(57) **CLAIM**

The ornamental design for a pair of midfoot insoles, as shown and described.

DESCRIPTION

FIG. 1 is a perspective rear view of the right midfoot insole of the pair of midfoot insoles; shown in an environment and showing my new design;

FIG. 2 is a top plan view of the left midfoot insole of the pair of midfoot insoles;

FIG. 3 is a top perspective view of the pair of midfoot insoles with the pair of midfoot insoles outlined for clarity, shown in another environment;

FIG. 4 is a bottom plan view of the left midfoot insole of the pair of midfoot insoles, showing in another embodiment;

FIG. 5 is top side perspective view of the left midfoot insole of the pair of midfoot insoles;

FIG. 6 is a bottom side perspective view of the left midfoot insole of the pair of midfoot insoles;

FIG. 7 is another bottom side perspective view of the left midfoot insole of the pair of midfoot insoles;

FIG. 8 is a front view of the right midfoot insole of the pair of midfoot insoles; and,

FIG. 9 is a front cross section view of the left midfoot insole of the pair of midfoot insoles as shown in FIG. 2.

The drawings illustrate a pair of midfoot insoles including a right and a left. The right is a mirror image of the left. In the drawings, the broken lines are for the purpose of illustrating environment only and for no part of the claimed design. In the drawings, the dash-dot-dash lines shown in FIGS. 4, 6 and 7 are intended to show the point of bending for each of the pair of insoles. Any shading and cross-hatching are not features of the design, but are utilized to illustrate the surface contours of the midfoot insoles in the drawings.

1 Claim, 2 Drawing Sheets
