(57) **CLAIM**

The ornamental design for a display screen or portion thereof having a graphical user interface with a transitional icon, as shown and described.

(73) Assignee: **SNAP INC.**, Venice, CA (US)

DESCRIPTION

(**) Term: **15 Years**

FIG. 1 is a front view of a display screen or portion thereof having a graphical user interface with a transitional icon, showing my new design and illustrating a first image of the transitional icon.

(21) Appl. No.: **29/566,676**

FIG. 2 is a front view of the display screen or portion thereof having the graphical user interface with the transitional icon, showing my new design and illustrating a second image of the transitional icon.

(22) Filed: **Jun. 1, 2016**

(51) **LOC (11) Cl.** **14-04**

(52) **U.S. Cl.**

USPC **D14/488**

(58) **Field of Classification Search**

USPC D14/485, 486, 487–488, 489–495

(Continued)

FIG. 3 is a front view of the display screen or portion thereof having the graphical user interface with the transitional icon, showing my new design and illustrating a third image of the transitional icon.

(56) **References Cited**

FIG. 4 is a front view of the display screen or portion thereof having the graphical user interface with the transitional icon, showing my new design and illustrating a fourth image of the transitional icon.

U.S. PATENT DOCUMENTS

6,038,295 A 3/2000 Mattes
6,980,909 B2 12/2005 Root et al.

(Continued)

FIG. 5 is a front view of the display screen having the graphical user interface with the transitional icon, showing my new design and illustrating a fifth image, of the transitional icon.

FOREIGN PATENT DOCUMENTS

CA 2887596 A1 7/2015

FIG. 6 is a front view of the display screen or portion thereof having the graphical user interface with the transitional icon, showing my new design and illustrating a sixth image of the transitional icon.

FIG. 7 is a front view of the display screen or portion thereof having the graphical user interface with the transitional icon, showing my new design and illustrating a seventh image of the transitional icon.

(Continued)

FIG. 8 is a front view of the display screen or portion thereof having the graphical user interface with the transitional icon, showing my new design and illustrating an eighth image of the transitional icon.

FIG. 9 is a front view of the display screen or portion thereof having the graphical user interface with the transitional icon, showing my new design and illustrating a ninth image of the transitional icon.

FIG. 10 is a front view of the display screen or portion thereof having the graphical user interface with the transitional icon, showing my new design and illustrating a tenth image of the transitional icon.

FIG. 11 is a front view of the display screen or portion thereof having the graphical user interface with the transitional icon, showing my new design and illustrating an eleventh image of the transitional icon; and,

FIG. 12 is a front view of the display screen or portion thereof having the graphical user interface with the transitional icon, showing my new design and illustrating a twelfth image of the transitional icon.

Subject matter shown in broken lines, including the display screen and the remainder of the graphical user interface, is included for the purpose of illustrating environmental structure, and the broken lines form no part of the claimed design. The appearance of the transitional icon sequentially transitions between the images shown in FIGS. 1-12. The process or period in which one image transitions to another image forms no part of the claimed design.
