(57) **CLAIM**

The ornamental design for a slide clip with internal and external flanges, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a slide clip with internal and external flanges, showing our new design; FIG. 2 is a bottom perspective thereof; FIG. 3 is a front elevational view thereof; FIG. 4 is a back elevational view thereof; FIG. 5 is a left elevational view thereof; FIG. 6 is a right elevational view thereof; FIG. 7 is a top plan view thereof; FIG. 8 is a bottom plan view thereof; and, FIG. 9 is a perspective assembly view of the slide clip with internal and external flanges of FIG. 1 installed in an exemplary building structure. The slide clip with internal and external flanges is shown with a symbolic break in its length of one of the plates. The appearance of any portion of the slide clip with internal and external flanges between the break lines forms no part of the claimed design. The stiffeners shown in broken lines in FIGS. 1-9, the embossments shown in broken lines in FIGS. 1-3 and 5-9, and the fasteners and building structure shown in broken lines in FIG. 9 are unclaimed subject matter, and form no part of the claimed design.

1 Claim, 7 Drawing Sheets

(57) **CLAIM**

The ornamental design for a slide clip with internal and external flanges, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a slide clip with internal and external flanges, showing our new design; FIG. 2 is a bottom perspective thereof; FIG. 3 is a front elevational view thereof; FIG. 4 is a back elevational view thereof; FIG. 5 is a left elevational view thereof; FIG. 6 is a right elevational view thereof; FIG. 7 is a top plan view thereof; FIG. 8 is a bottom plan view thereof; and, FIG. 9 is a perspective assembly view of the slide clip with internal and external flanges of FIG. 1 installed in an exemplary building structure.

The slide clip with internal and external flanges is shown with a symbolic break in its length of one of the plates. The symbolic break lines are depicted using brackets and dot-dash lines. The appearance of any portion of the slide clip with internal and external flanges between the break lines forms no part of the claimed design. The stiffeners shown in dashed lines in FIGS. 1-9, the embossments shown in dashed lines in FIGS. 1-3 and 5-9, and the fasteners and building structure shown in dashed lines in FIG. 9 are unclaimed subject matter, and form no part of the claimed design.
