(57) **CLAIM**

The ornamental design for a display screen or portion thereof with a transitional user interface component for identifying current location, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a portion of a display screen with a transitional user interface component showing a first image in a sequence according to a first embodiment of the design; FIG. 2 is a front view of a second image in the sequence of the first embodiment of FIG. 1;

FIG. 3 is a front view of a portion of a display screen with a transitional user interface component showing a first image in a sequence according to a second embodiment of the design; and,

FIG. 4 is a front view of a second image in the sequence of the second embodiment of FIG. 3.

The process or period in which one image transitions to another forms no part of the claimed design. The appearance of the image transitions sequentially between FIGS. 1 to 2, FIGS. 2 to 1, FIGS. 3 to 4, FIG. 4 to 3.

The broken lines illustrate portions of the graphical user interface and form no part of the claimed design.

1 Claim, 1 Drawing Sheet
