(57) **CLAIM**

The ornamental design for a display screen or portion thereof with transitional graphical user interface.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with transitional graphical user interface showing the first image in a sequence of our new design;

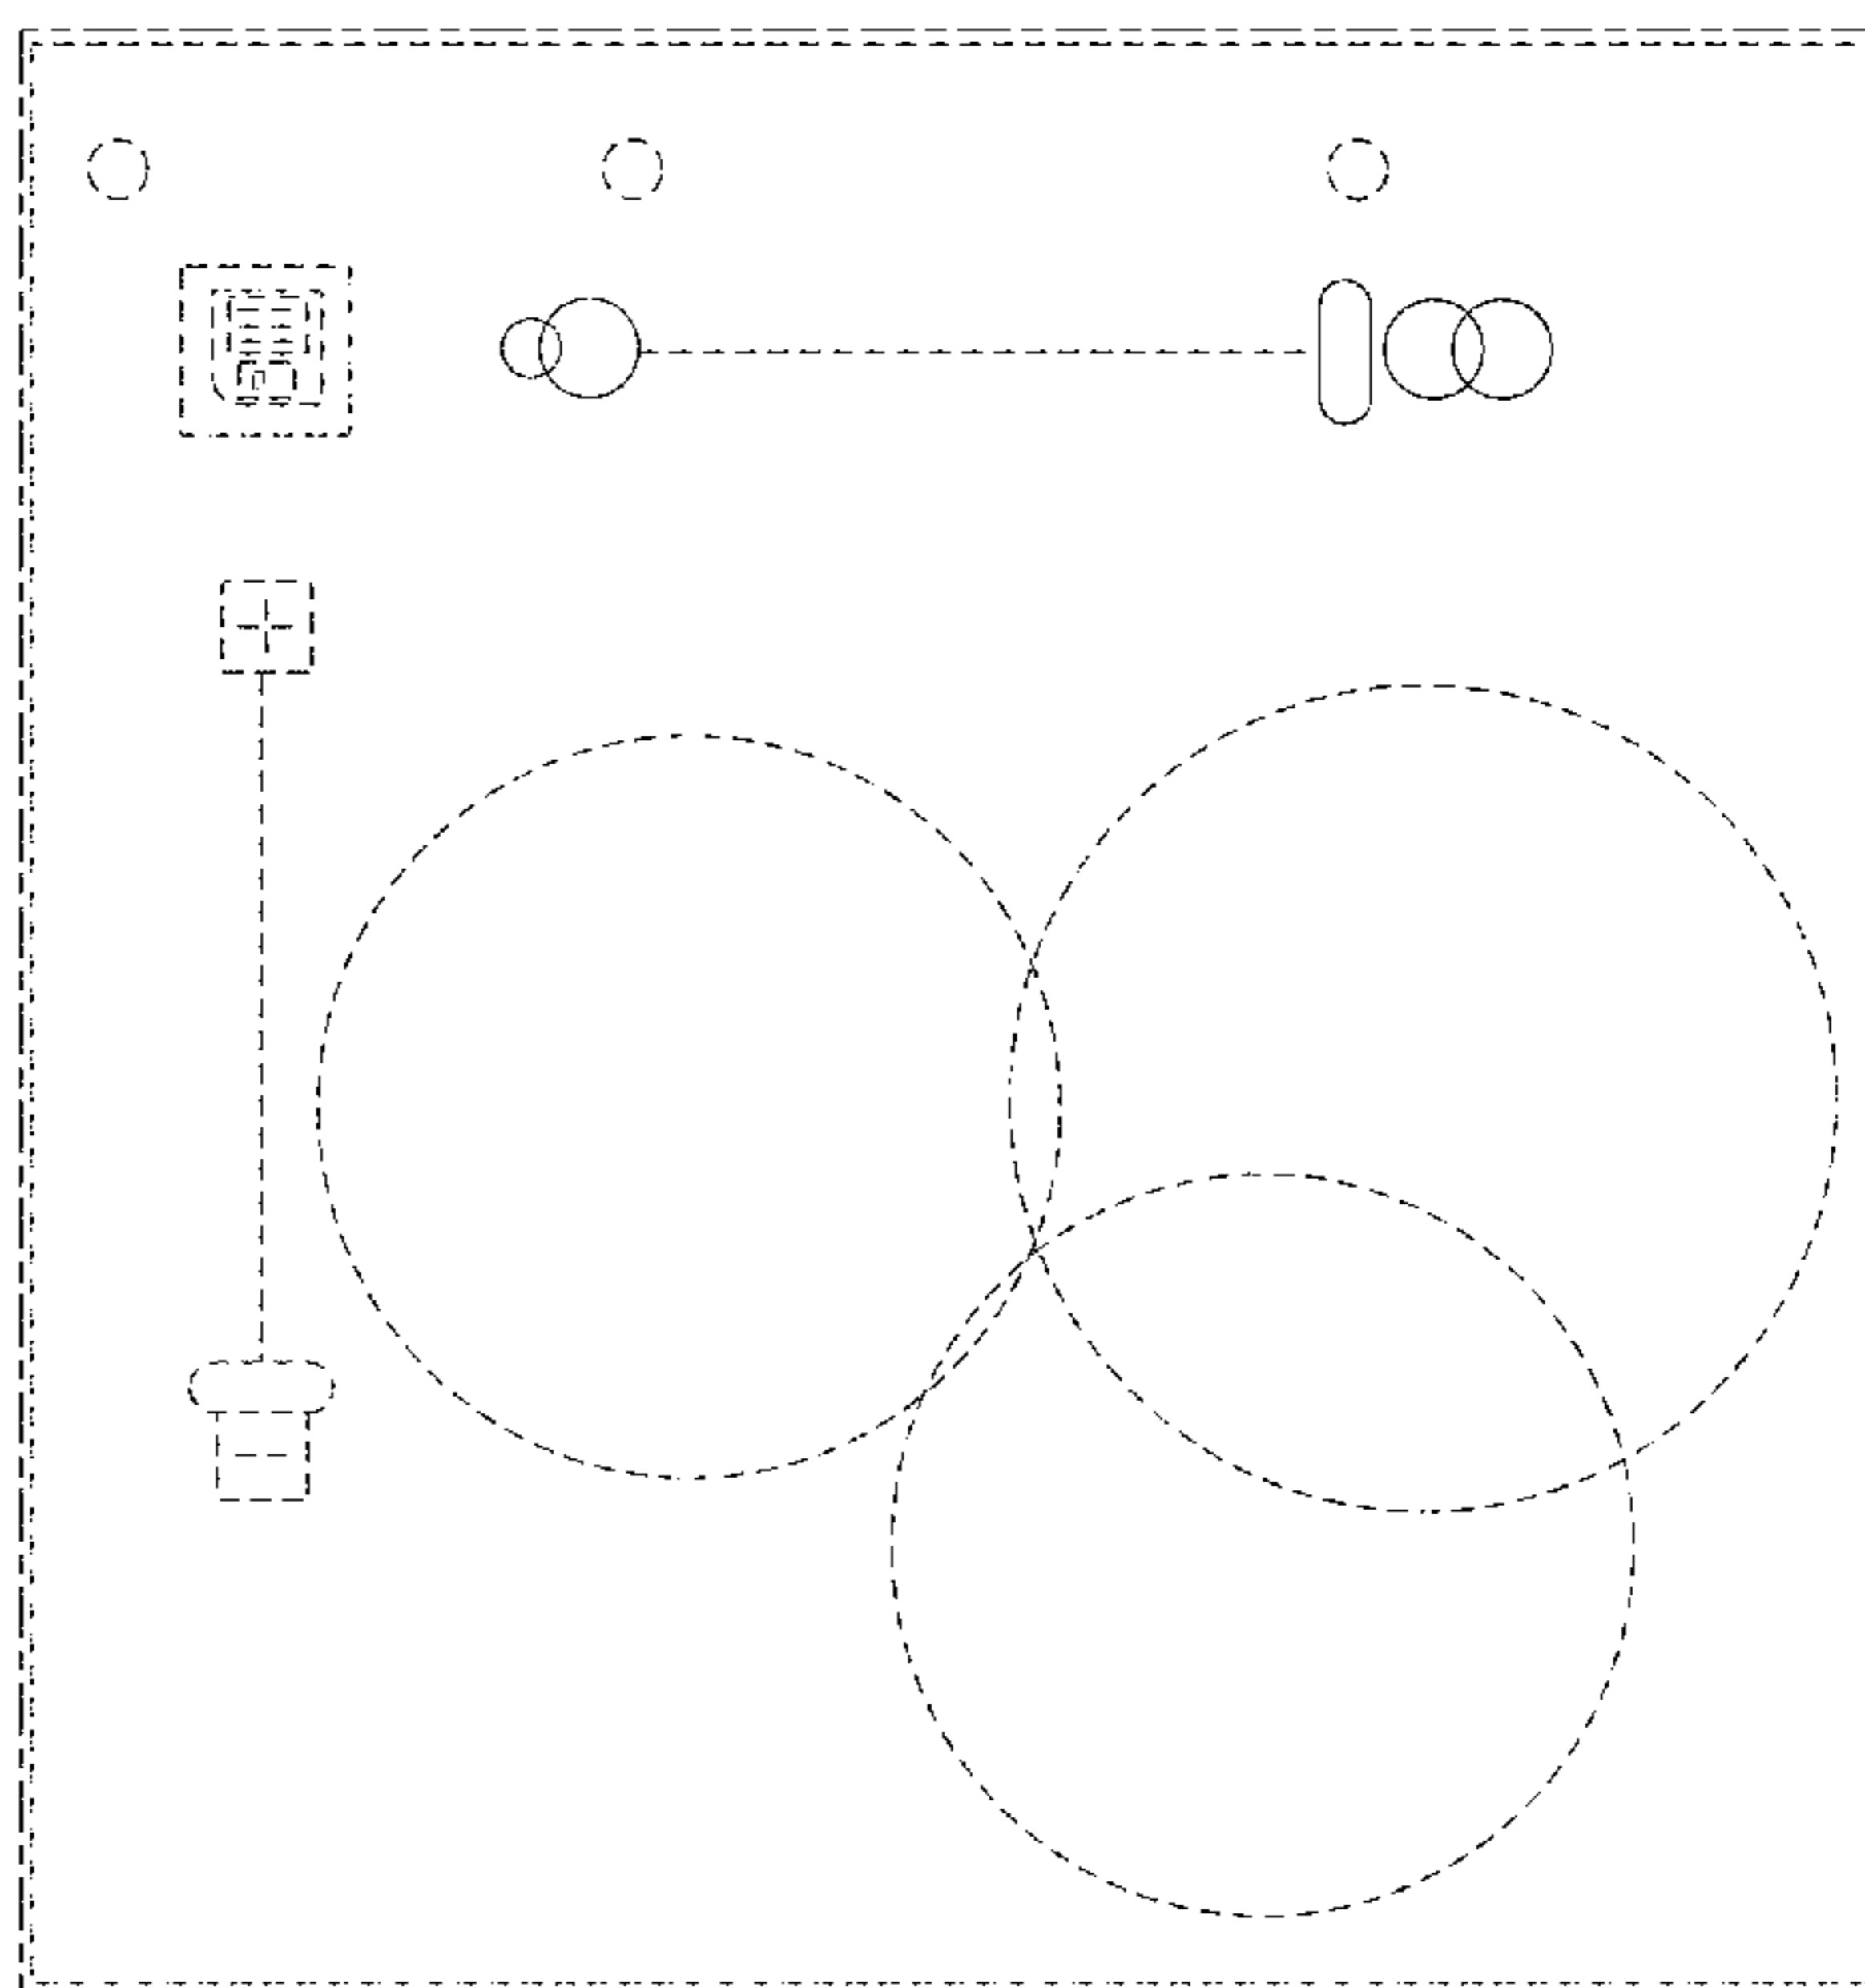

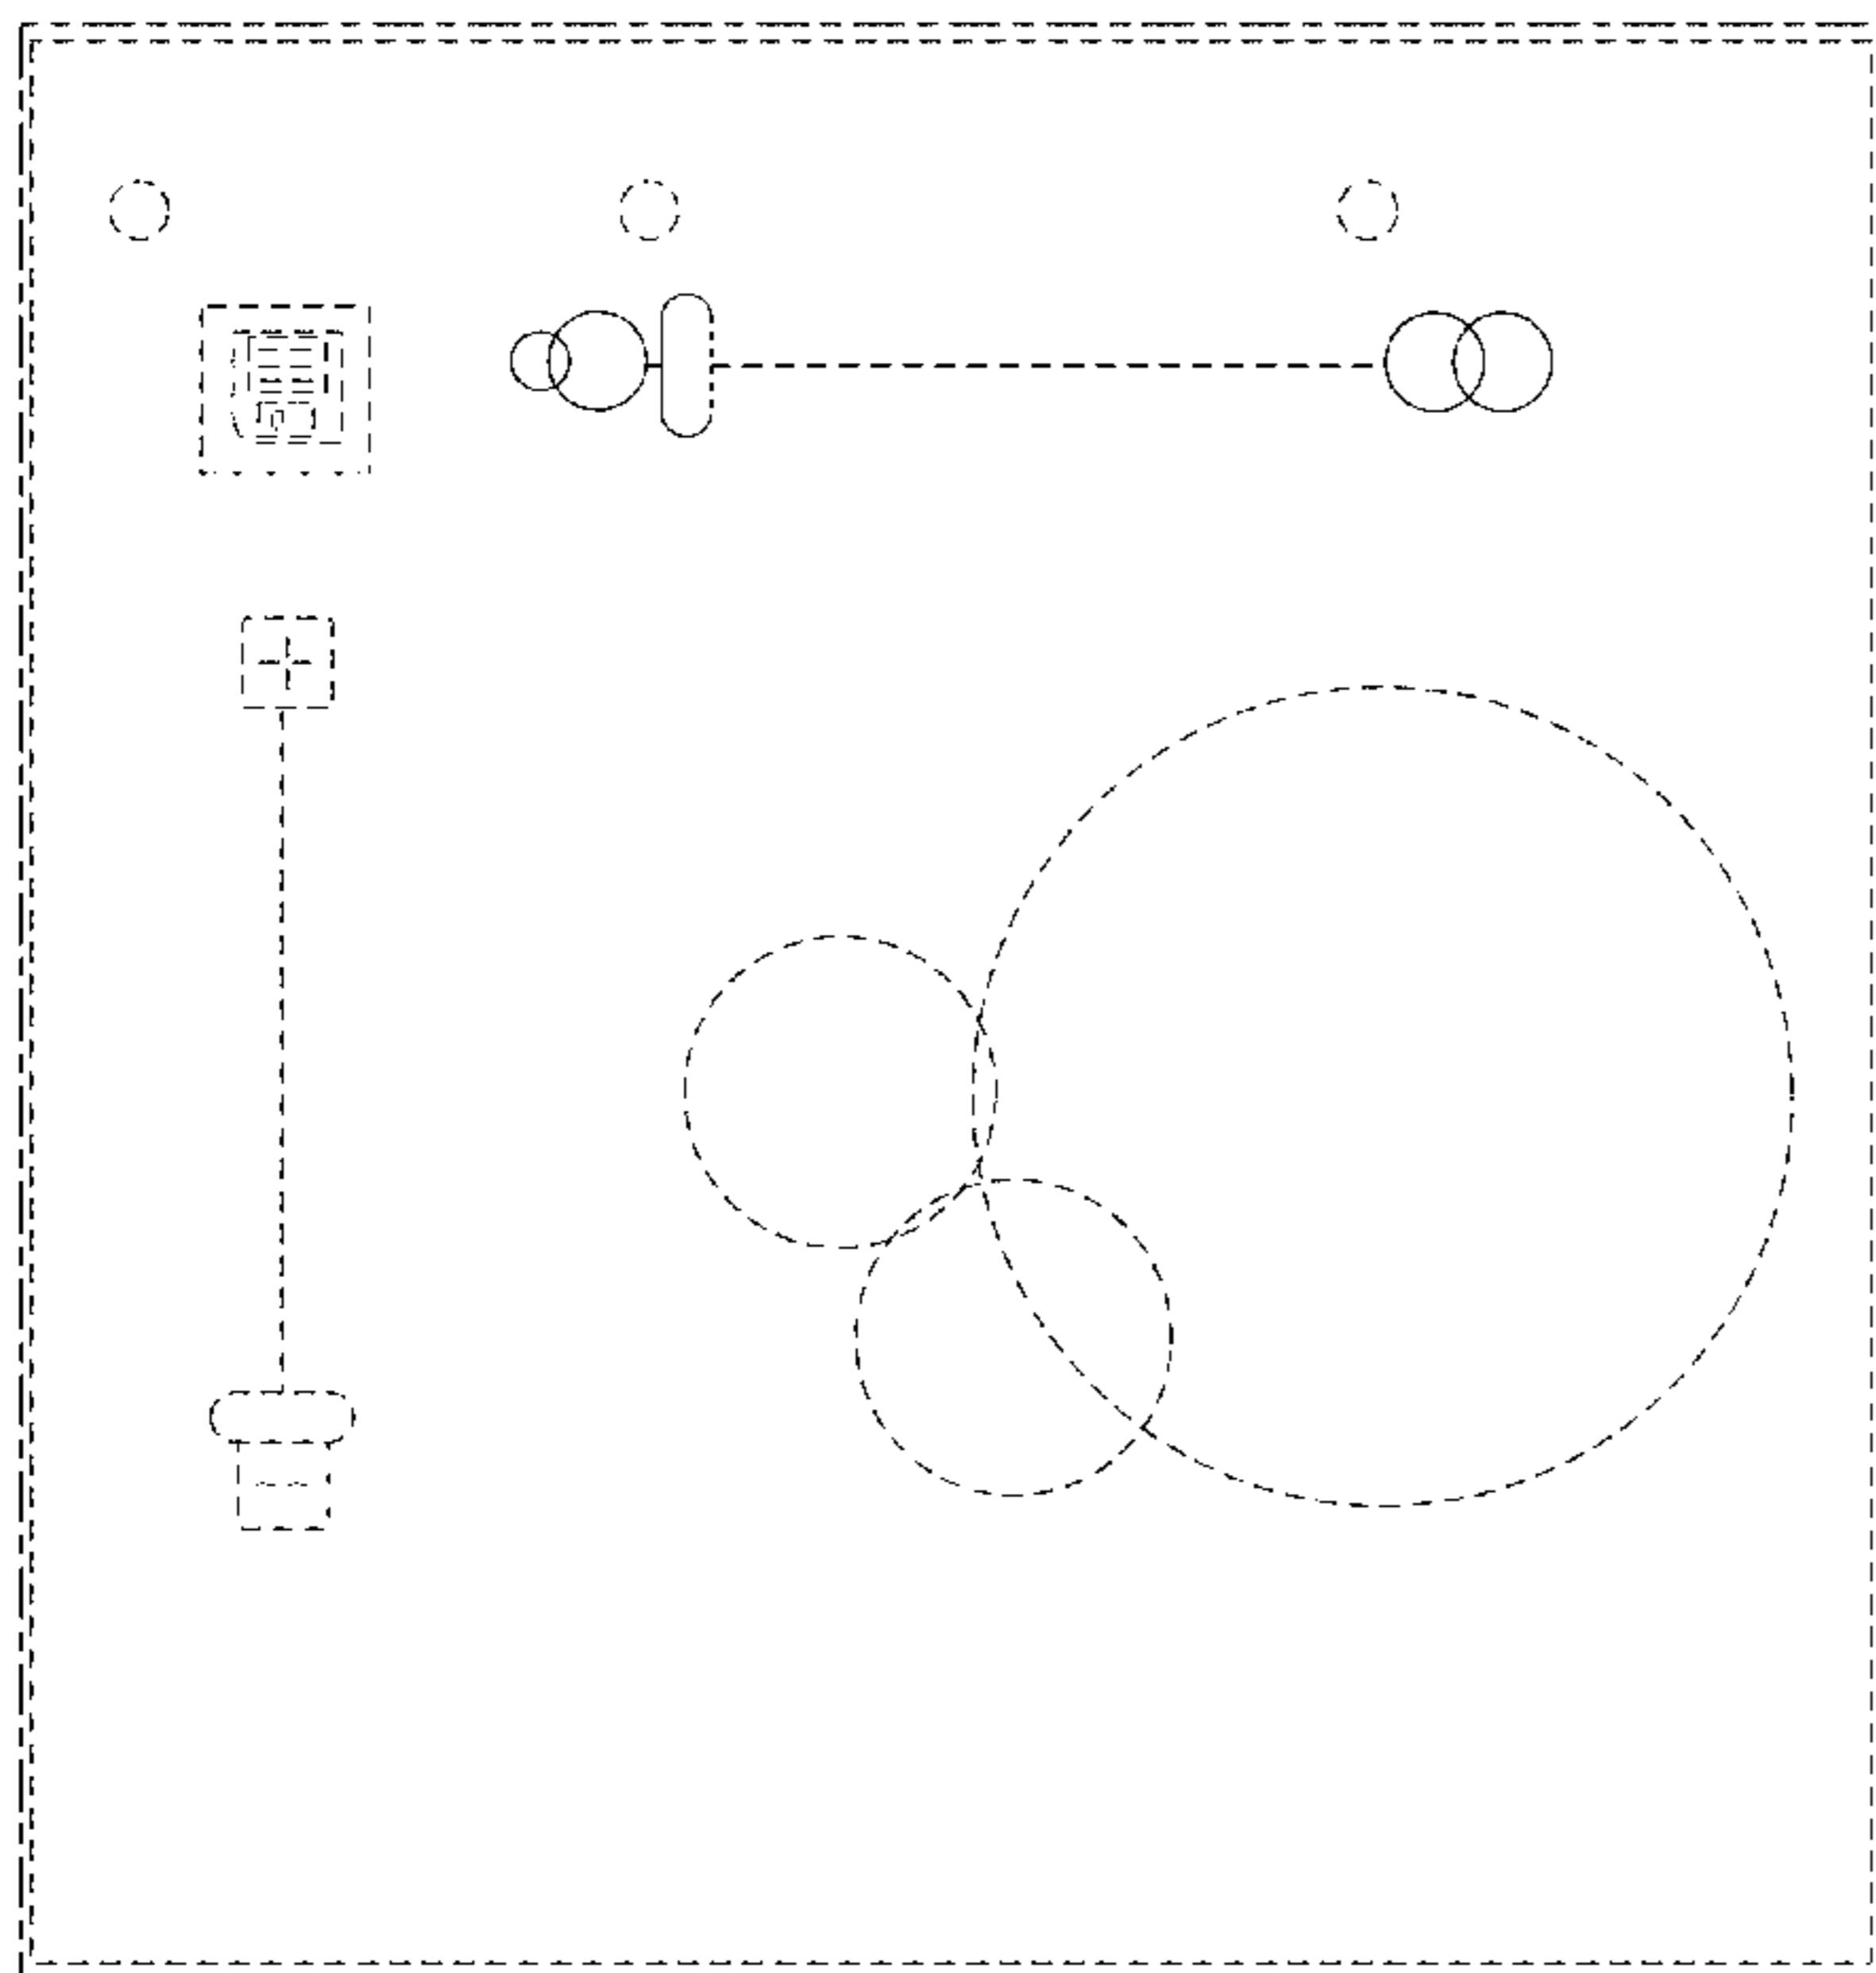

FIG. 2 is a front view of the second image thereof; and,

FIG. 3 is a front view of the third image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another forms no part of the claimed design.

The long and short dashed broken lines in the drawings illustrate the display screen or portions thereof and form no part of the claimed design. The remainder of the graphical user interface shown in broken lines in the drawings illustrates environment and forms no part of the claimed design. The appearance of graphical user interfaces shown in FIGS. 2, 3, and 4 are examples of sequential transitions. The process or period in which one graphical user interface may transition to another forms no part of the claimed design.
