In the first embodiment, the appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1 and 2. In the second embodiment, the appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 3 and 4. The process or period in which one image transitions to another forms no part of the claimed design. The broken lines shown in the drawings illustrate portions of the display screen with an animated graphical user interface that form no part of the claimed design.
