(57) **CLAIM**

The ornamental design for a display screen with an animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the first image of a display screen with an animated graphical user interface showing our new design;

FIG. 2 is a front view of a second image of the display screen with an animated graphical user interface showing our new design;

FIG. 3 is a front view of a third image of the display screen with an animated graphical user interface showing our new design;

FIG. 4 is a front view of a fourth image of the display screen with an animated graphical user interface showing our new design

FIG. 5 is a front view of a fifth image of the display screen with an animated graphical user interface showing our new design;

FIG. 6 is a front view of a sixth image of the display screen with an animated graphical user interface showing our new design;

FIG. 7 is a front view of a seventh image of the display screen with an animated graphical user interface showing our new design;

FIG. 8 is a front view of an eighth image of the display screen with an animated graphical user interface showing our new design;

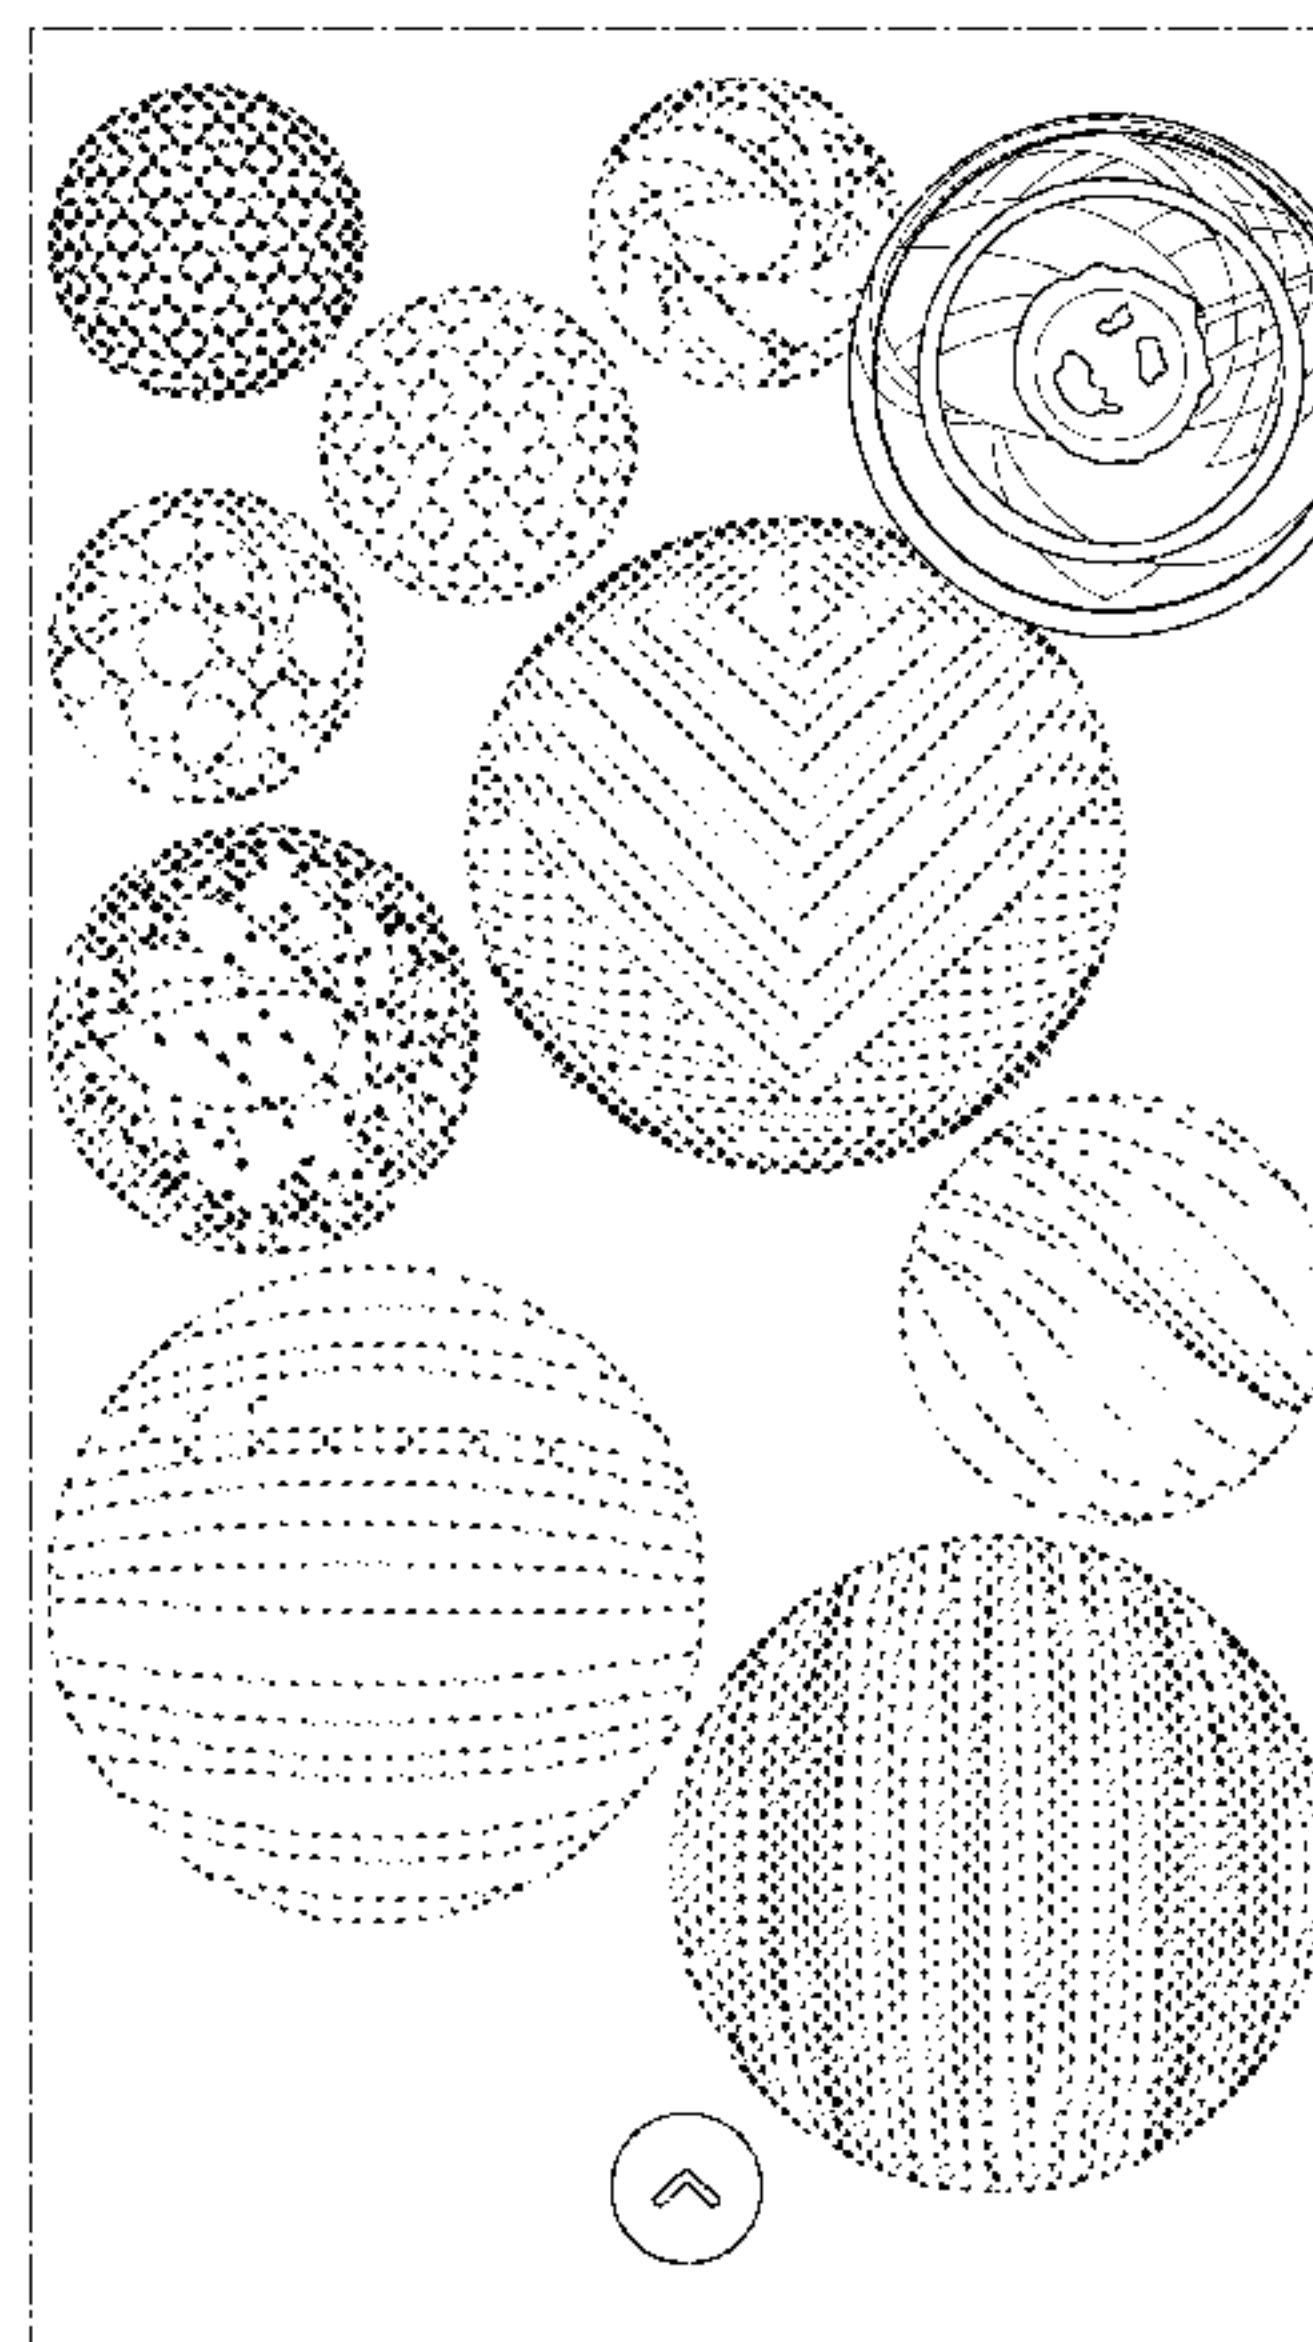

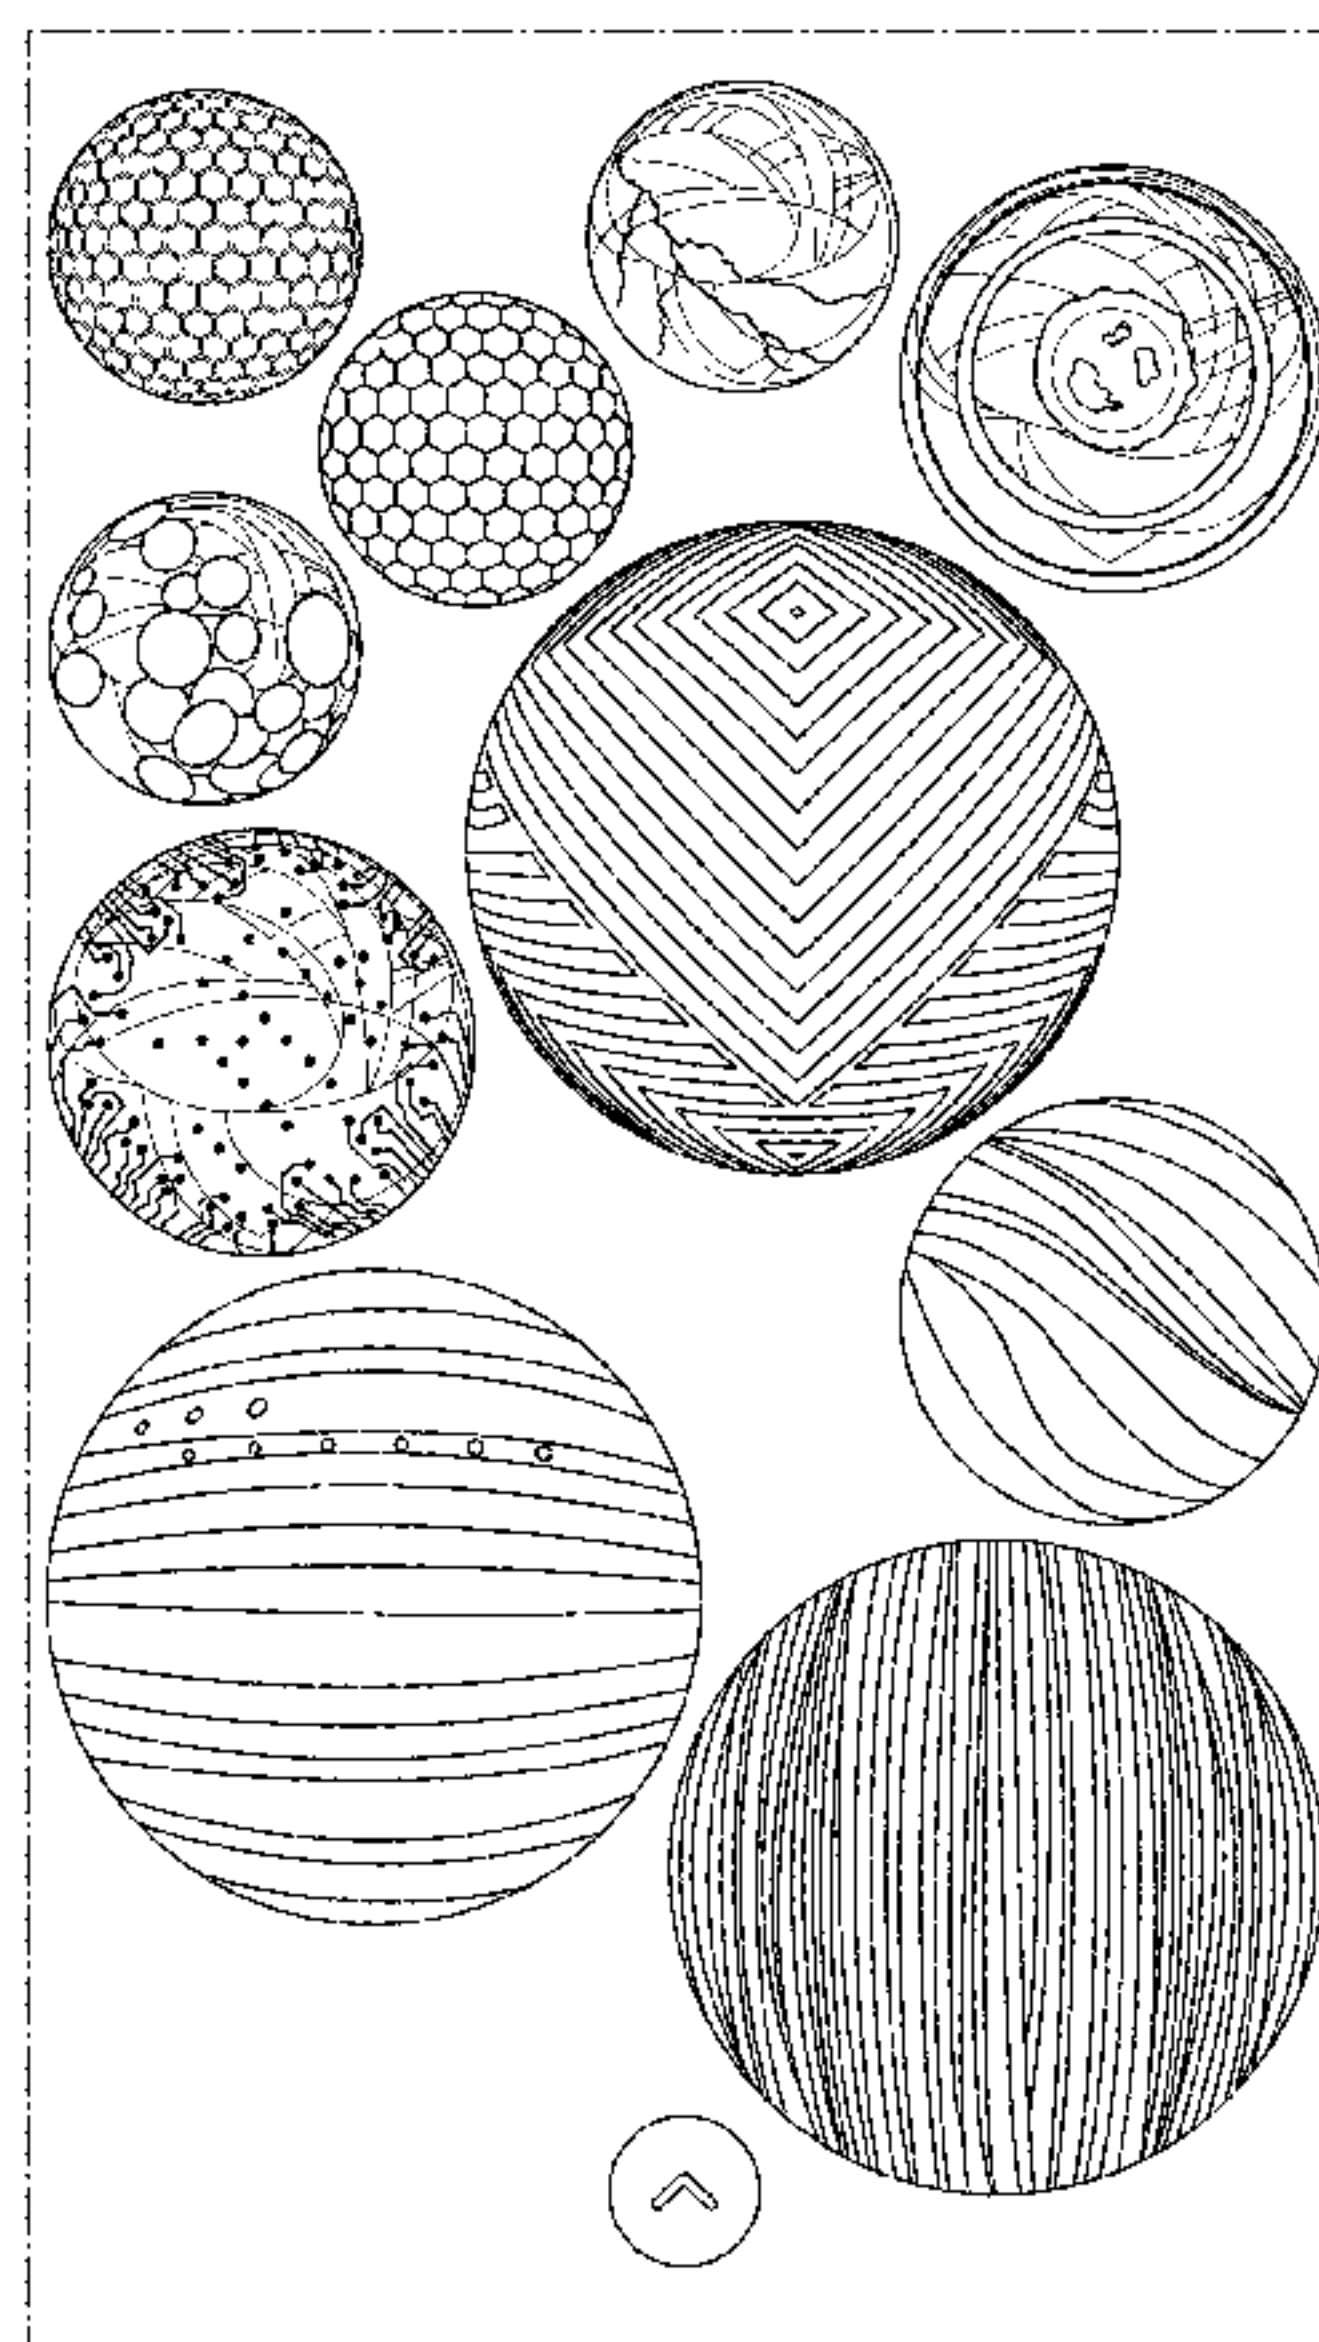

FIG. 9 is a front view of a ninth image of the display screen with an animated graphical user interface showing our new design; and,

FIG. 10 is a front view of a tenth image of the display screen with an animated graphical user interface showing our new design.

The dash-dot broken line showing of a display screen illustrates portions of the article and does not form part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-10. The process or period in which one image transitions to another image forms no part of the claimed design.
