(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface; and,

FIG. 2 is a front view of a display screen or portion thereof with graphical user interface according to a second embodiment.

The user interface includes icons on the screen display, that when selected, cause a device to perform a function.

The outermost broken line represents a display screen or portion thereof and forms no part of the claimed design. The broken line showing a square is claimed subject matter.
