DESCRIPTION

1. Pressure detector for an extracorporeal circulation circuit
Fig. 1.1 is a perspective view;
Fig. 1.2 is a front view;
Fig. 1.3 is a rear view;
Fig. 1.4 is a top view;
Fig. 1.5 is bottom view;
Fig. 1.6 is a left side view;
Fig. 1.7 is a right side view;
Fig. 1.8 is a cross-sectional view of the claimed design taken along the line 1.8-1.8 in Fig. 1.2.

The portions of the pressure detector for an extracorporeal circulation circuit shown in broken lines do not form part of the claimed design.

The broken lines having alternating long and short segments define the boundaries of the claimed design and form no part of the claimed design.

The article is transparent.

(Continued)

The thin contour lines shown on the surface of the design illustrate the shape of the three-dimensional surface.

1 Claim, 8 Drawing Sheets
