(57) **CLAIM**

The ornamental design for a portion of a display screen with a graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

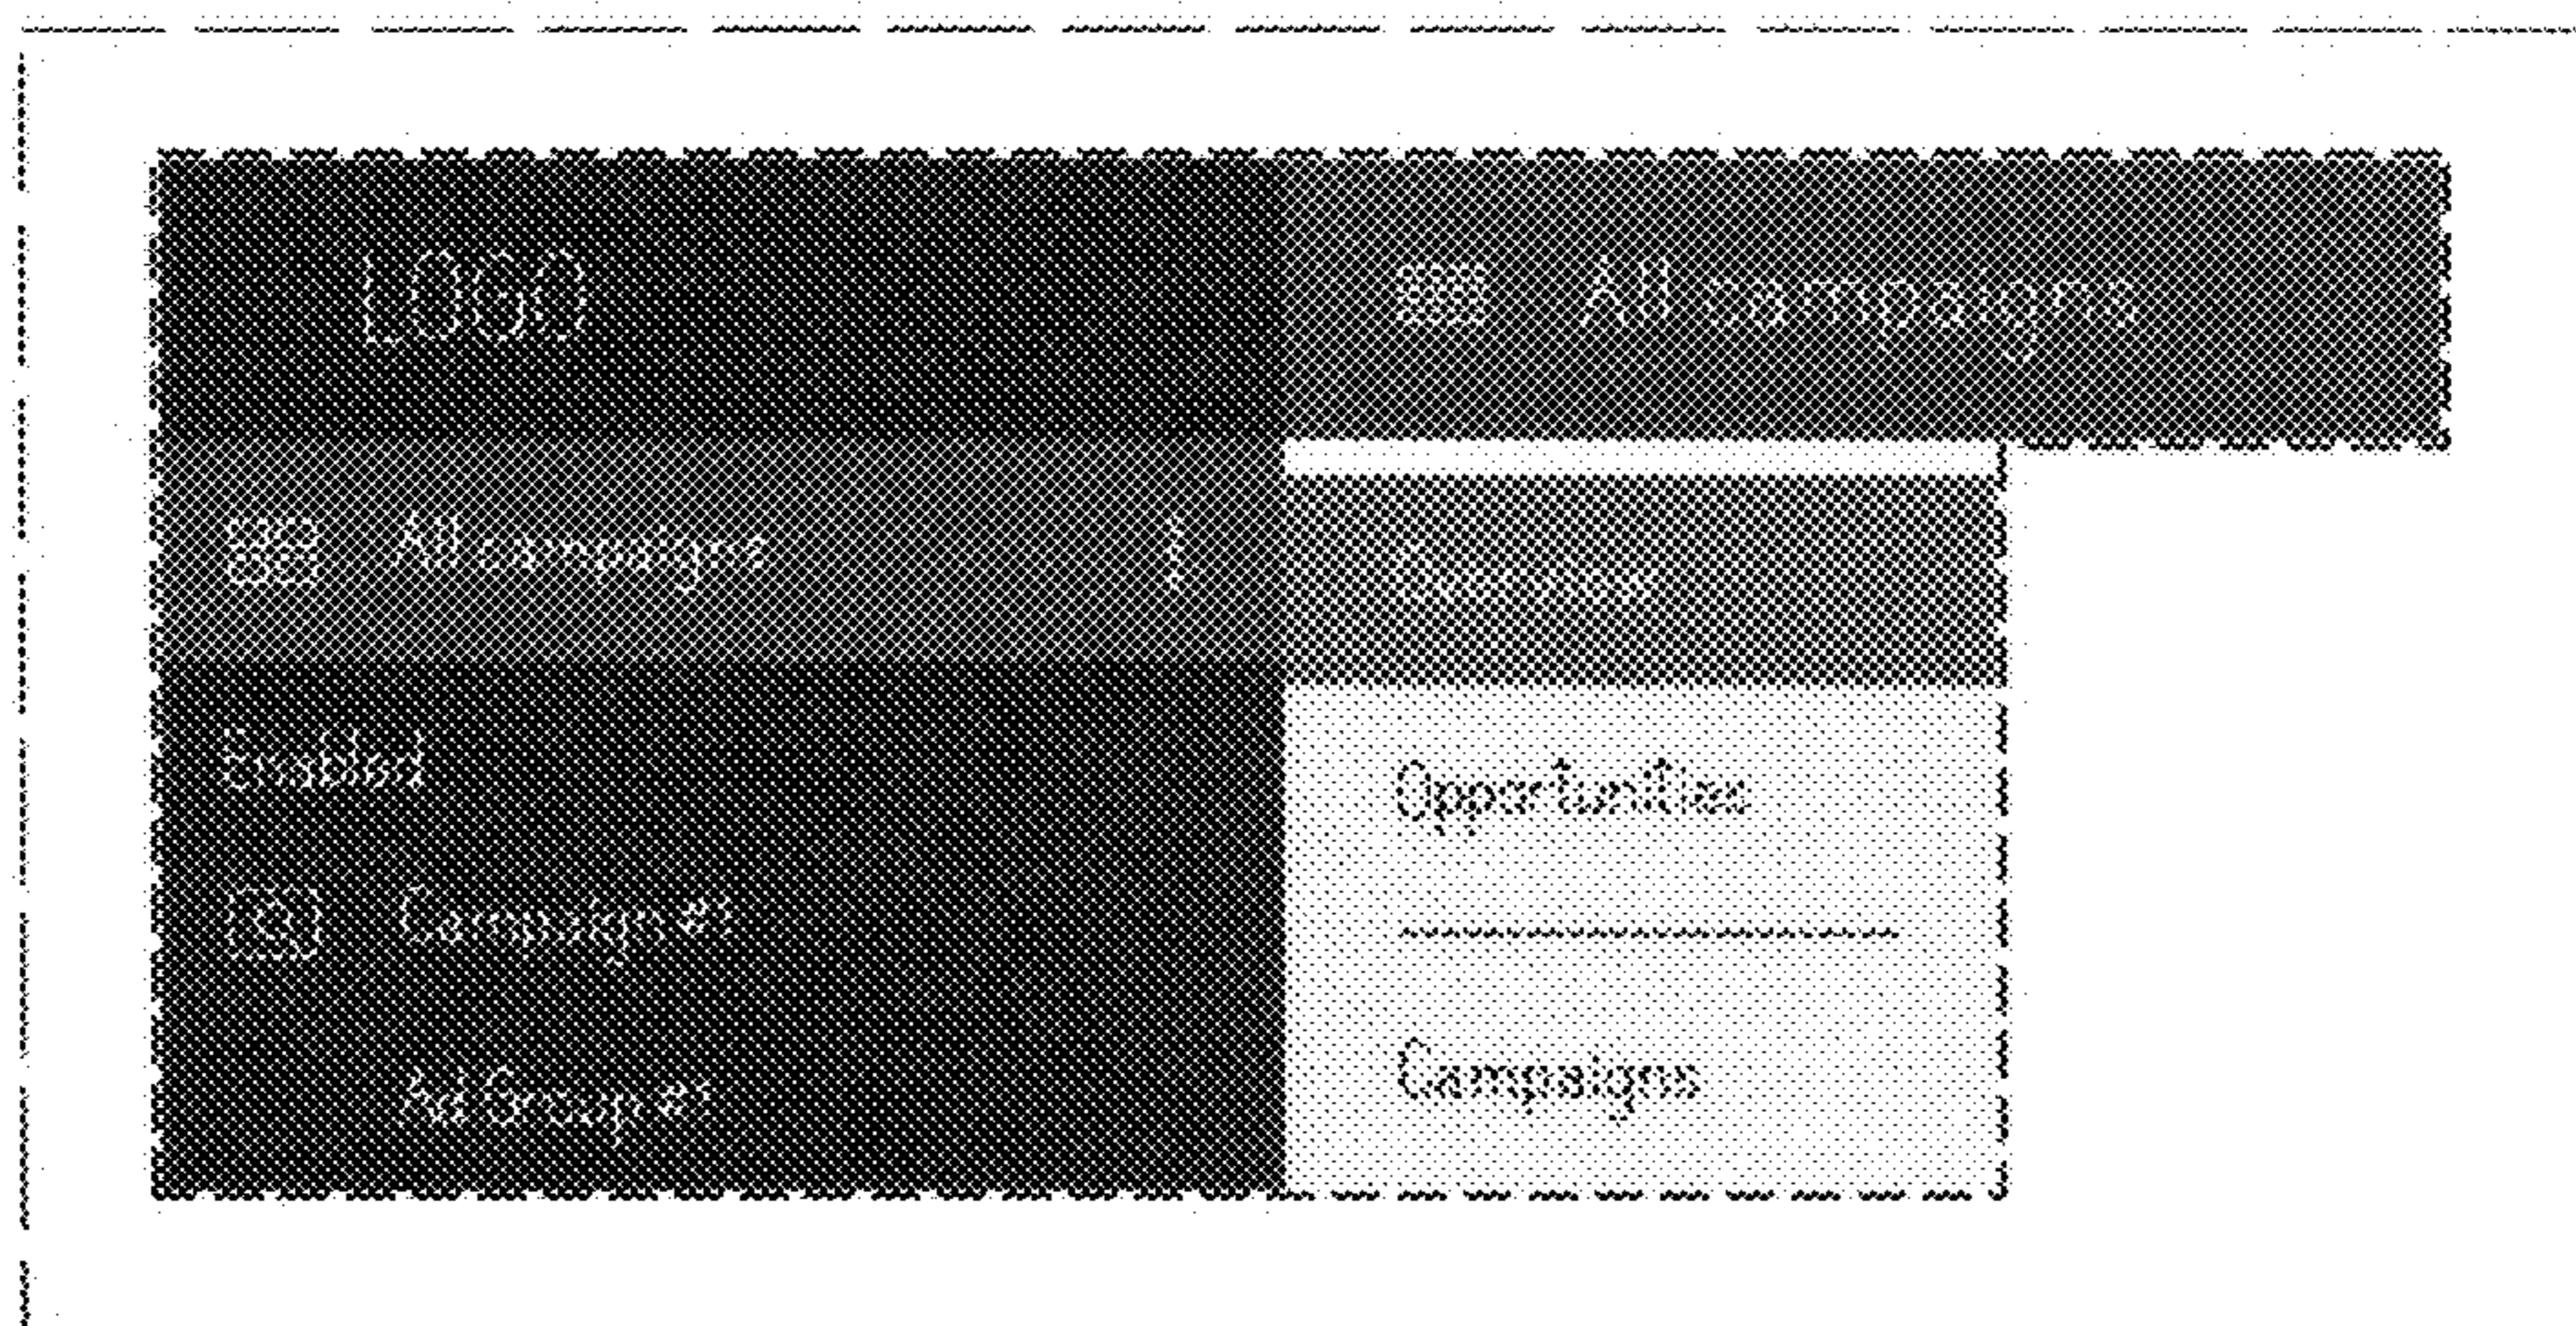

FIG. 1 is a front view of a portion of a display screen with a graphical user interface showing a first embodiment of our design;

FIG. 2 is a front view of a second embodiment of our design; FIG. 3 is a front view of a third embodiment of our design; and,

FIG. 4 is a front view of a fourth embodiment of our design. The outermost broken line shows the bounds of the claimed design and forms no part thereof. The medium length broken lines also form no part of the claimed design. The finer-incremented broken line showing of the text is included for the purpose of illustrating portions of the graphical user interface and forms no part of the claimed design.

The gray shading in the drawings indicates contrasts of appearance, without claiming any particular color.
