(57) **CLAIM**

I claim the ornamental design for scrub cap, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view showing a first embodiment of scrub cap in accordance with my new design as it may appear when worn with the front portion of the scrub cap in a partially rolled position;

FIG. 2 is a rear perspective view thereof as it may appear when worn with the front portion of the scrub cap in a partially rolled position;

FIG. 3 is a rear, right perspective view of the scrub cap of FIGS. 1 and 2 when not being worn;

FIG. 4 is a front, right perspective view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a rear elevational view thereof;

FIG. 7 is a front elevational view thereof;

FIG. 8 is a top plan view thereof;

FIG. 9 is a left side elevational view thereof, the right side elevational view being a mirror image thereof;

FIG. 10 is a front perspective view showing a second embodiment of scrub cap in accordance with my new design as it may appear when worn with the front portion of the scrub cap in a partially rolled position;

FIG. 11 is a rear perspective view thereof as it may appear when worn with the front portion of the scrub cap in a partially rolled position;

FIG. 12 is a rear, right perspective view of the scrub cap of FIGS. 10 and 11 when not being worn;

FIG. 13 is a front, right perspective view thereof;

FIG. 14 is a bottom plan view thereof;

FIG. 15 is a rear elevational view thereof;

FIG. 16 is a front elevational view thereof;

FIG. 17 is a top plan view thereof;

(Continued)

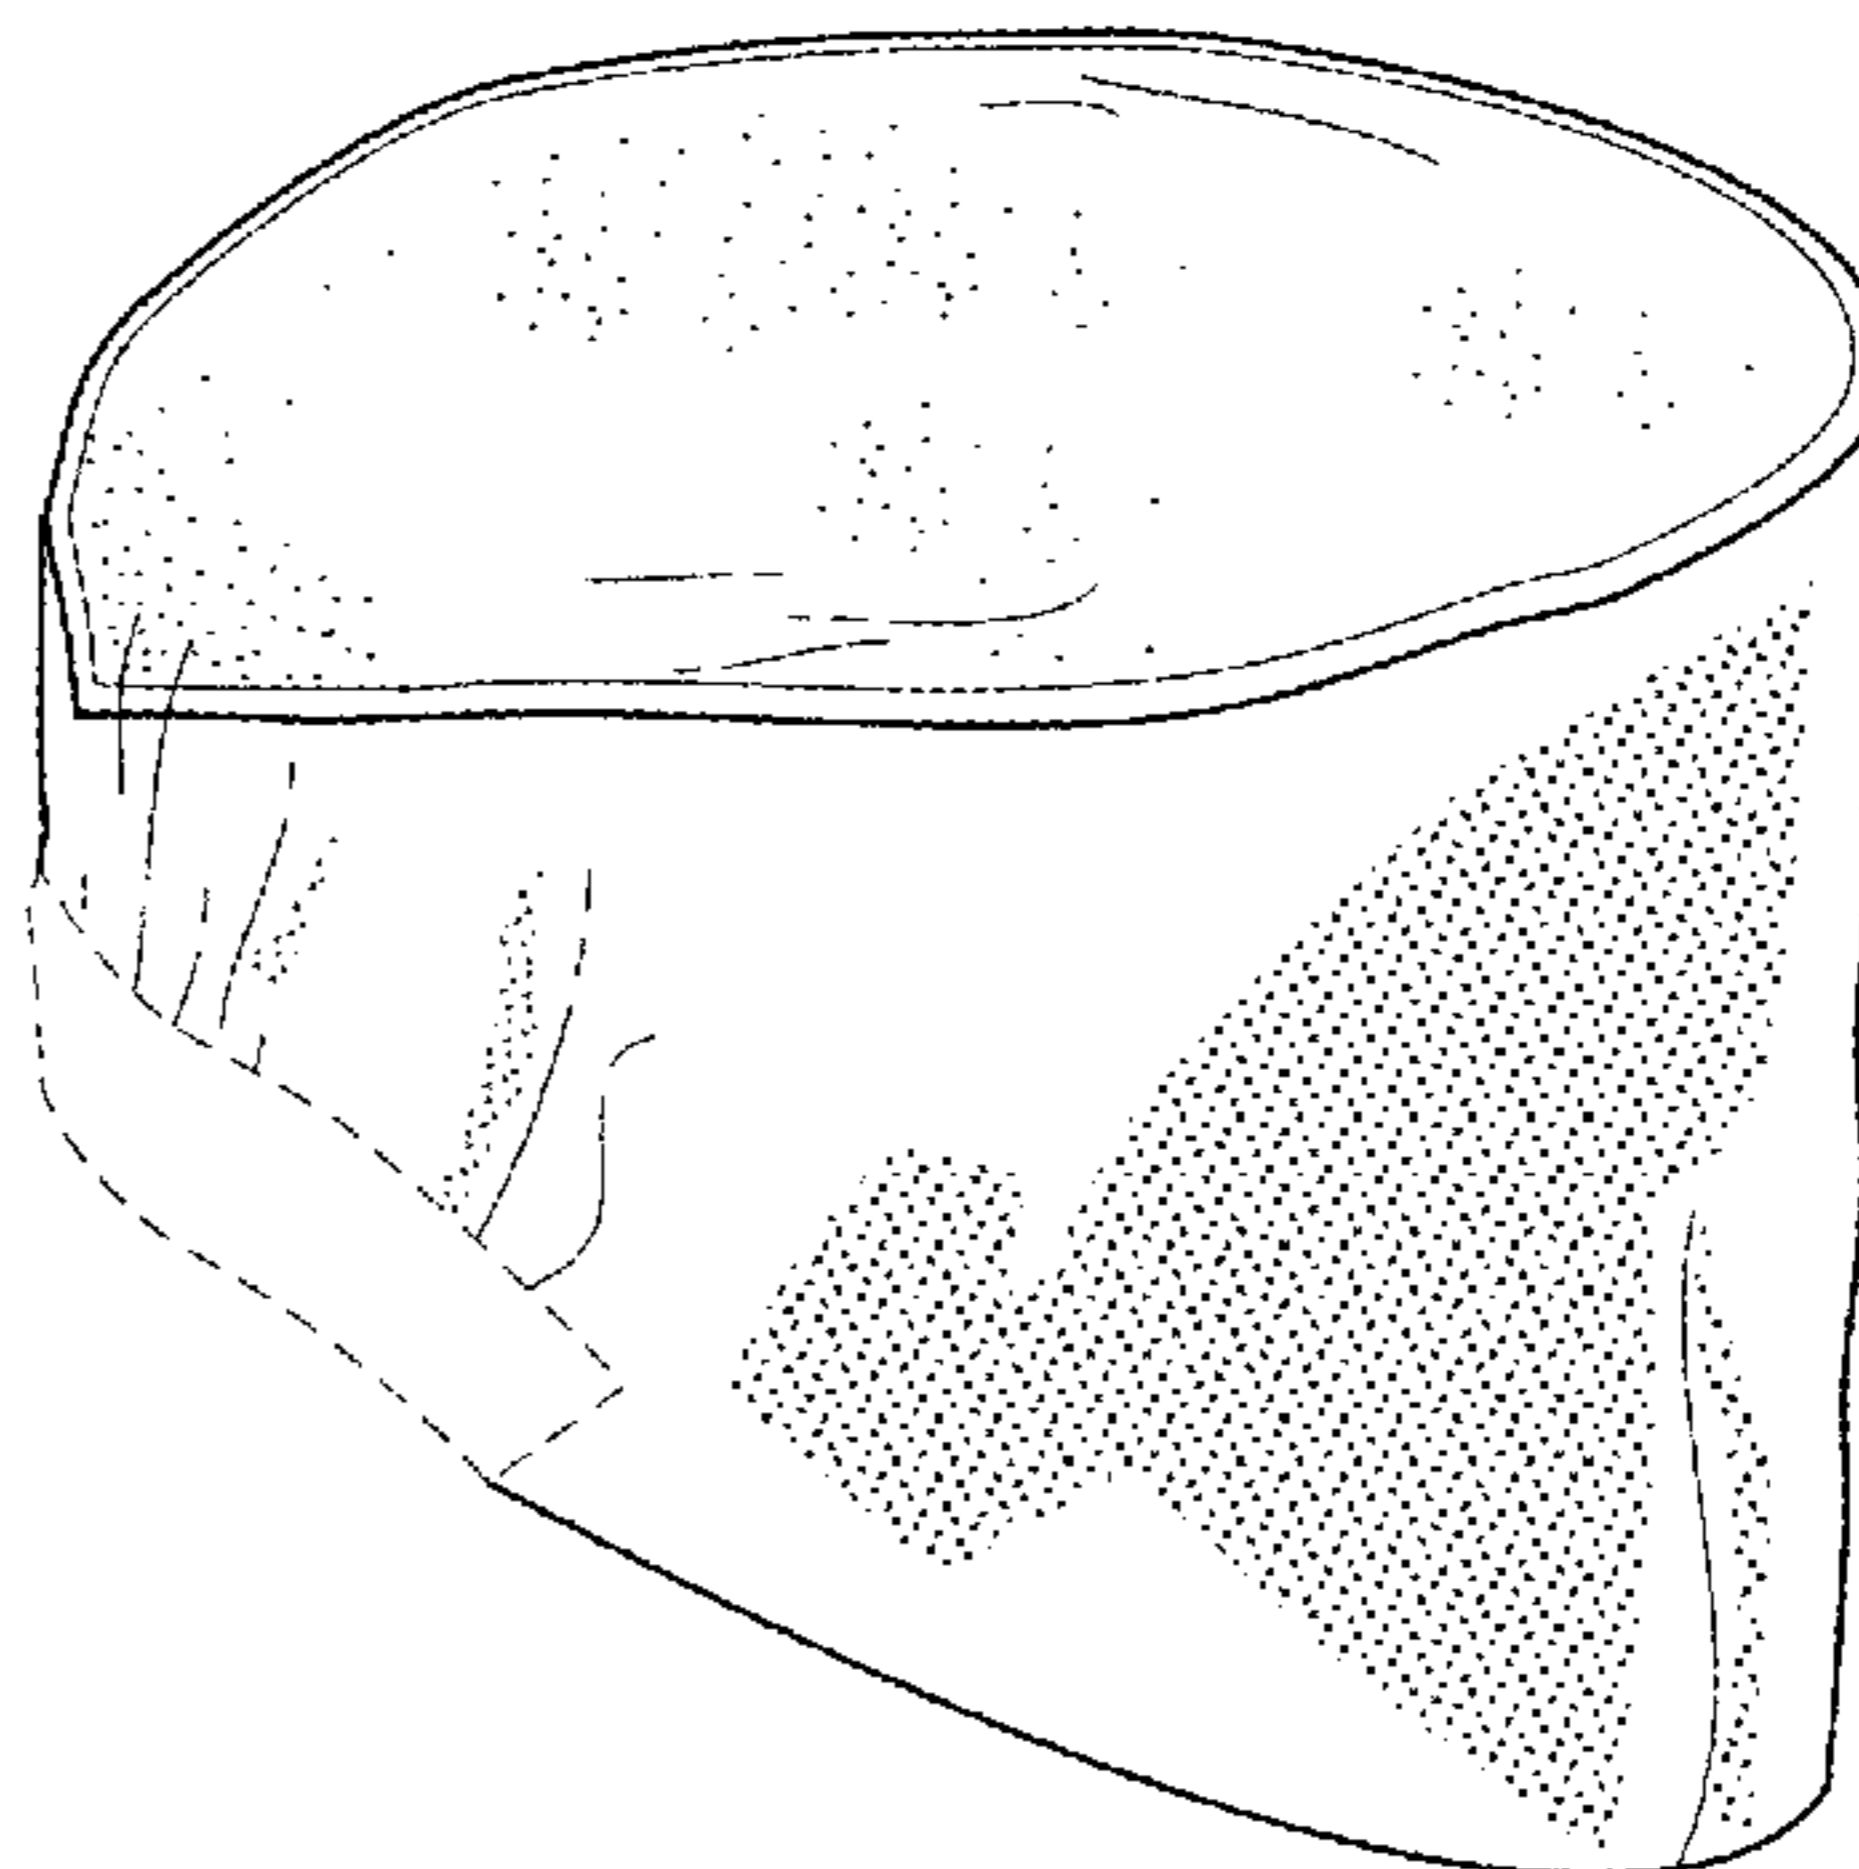

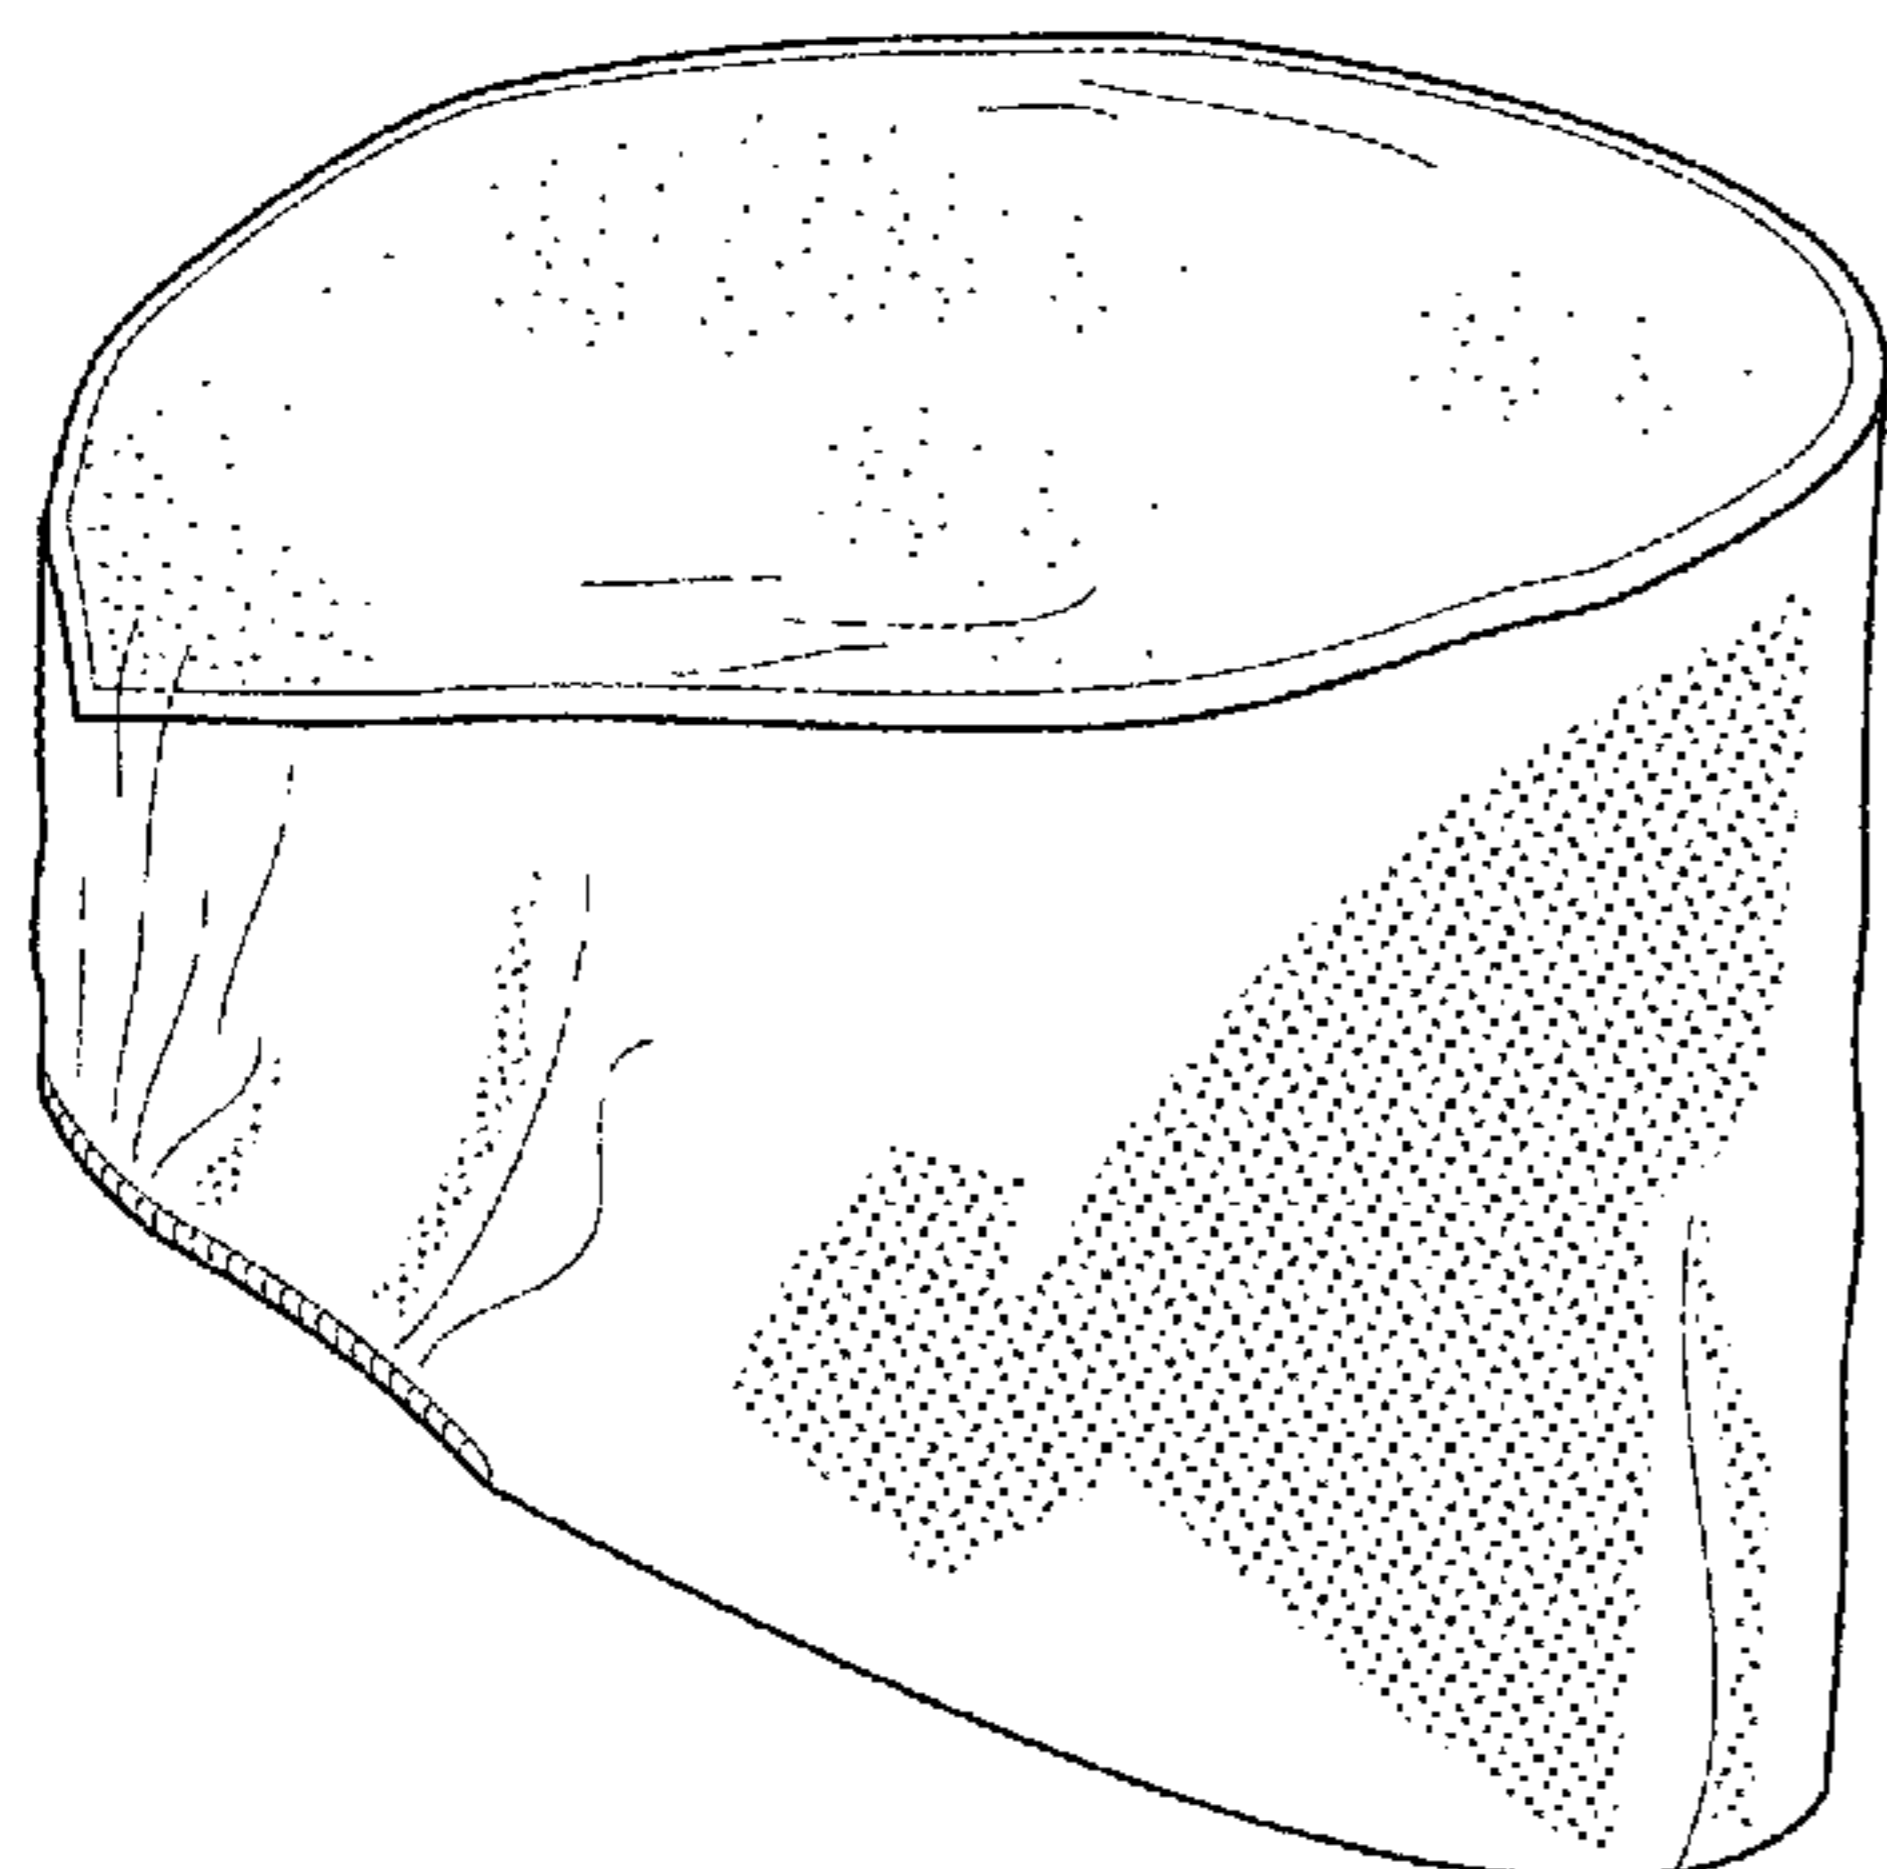

FIG. 18 is a left side elevational view thereof, the right side elevational view being a mirror image thereof;
 FIG. 19 is a front perspective view showing a third embodiment of scrub cap in accordance with my new design as it may appear when worn with the front portion of the scrub cap in a partially rolled position;
 FIG. 20 is a rear perspective view thereof as it may appear when worn with the front portion of the scrub cap in a partially rolled position;
 FIG. 21 is a rear, right perspective view of the headwear of FIGS. 19 and 20 when not being worn;
 FIG. 22 is a front, right perspective view thereof;
 FIG. 23 is a bottom plan view thereof;
 FIG. 24 is a rear elevational view thereof;
 FIG. 25 is a front elevational view thereof;
 FIG. 26 is a top plan view thereof; and,
 FIG. 27 is a left side elevational view thereof, the right side elevational view being a mirror image thereof.
 The broken lines showing a partial human figure in FIGS. 1, 2, 10, 11, 19, and 20 illustrate environmental subject matter included to depict how the claimed design may appear when worn and form no part of the claimed design. The broken lines in FIGS. 11-15 and 18 illustrate environmental subject matter and form no part of the claimed design. The different dotted stippling patterns in FIGS. 1-18 represent a contrast in appearance of material.

1 Claim, 18 Drawing Sheets
