(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface, showing a first image in a sequence;

FIG. 2 is a front view of the display screen with graphical user interface, showing a second image in the sequence thereof;

FIG. 3 is a front view of the display screen with graphical user interface, showing a third image in the sequence thereof;

FIG. 4 is a front view of the display screen with graphical user interface, showing a fourth image in the sequence thereof; and

FIG. 5 is a front view of the display screen with graphical user interface, showing a fifth image in the sequence thereof.

The appearance of the display screen with graphical user interface sequentially transitions between the images shown above in FIGS. 1-5. The process or period in which one image transitions to another image forms no part of the claimed design.

The course broken line rectangles in FIGS. 1-5 illustrate the display screen. The fine broken line circles in FIGS. 1-5 illustrate portions of the graphical user interface. None of the broken lines form part of the claimed design.
