(57) **CLAIM**

The ornamental design for a tire, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a tire, showing my new design;  
FIG. 2 is an enlarged perspective view;  
FIG. 3 is a side view thereof;  
FIG. 4 is an enlarged section of the side view;  
FIG. 5 is a front view thereof; and,  
FIG. 6 is an enlarged section of the front view.

The broken lines and the region therebetween defining the inner bead and the sidewall, as well as the features between adjacent surface areas of the tire tread, depict subject matter that forms no part of the claimed tire tread design, and are included for the purpose of illustrating the full tire to which the claimed design is applied. The tread pattern is understood to repeat throughout the circumference of the tire. The other side view is identical to the illustrated side view.

**1 Claim, 6 Drawing Sheets**

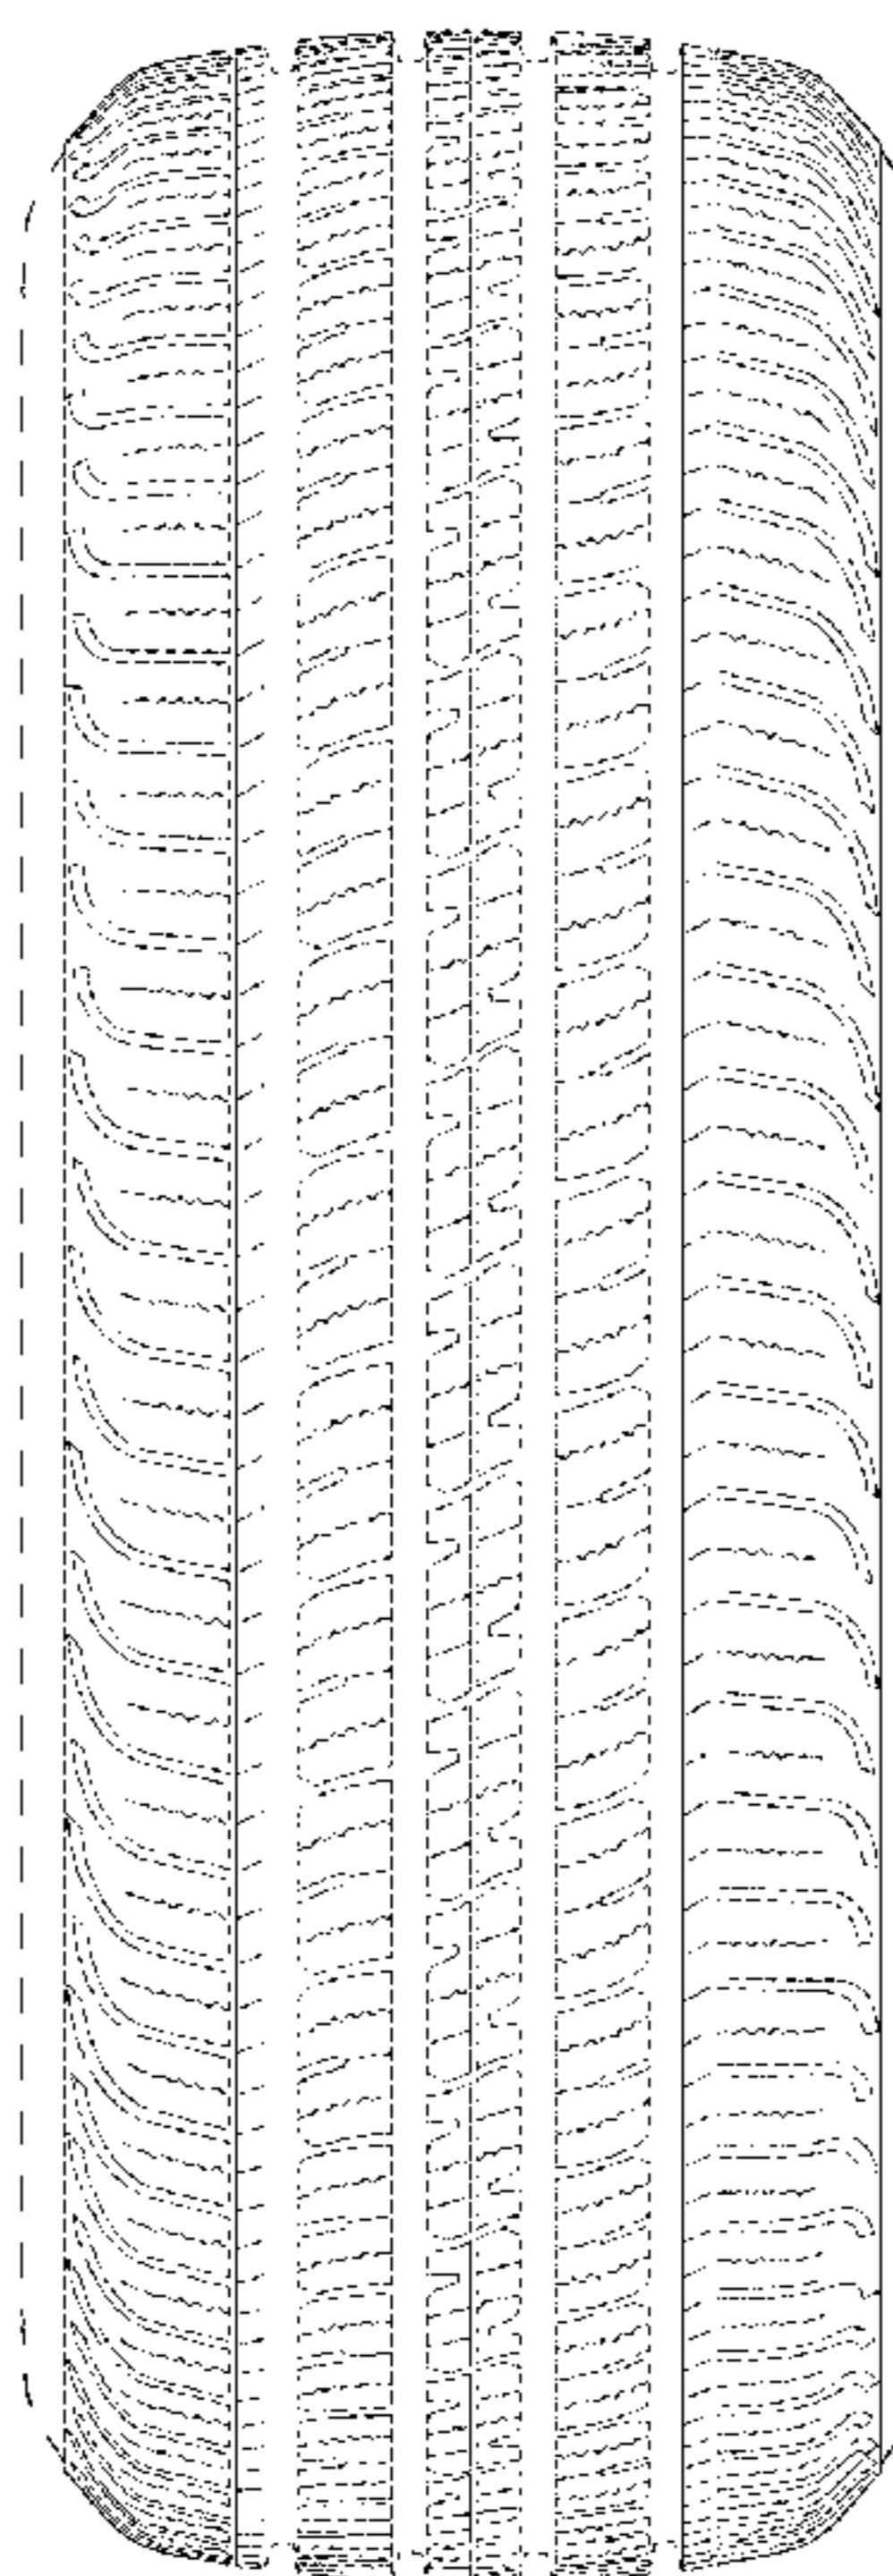

FIG. 1

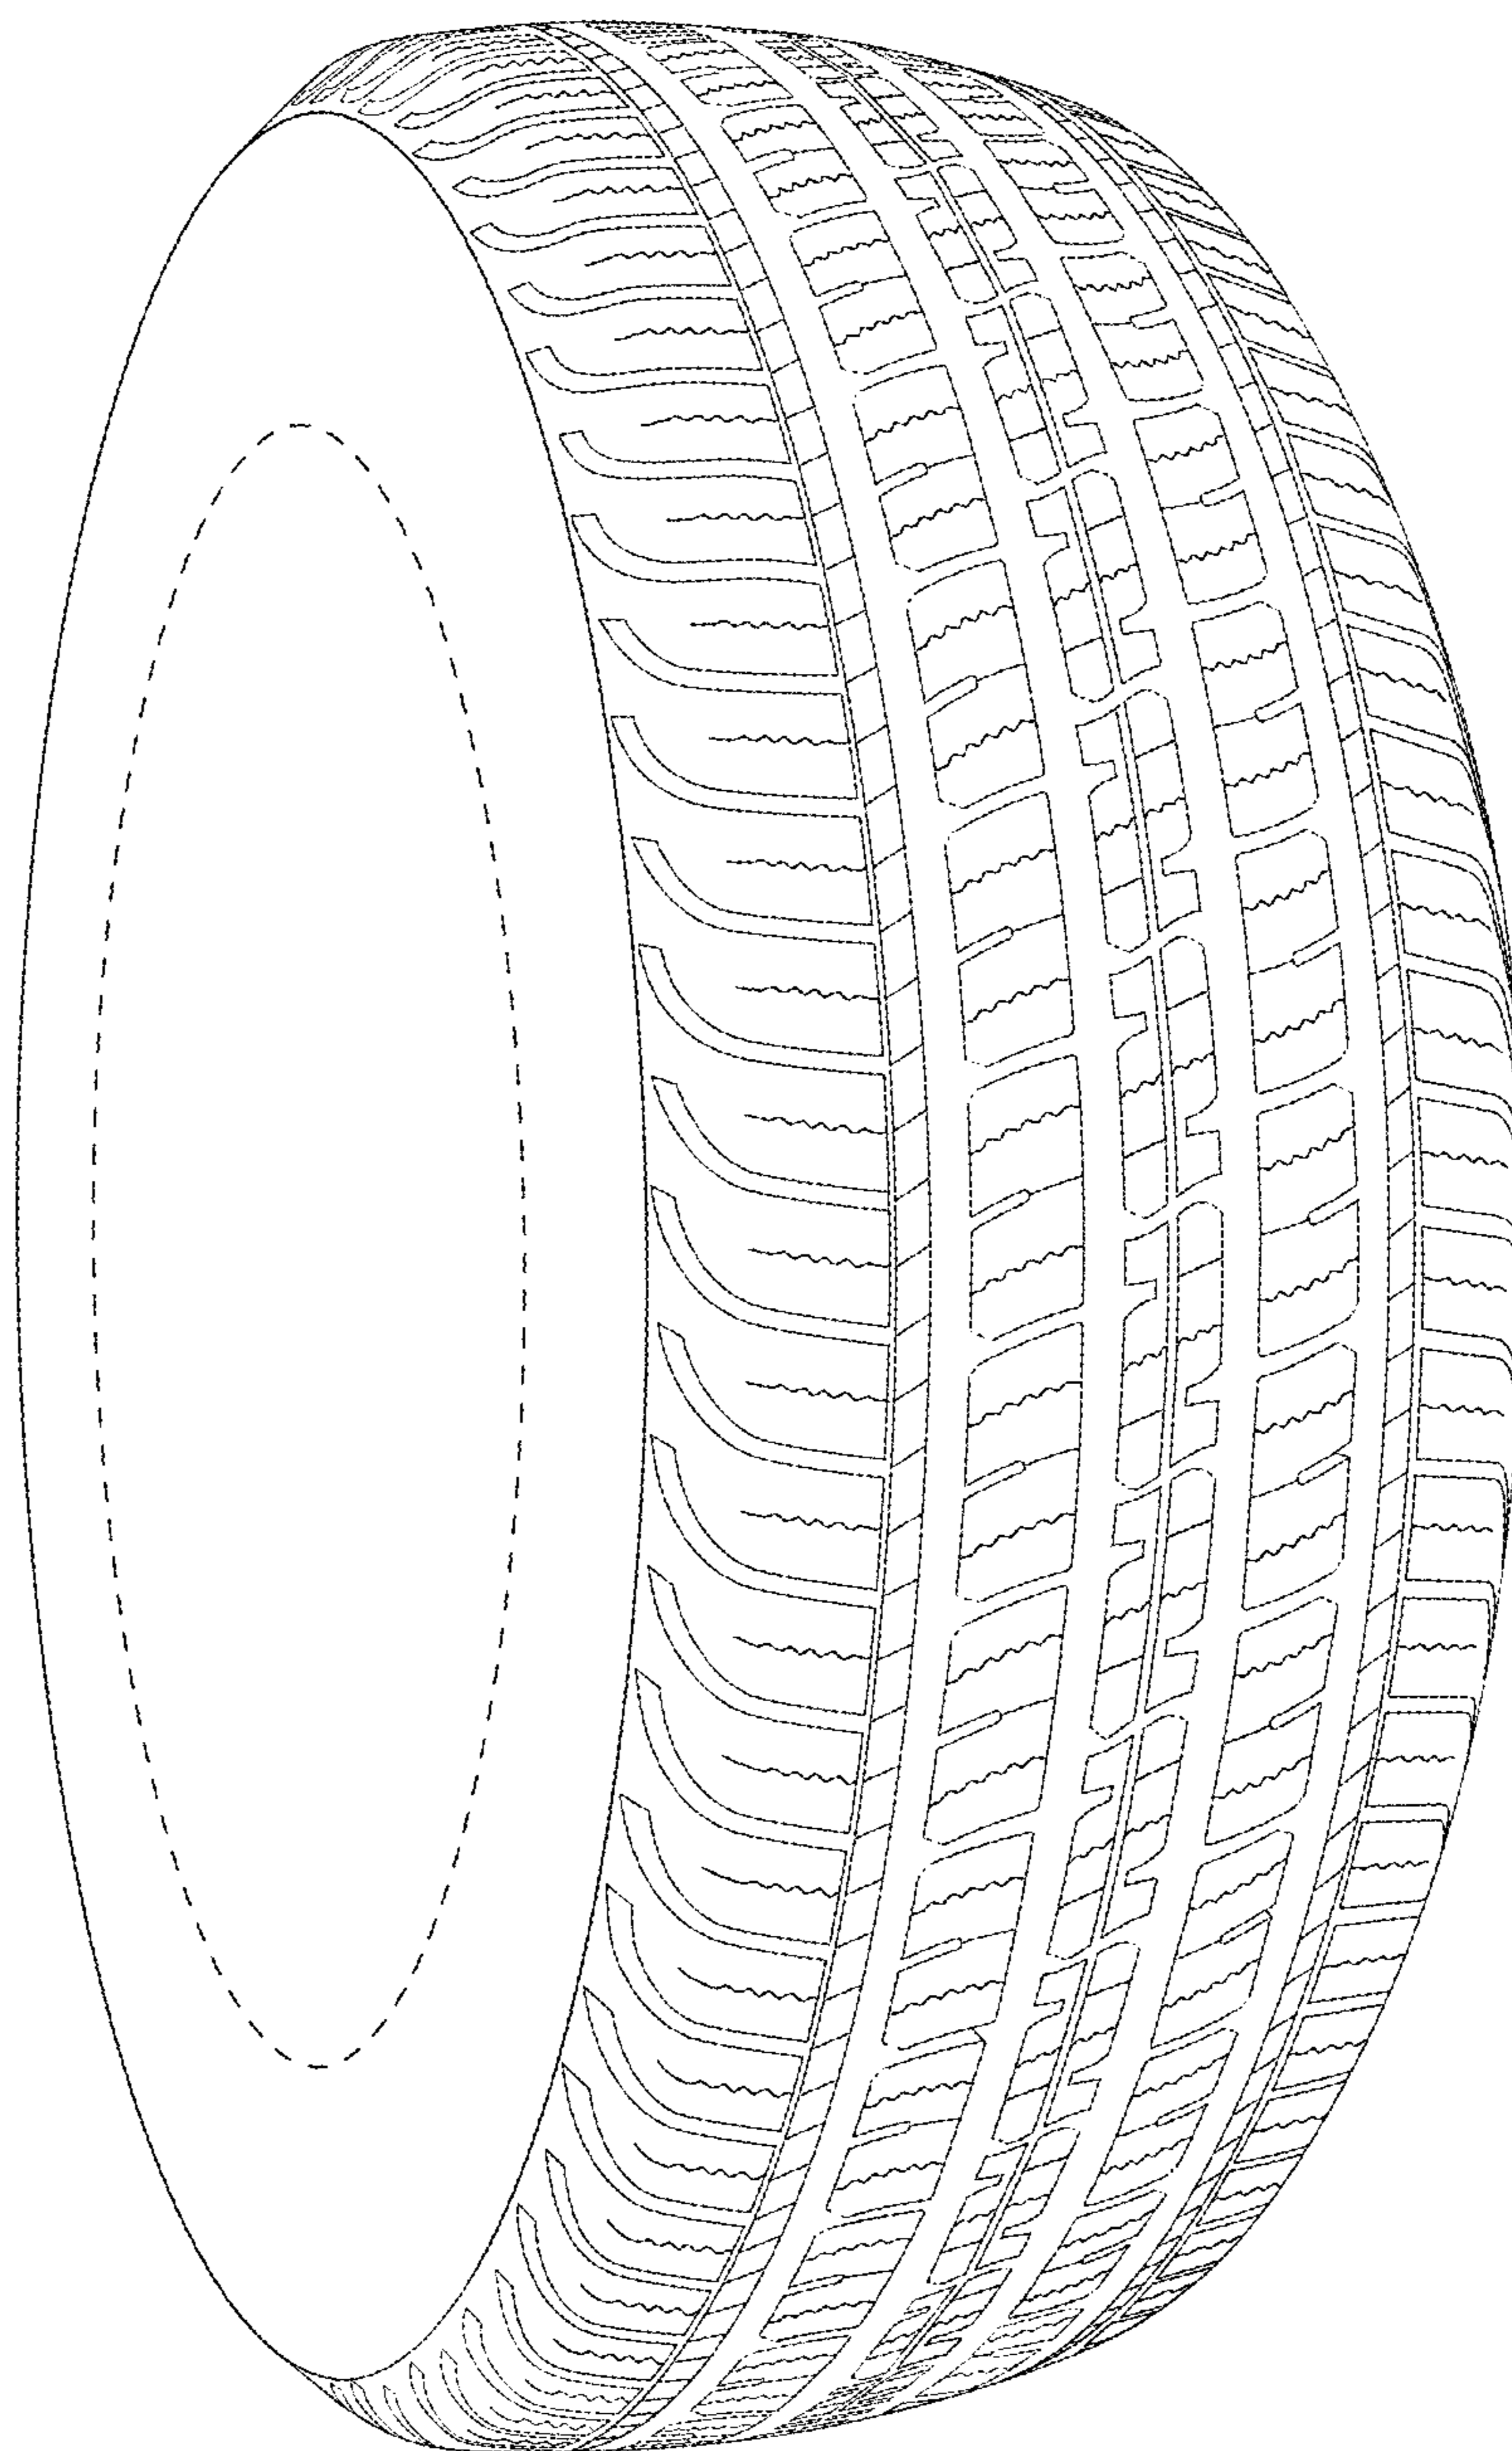

FIG. 2

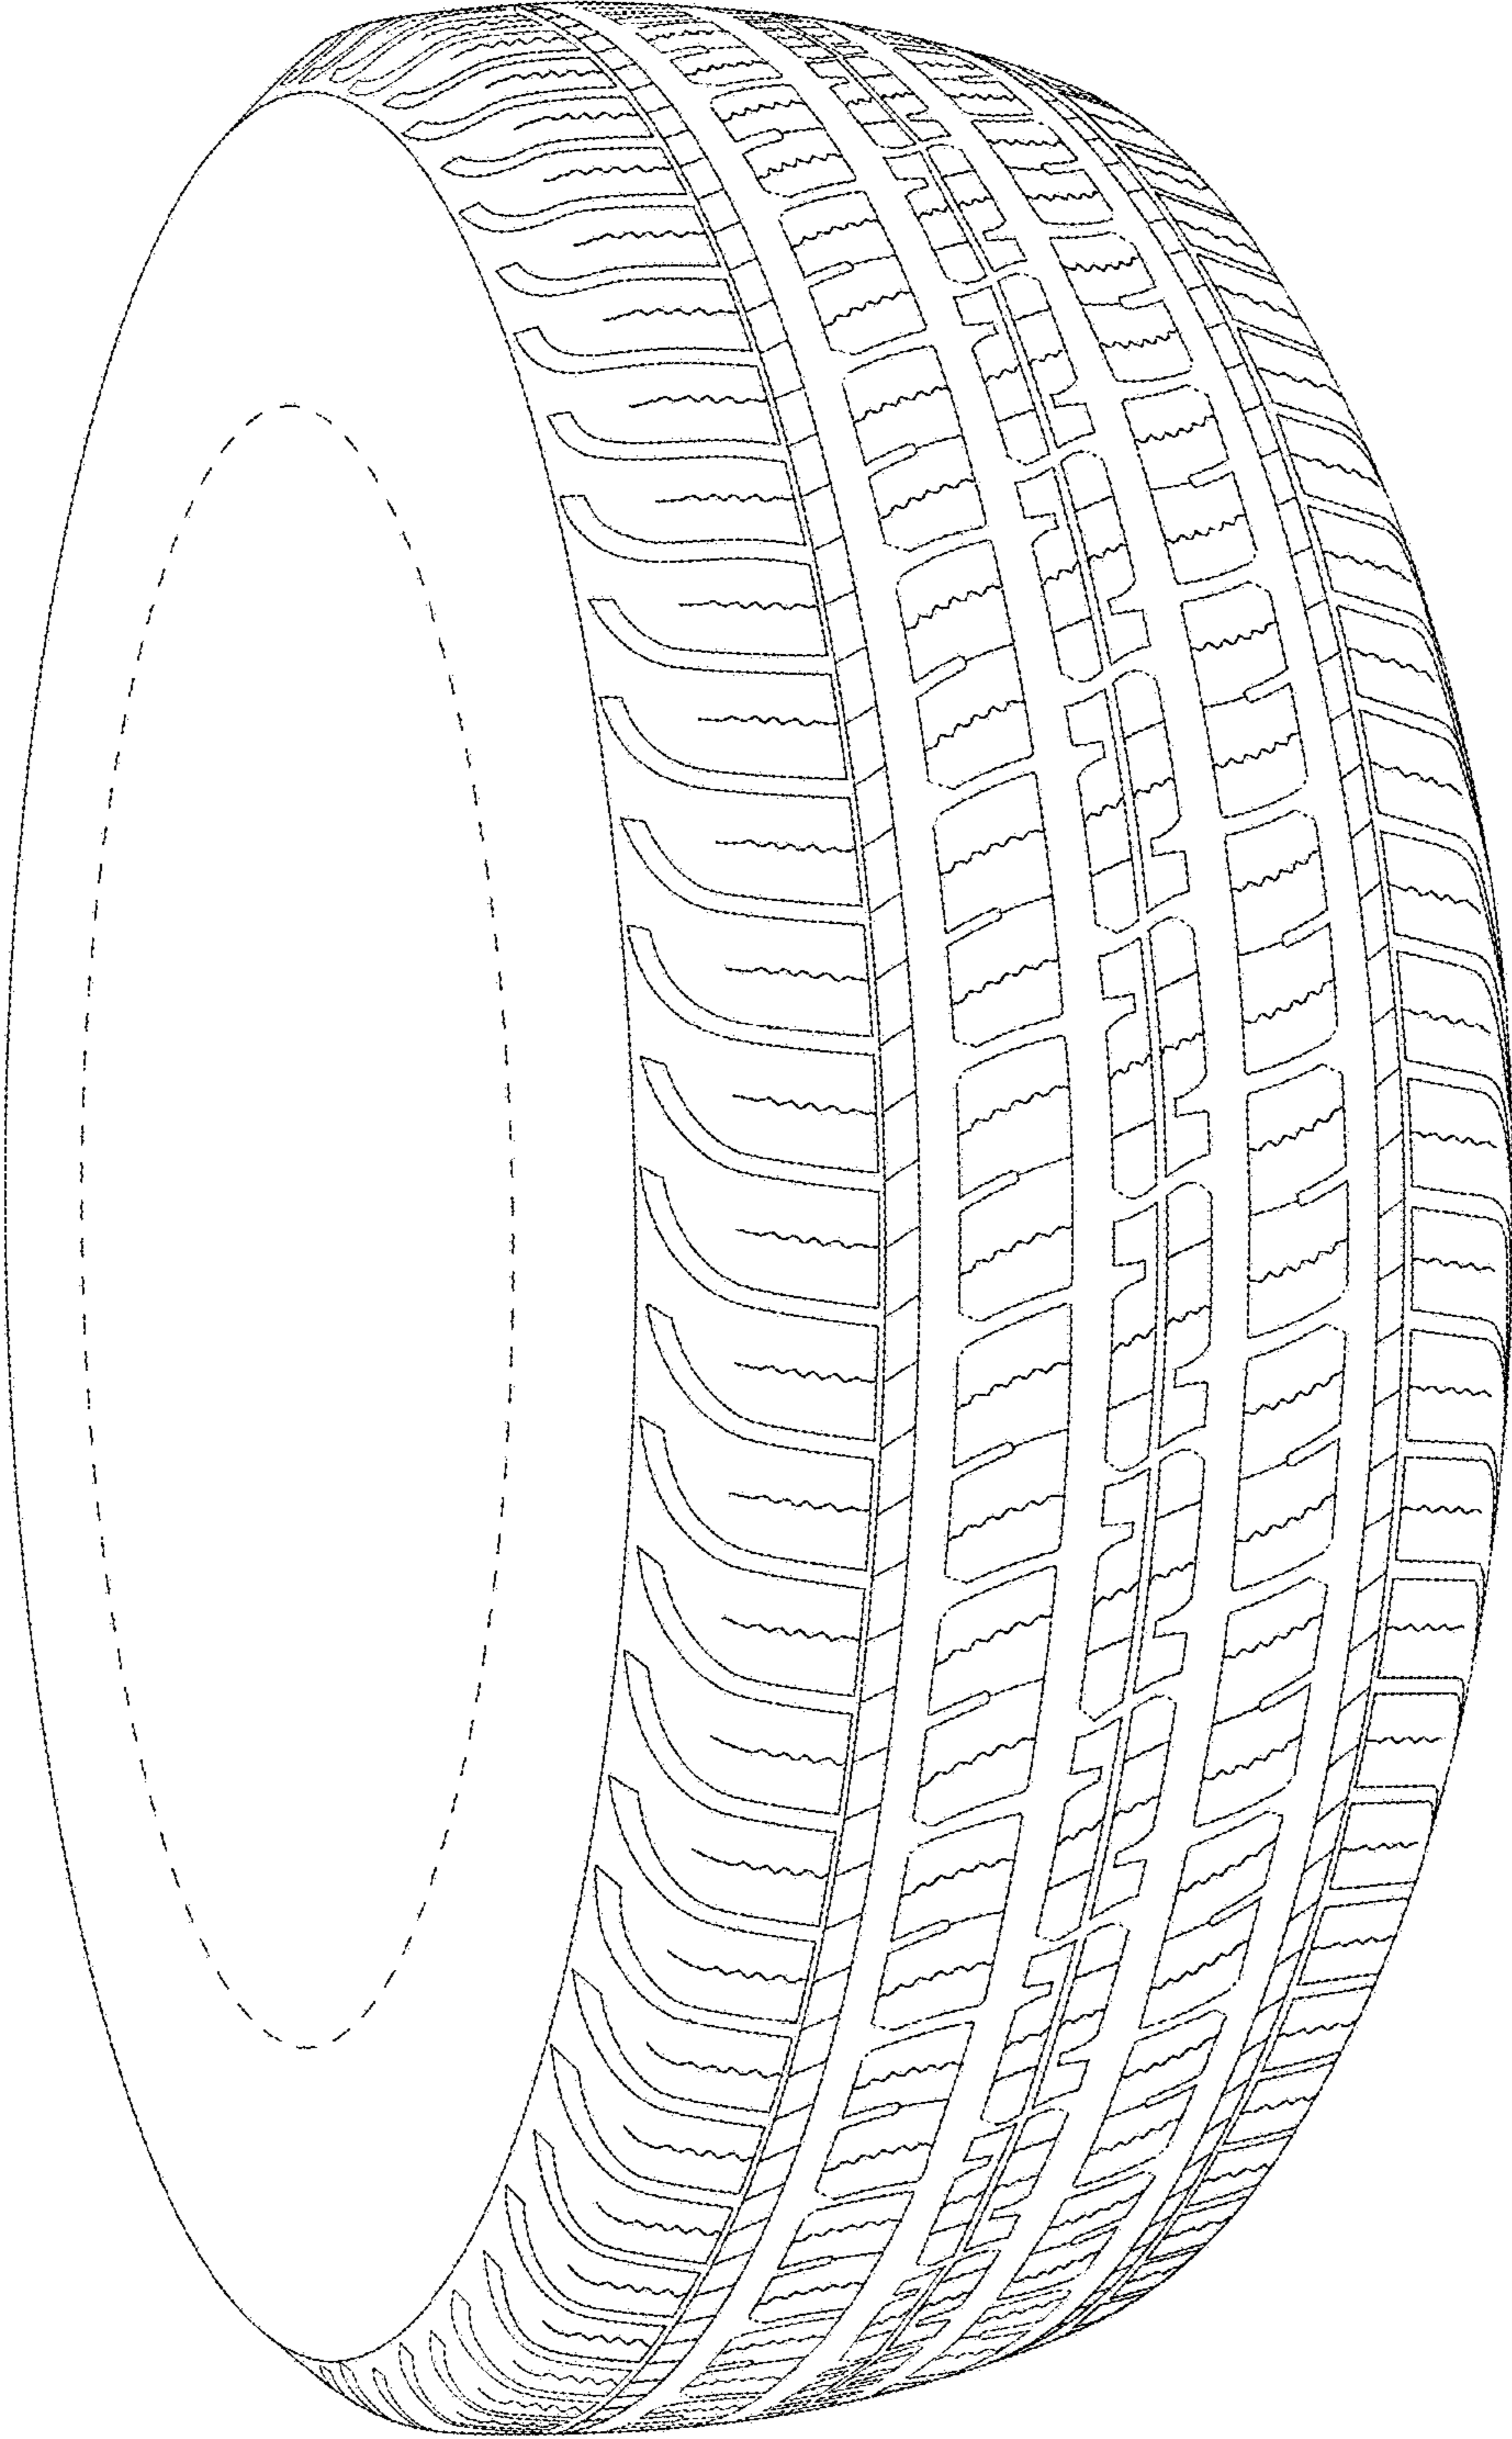

FIG. 3

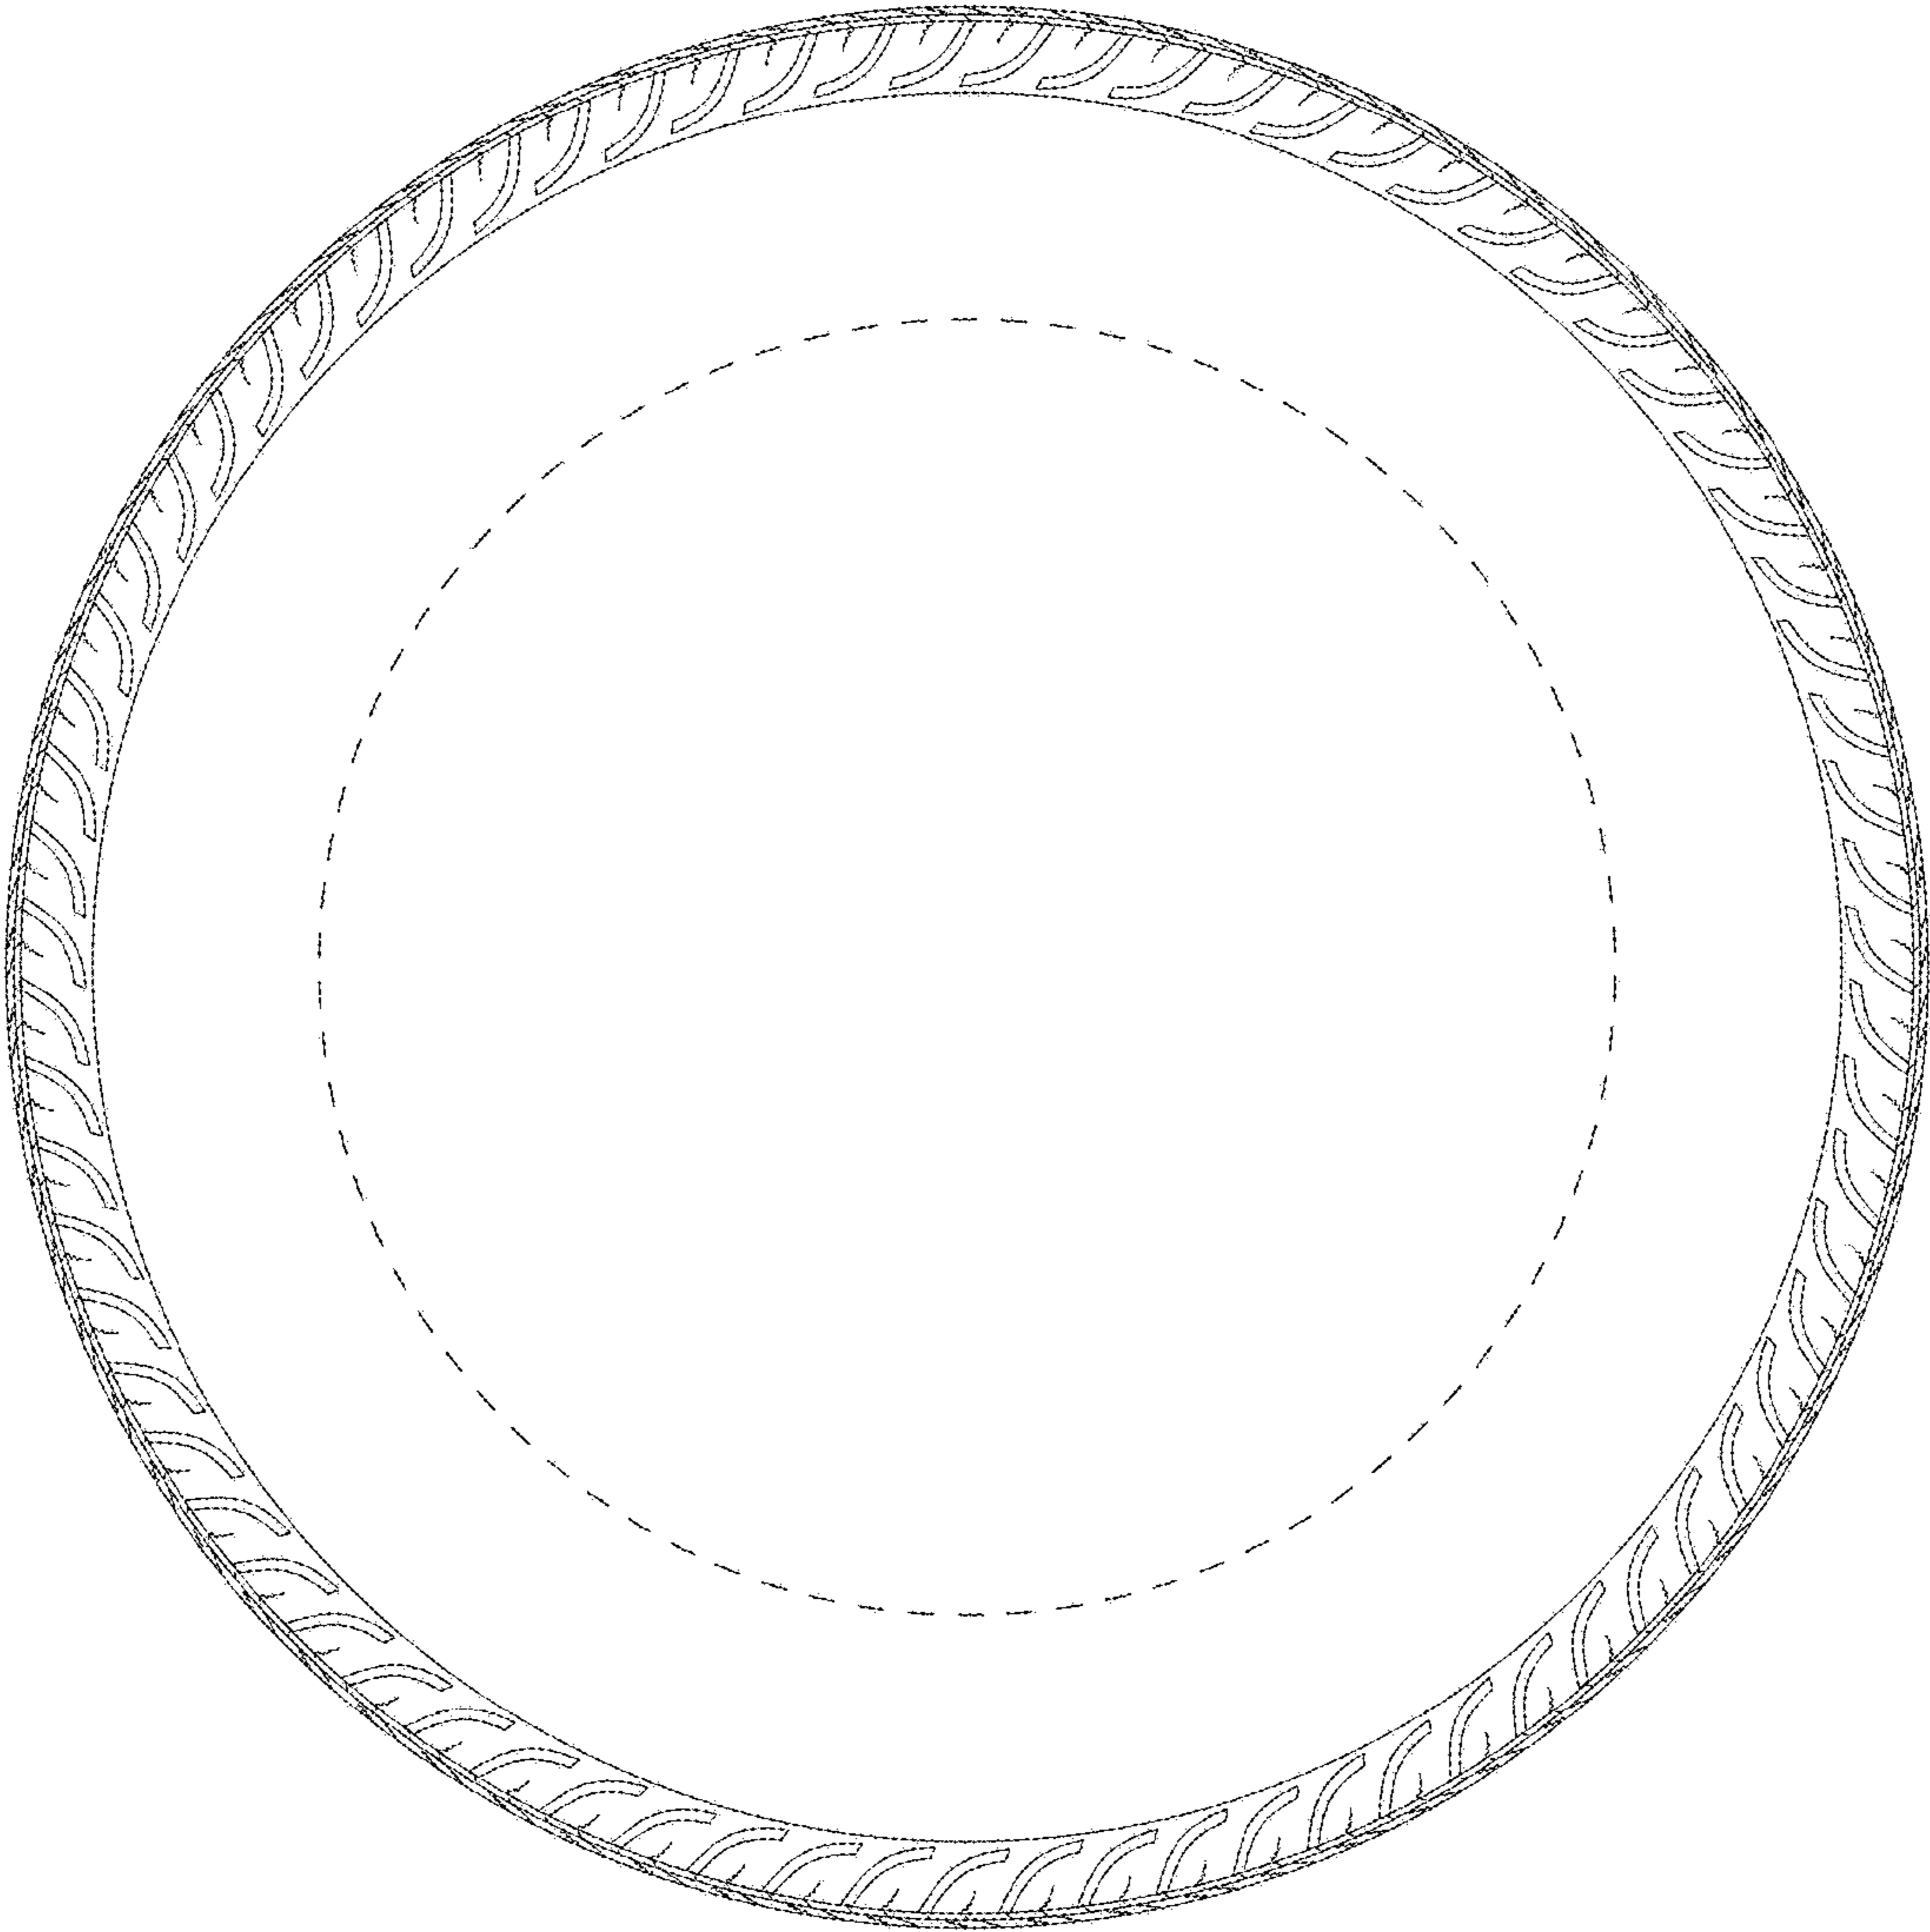

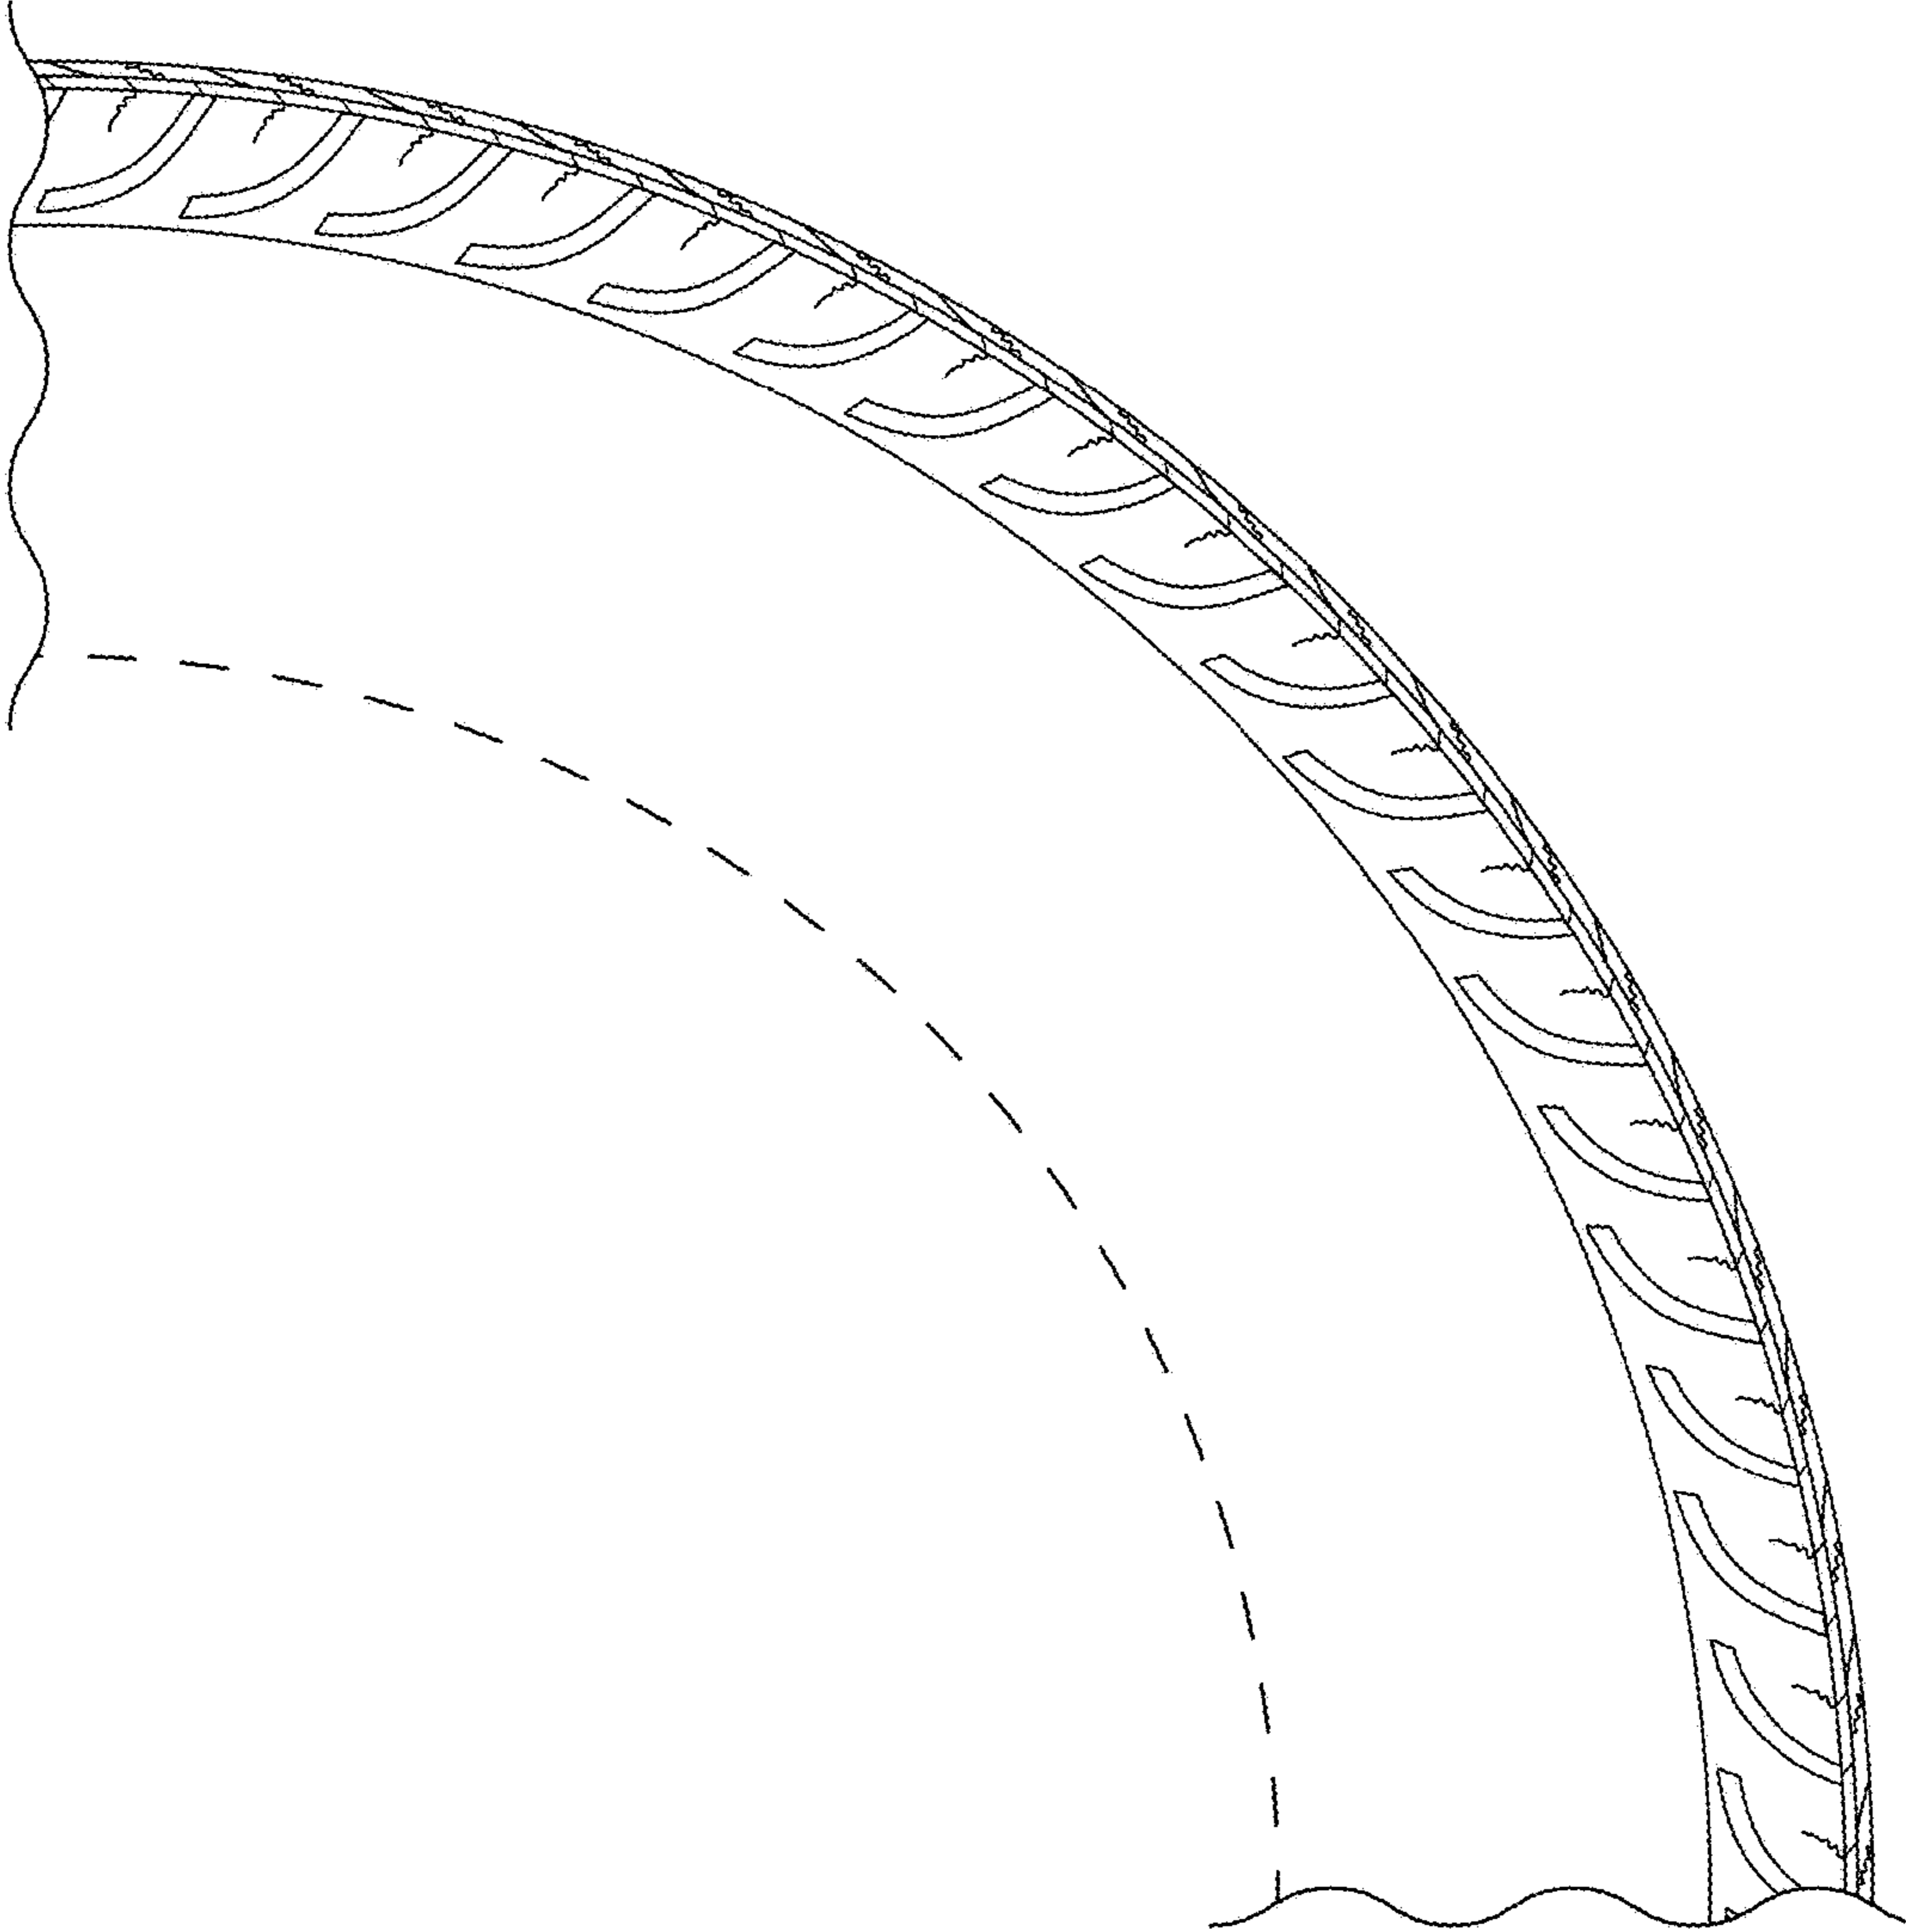

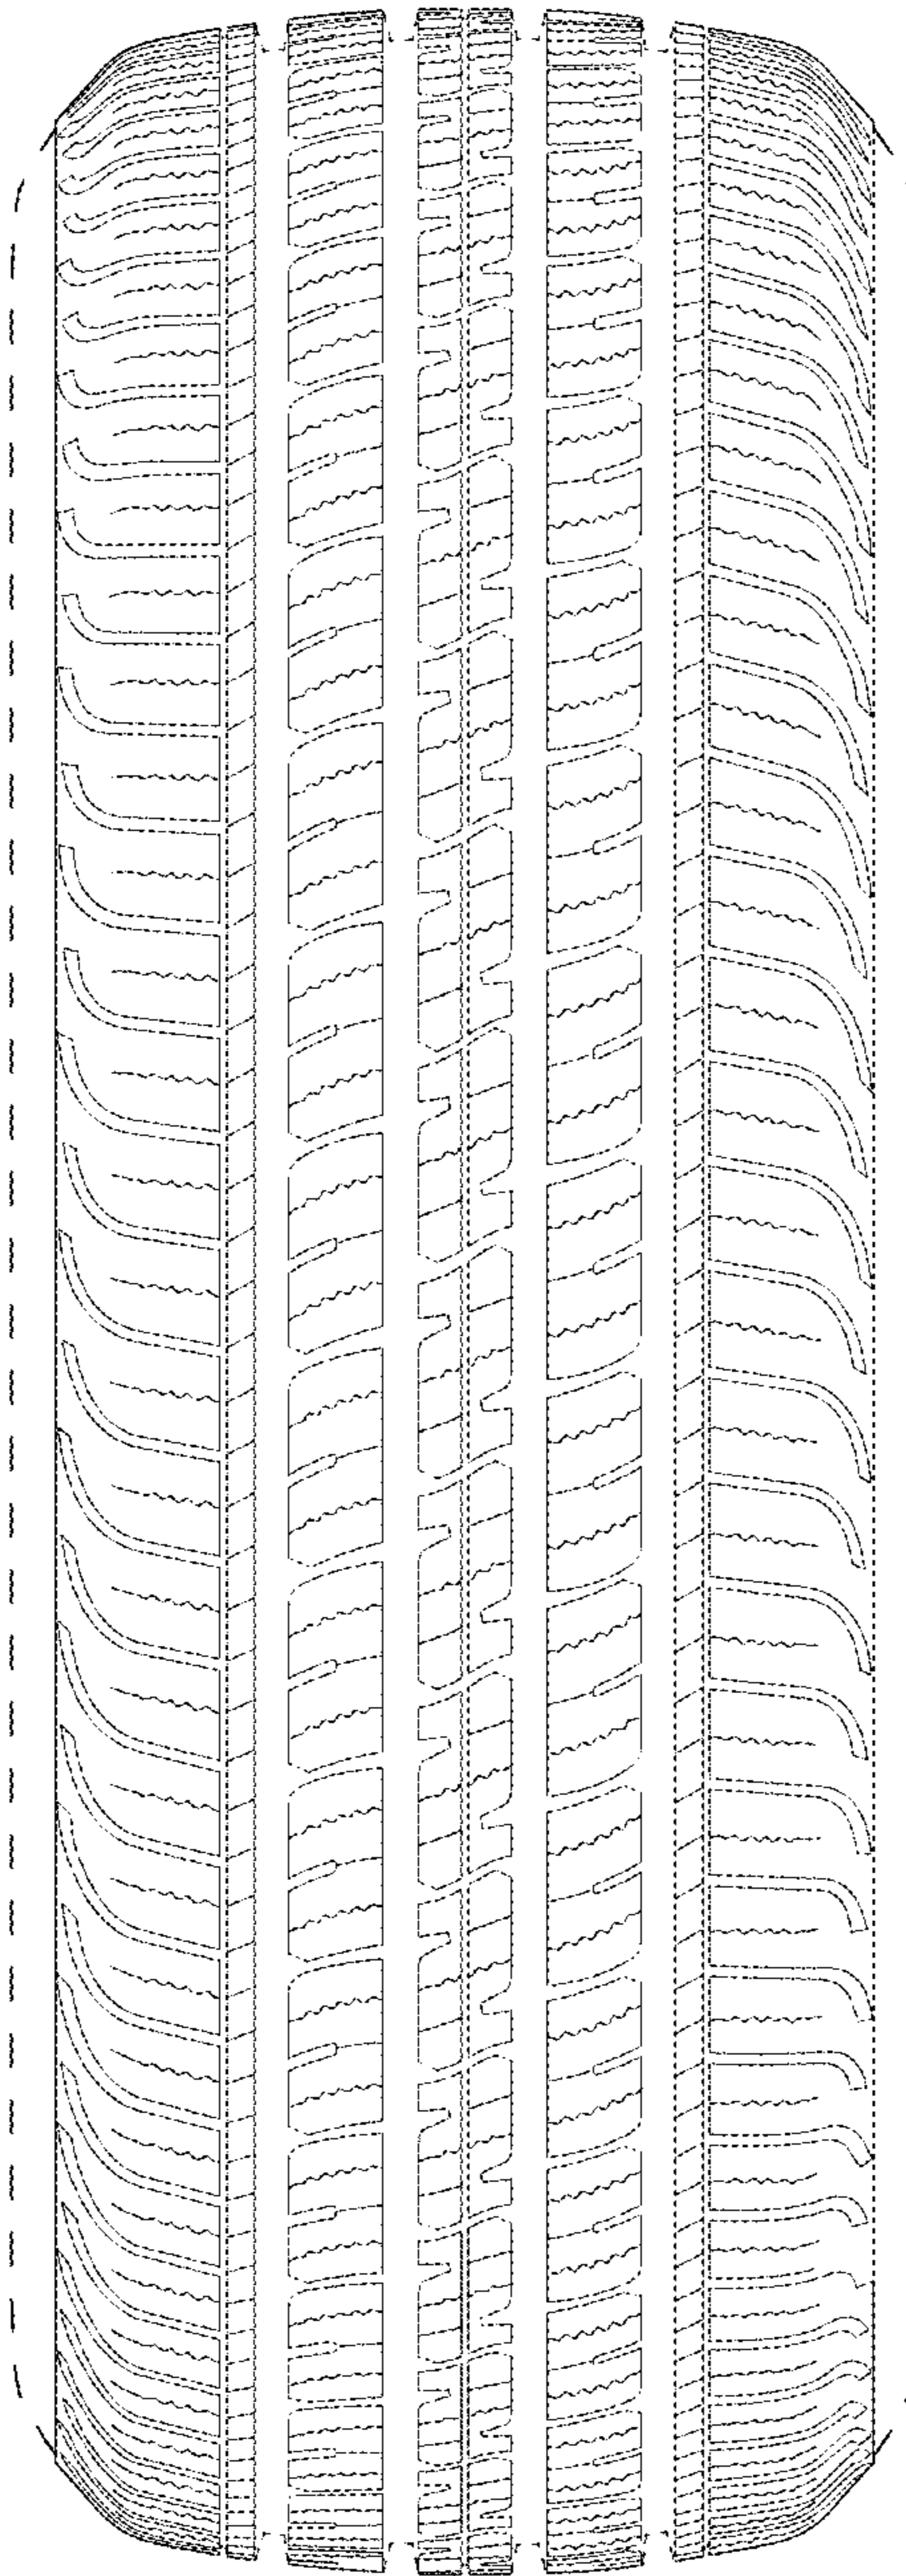

FIG. 4

**FIG. 5**

**FIG. 6**
