(57) **CLAIM**

The ornamental design for a personal computing device display screen with an animated graphical user interface for trading platform, as shown and described.

DESCRIPTION

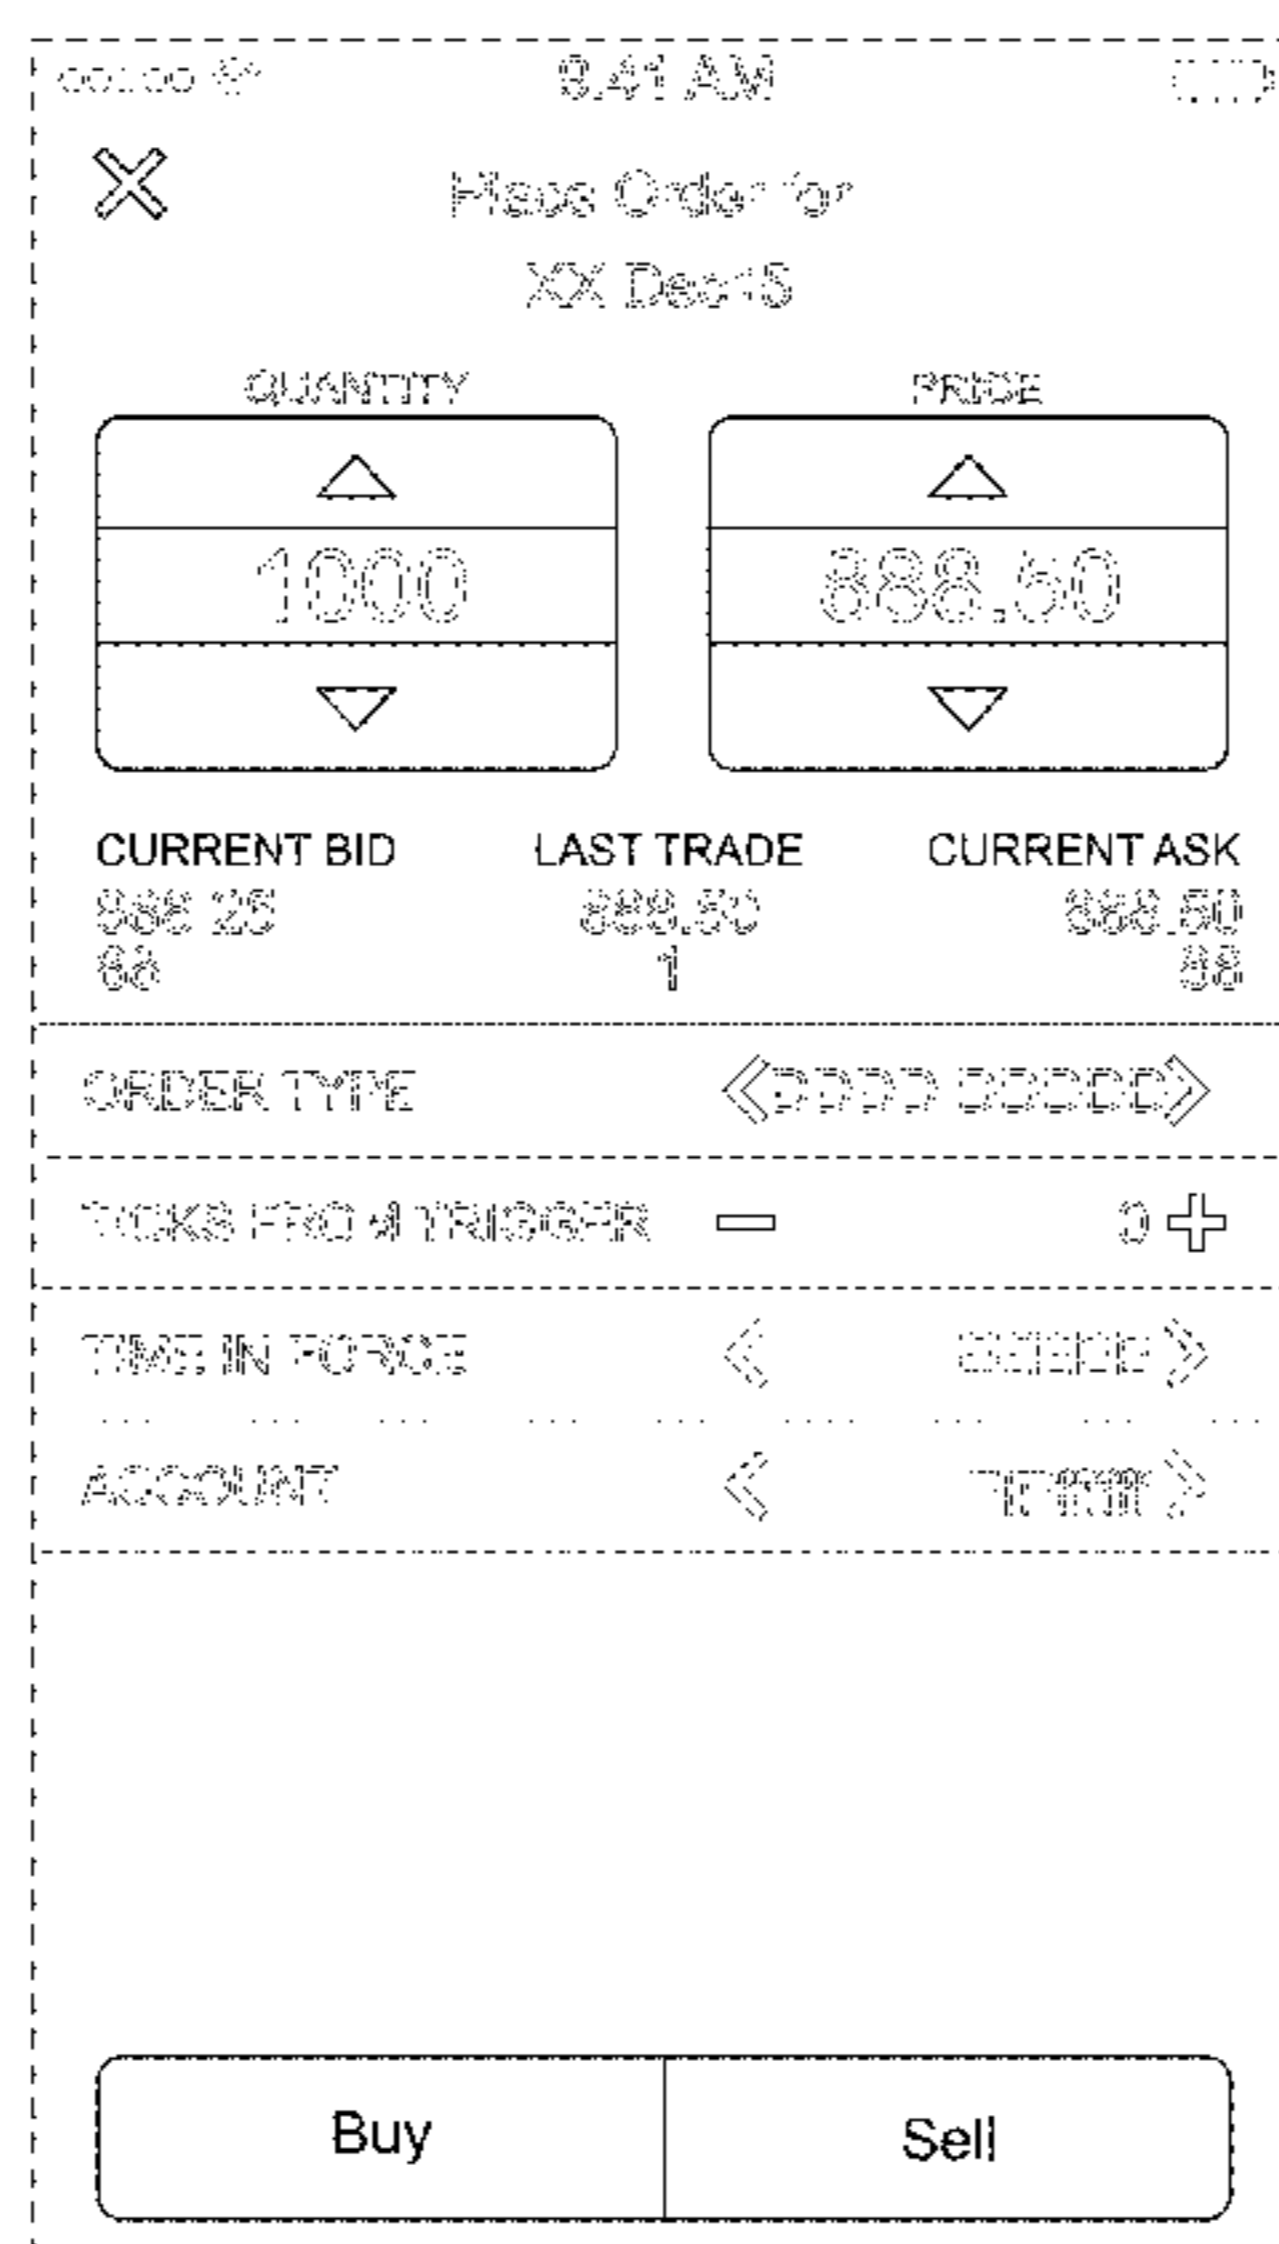

FIG. 1 is a front view of a personal computing device display screen with an animated graphical user interface for trading platform of the present invention, the figure showing a first image in a sequence of images of an animated graphical user interface;

FIG. 2 is a front view of a second image thereof; and, FIG. 3 is a front view of a third image thereof.

The outermost broken line showing of the display screen forms no part of the claimed design. The interior broken line showing of the text and graphical elements form no part of the claimed design.

The appearance of the image transitions sequentially between the images shown in FIGS. 1-3. The process or period in which an image transitions to another forms no part of the claimed design.
