(57) **CLAIM**

The ornamental design for an identification document, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawings will be provided by the Office upon request and payment of the necessary fee.

The FIGURE is a front view of the identification document, including a beige area adapted to receive an identification photo. The identification document is thin and has no appreciable thickness.

The dot broken lines in the area adapted to receive an identification photo form no part of claim.
