(57) **CLAIM**

The ornamental design for a serrated knife, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a serrated knife of the present invention.
 FIG. 2 is a side view of a serrated knife depicted in FIG. 1.
 FIG. 3 is an alternate side view of a serrated knife depicted in FIGS. 1 through 2, rotated about a substantially horizontal axis from the view depicted in FIG. 2.
 FIG. 4 is an overhead view of a serrated knife depicted in FIGS. 1 through 3.
 FIG. 5 is a bottom view of a serrated knife depicted in FIGS. 1 through 4.
 FIG. 6 is a front view of a serrated knife depicted in FIGS. 1 through 5; and,
 FIG. 7 is a rear view of a serrated knife depicted in FIGS. 1 through 6.

The present invention is a dual-edge serrated knife for use in the fishing and wildlife industry, wherein, by way of illustration, but not limitation, a serrated edge can be used for severing through bone and a blade edge can be used for filleting meat from bone.
