the animated images transitions between the images shown in FIGS. 5-8.

The subject matter of this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.

1 Claim, 8 Drawing Sheets
