(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of a sequence showing the new design; FIG. 2 is a front view showing a second image thereof; and, FIG. 3 is a front view showing a third image thereof. The appearance of the image in a first implementation transitions sequentially between the images shown in FIGS. 1-3. The process or period in which an image transitions to another forms no part of the claimed design. The outer broken line showing a display screen or portion thereof (such as of a mobile device or other suitable computing system) in all views forms no part of the claimed design. The broken line showing of graphical elements and text within the graphical user interface forms no part of the claimed design.
