(57) **CLAIM**

The ornamental design for a display panel of an electronic personal training device with a transitional graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of a first image in a sequence that is displayed on the display panel of the electronic personal training device in accordance with the present design.

FIG. 2 is a front elevational view of a second image in the sequence.

FIG. 3 is a front elevational view of a third image in the sequence.

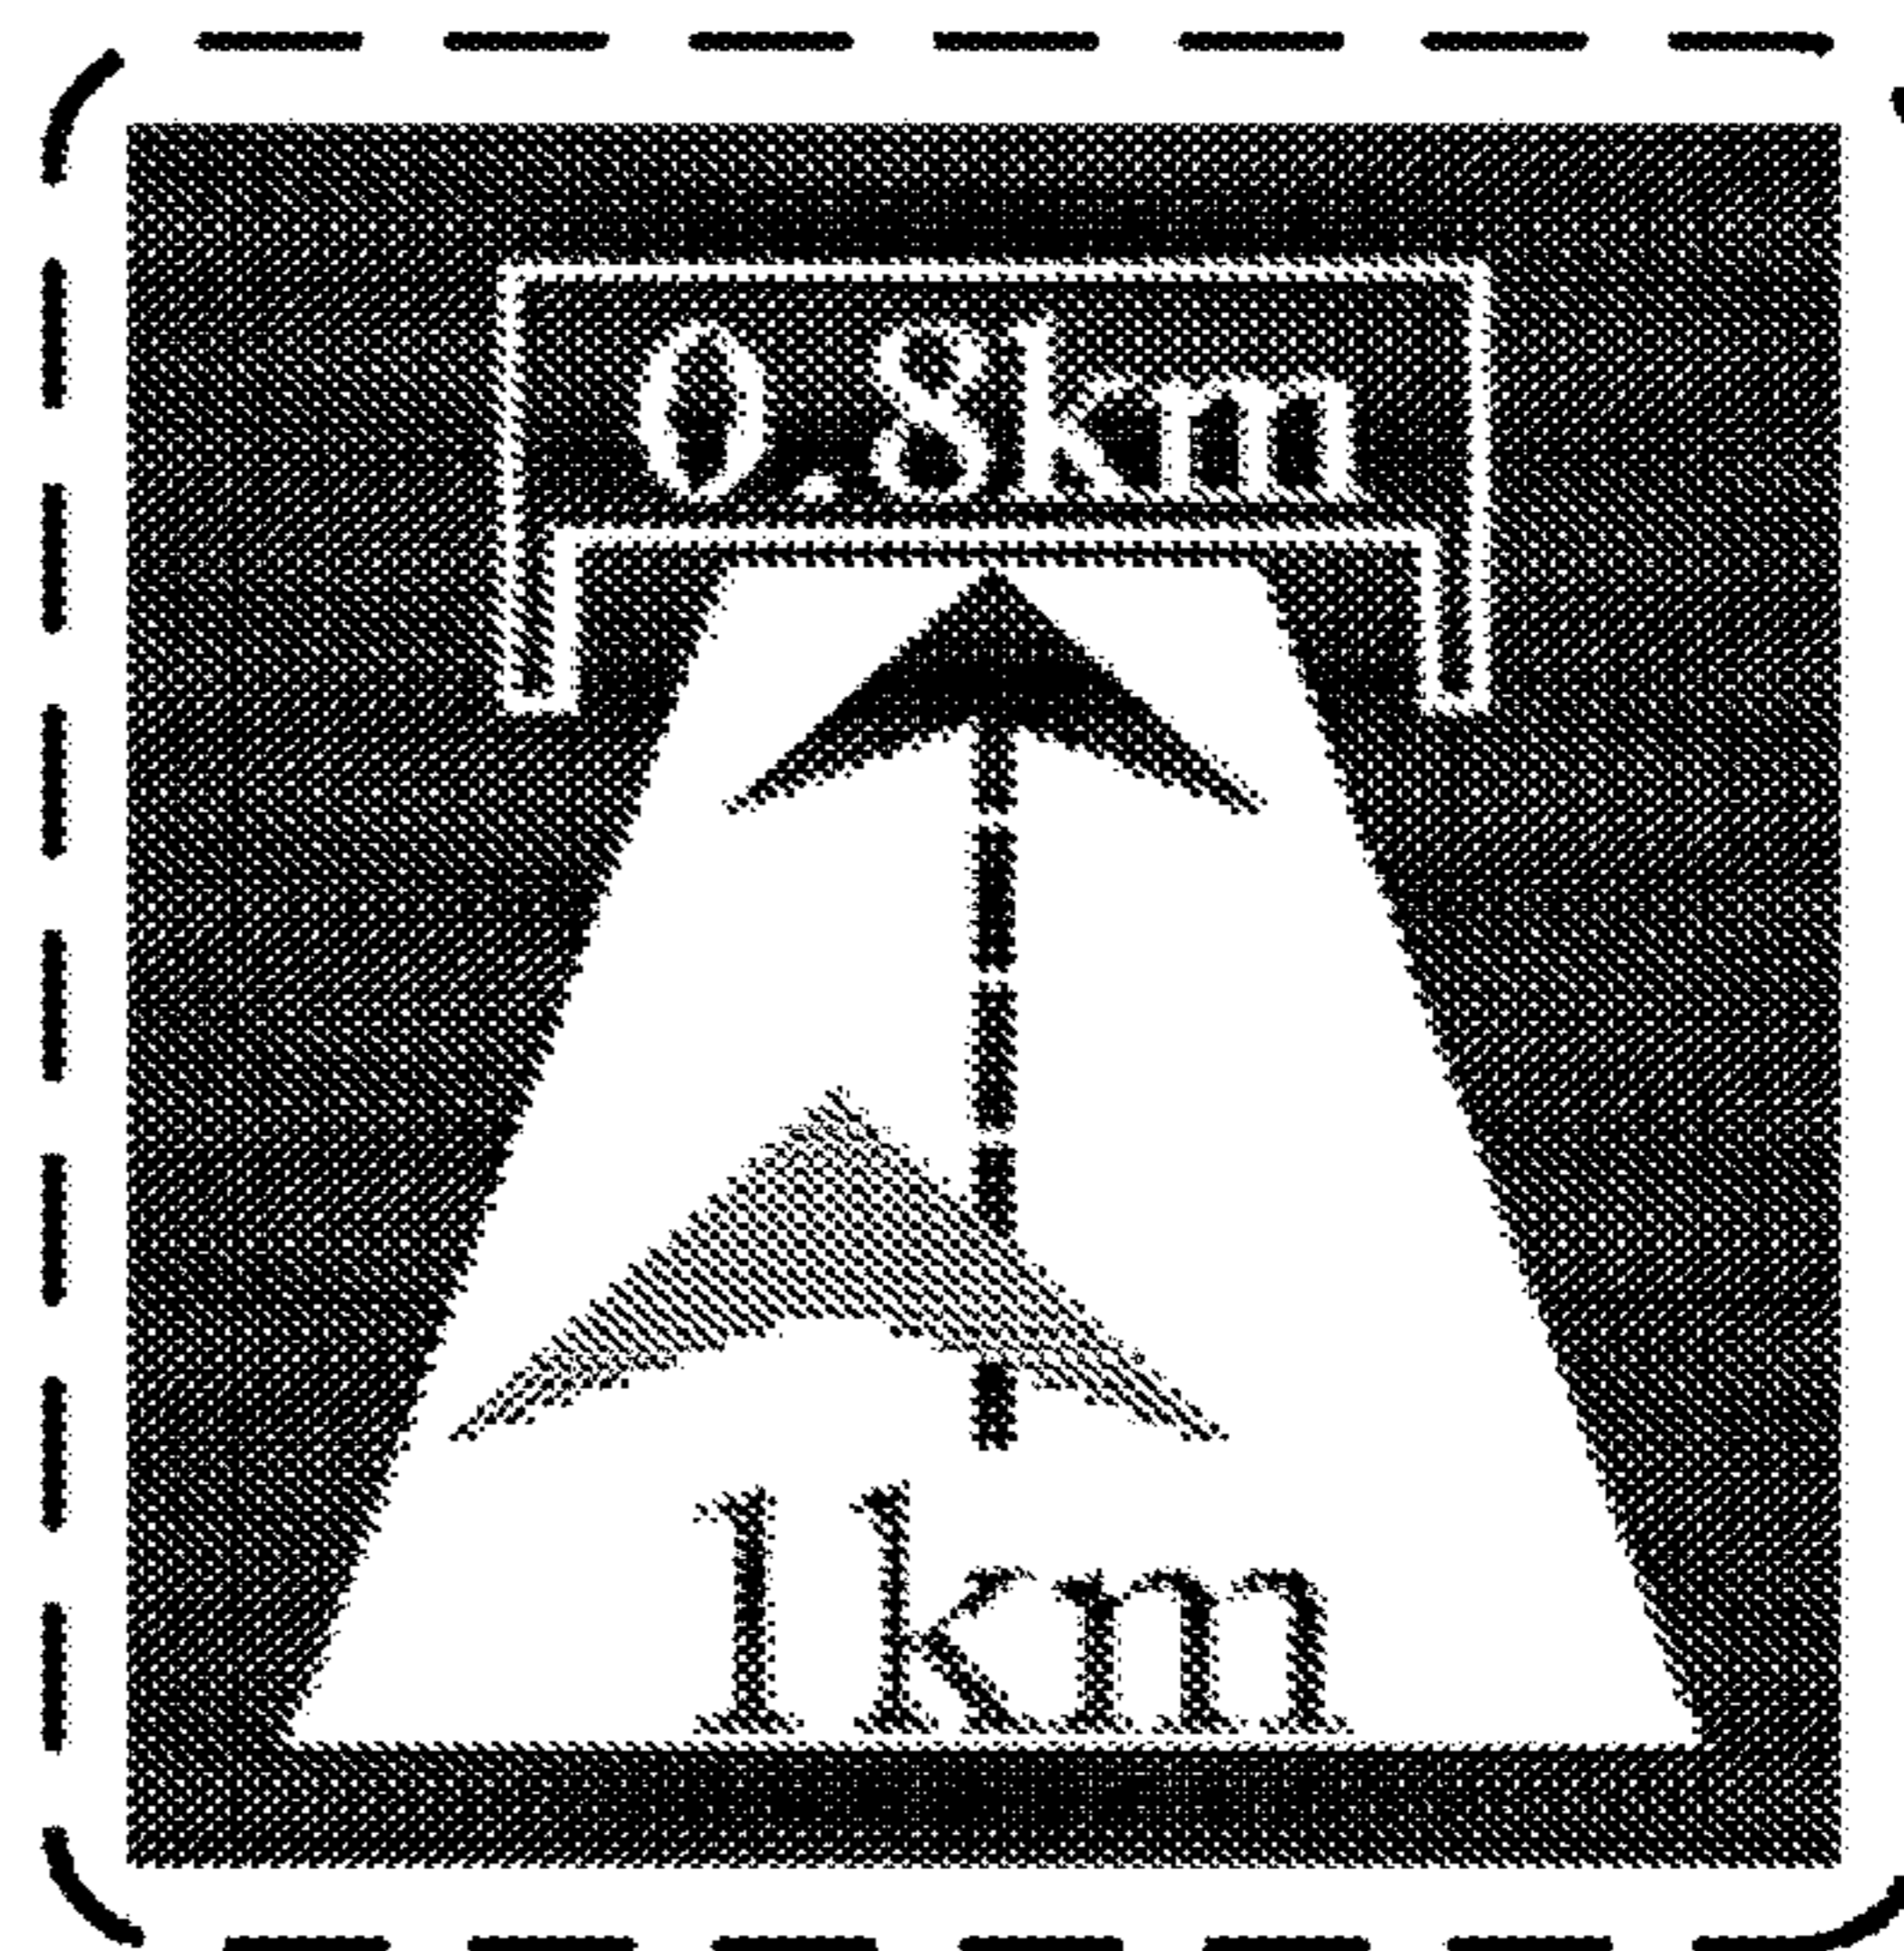

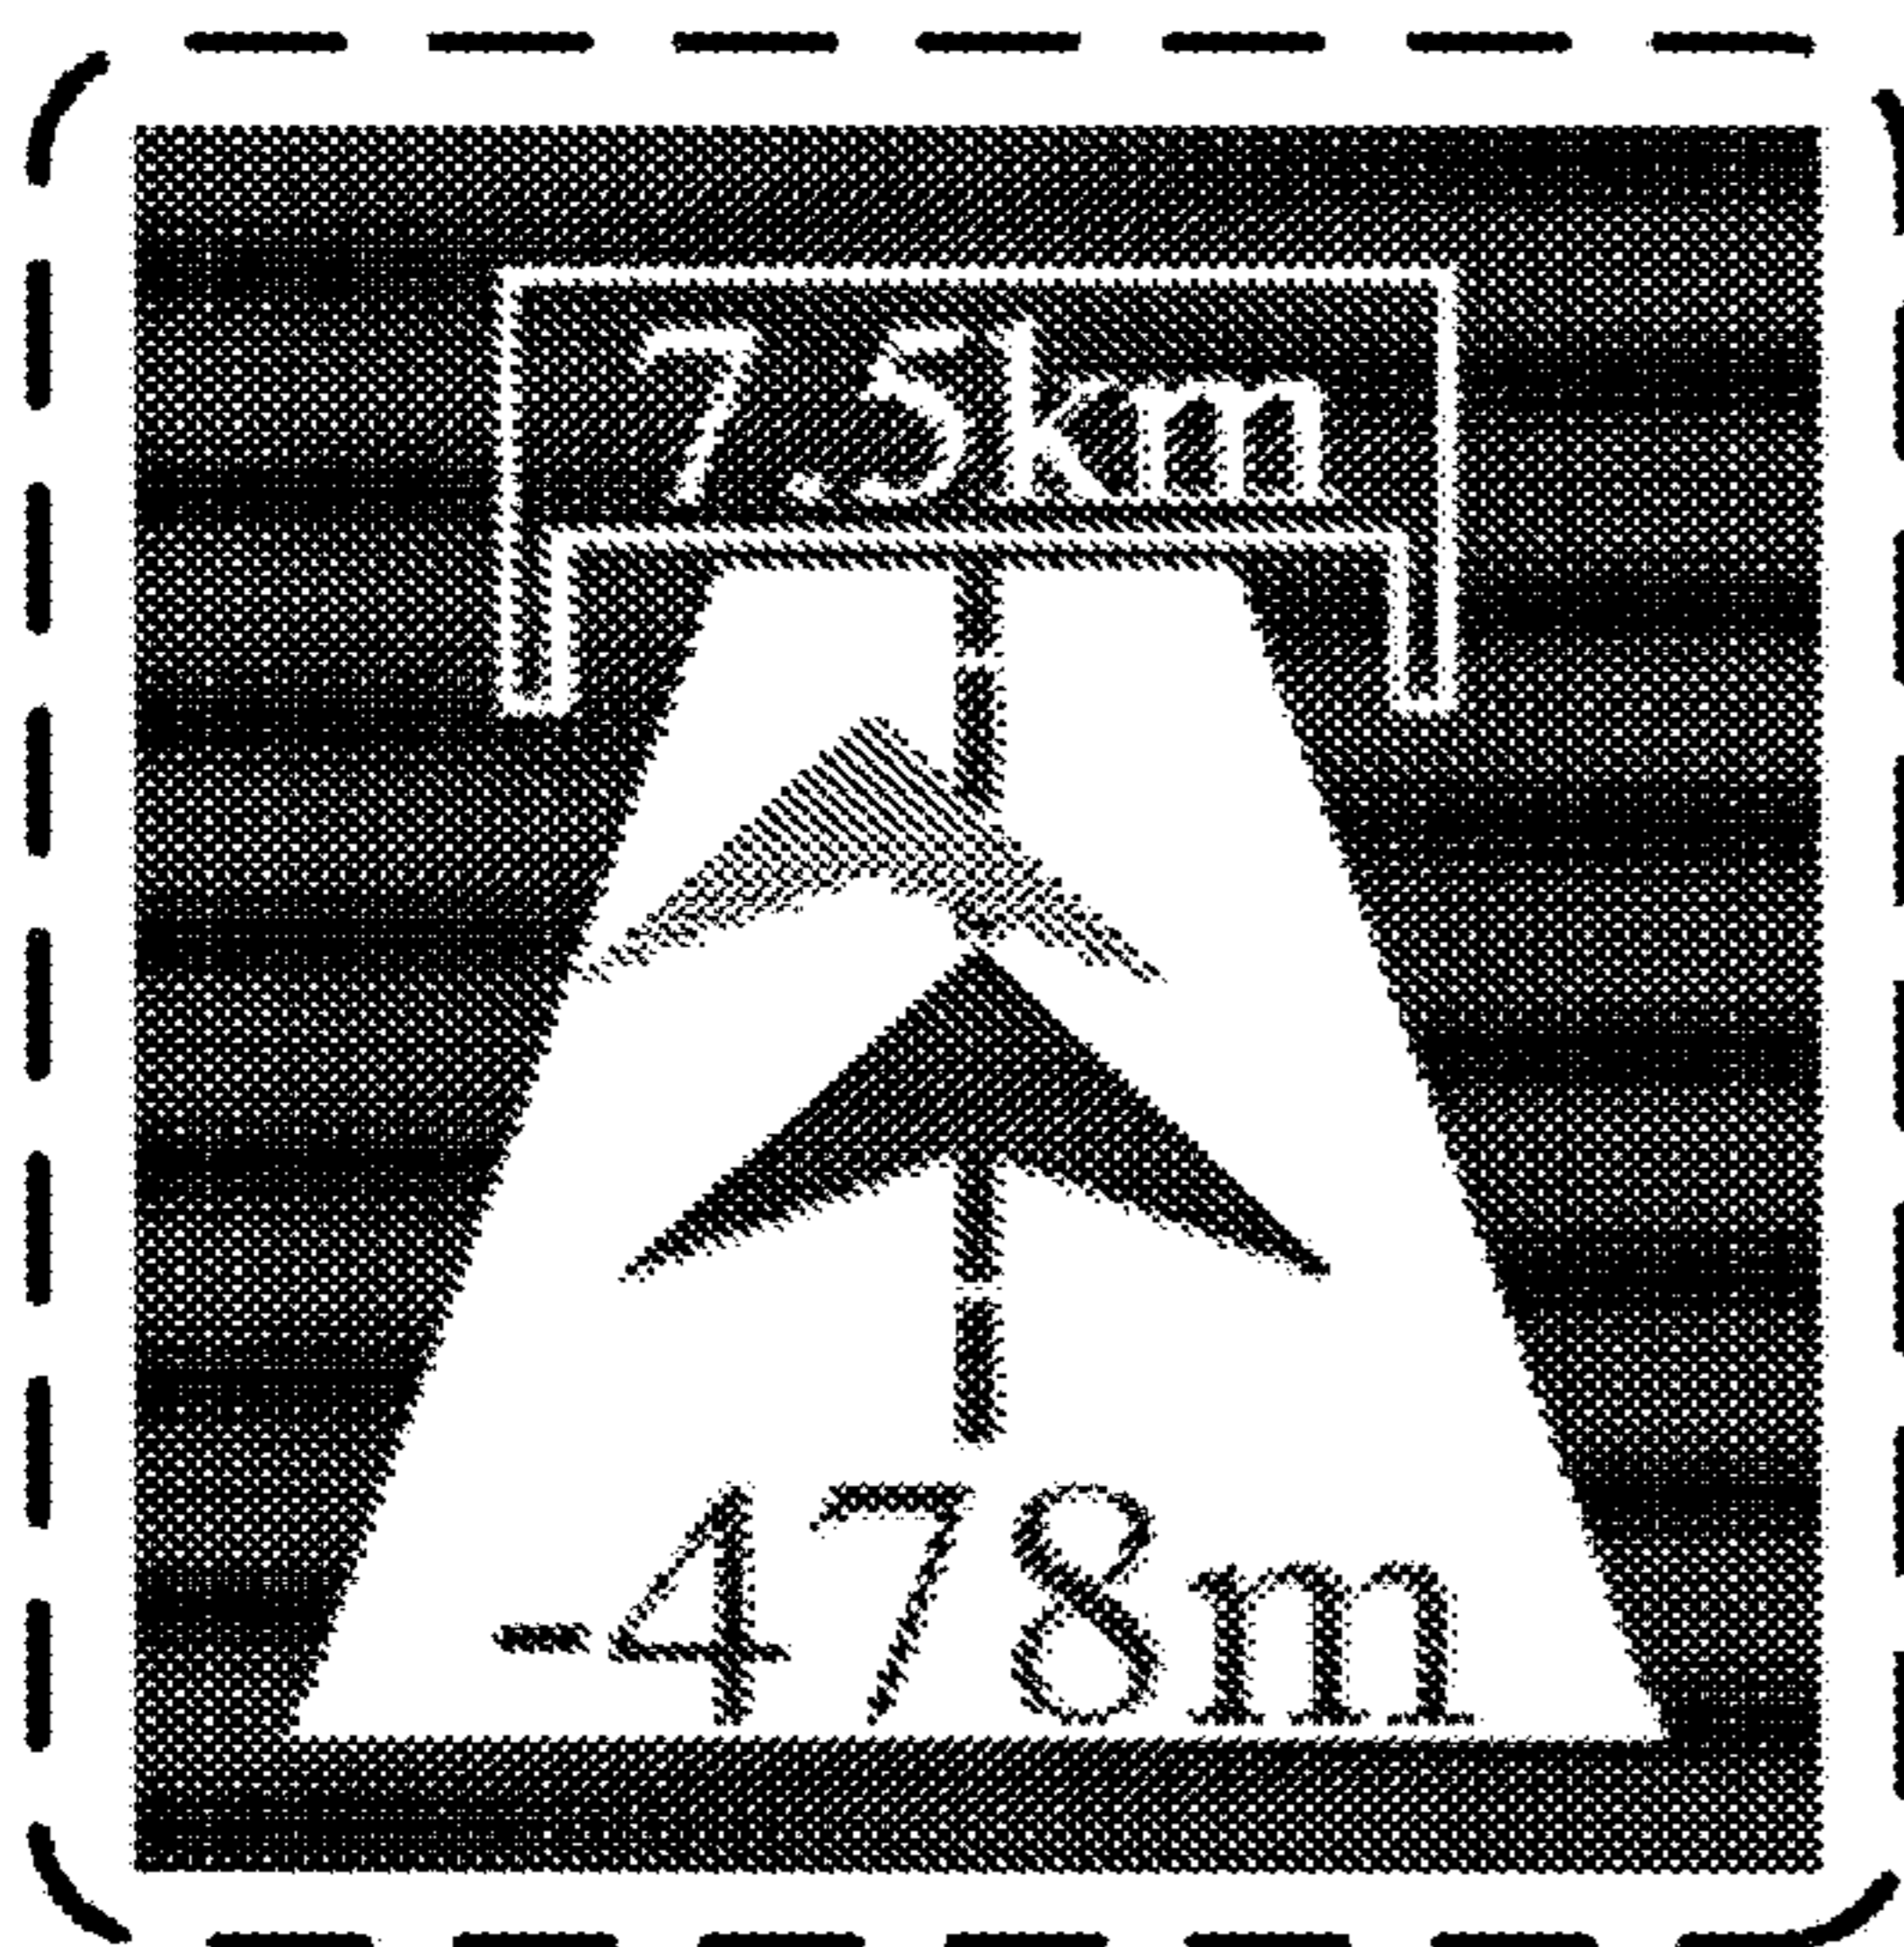

FIG. 4 is a front elevational view of a fourth image in the sequence; and,

FIG. 5 is a perspective view of the image of FIG. 3, shown on a personal training device.

The appearance of the transitional graphical user interface sequentially transitions between the images shown in FIGS. 1 to 4. The process or period in which one image transitions to another image does not form part of the claimed design. The broken lines shown in FIGS. 1 to 4 illustrate portions of a display panel of an electronic personal training device with a graphical user interface that form no part of the claimed design. The broken lines showing a personal training device in FIG. 5 form no part of the claimed design.

The broken lines shown within the graphical user interface in FIGS. 1 to 5 are claimed subject matter.
