(57) **CLAIM**

The ornamental design for a shoulder tread for a tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a shoulder tread for a tire showing our new design, it being understood that the pattern repeats uniformly throughout the circumference of the tread; FIG. 2 is a front elevational view thereof; FIG. 3 is a right side elevational view thereof; the left side elevational view being identical thereto; FIG. 4 is an enlarged fragmentary front elevational view thereof; FIG. 5 is a cross-sectional view taken along line 5-5 of FIG. 4; and, FIG. 6 is a cross-sectional view taken along line 6-6 of FIG. 4.

In the drawings, the broken lines showing of the center tire tread surface, sidewall, inner bead and the peripheral boundary between the tire tread and the sidewall in FIGS. 1 through 4 depict environmental subject matter and form no part of the claimed design.

1 Claim, 5 Drawing Sheets
