(57) **CLAIM**

The ornamental design for a leaf shredder attachment and trimmer, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a leaf shredder attachment according to a first embodiment of the present invention. FIG. 2 is a first-side view of the leaf shredder attachment according to the first embodiment of the present invention. FIG. 3 is a second-side view of the leaf shredder attachment according to the first embodiment of the present invention.

FIG. 4 is a third-side view of the leaf shredder attachment according to the first embodiment of the present invention. FIG. 5 is a fourth-side view of the leaf shredder attachment according to the first embodiment of the present invention. FIG. 6 is a top plan view of the leaf shredder attachment according to the first embodiment of the present invention. FIG. 7 is a bottom plan view of the leaf shredder attachment according to the first embodiment of the present invention. FIG. 8 is a perspective view of a leaf shredder attachment according to a second embodiment of the present invention. FIG. 9 is a first-side view of the leaf shredder attachment according to the second embodiment of the present invention. FIG. 10 is a second-side view of the leaf shredder attachment according to the second embodiment of the present invention. FIG. 11 is a third-side view of the leaf shredder attachment according to the second embodiment of the present invention. FIG. 12 is a fourth-side view of the leaf shredder attachment according to the second embodiment of the present invention. FIG. 13 is a top plan view of the leaf shredder attachment according to the second embodiment of the present invention. FIG. 14 is a bottom plan view of the leaf shredder attachment according to the second embodiment of the present invention. FIG. 15 is a perspective view of a leaf shredder attachment according to a third embodiment of the present invention. FIG. 16 is a first-side view of the leaf shredder attachment according to the third embodiment of the present invention. FIG. 17 is a second-side view of the leaf shredder attachment according to the third embodiment of the present invention. FIG. 18 is a third-side view of the leaf shredder attachment according to the third embodiment of the present invention. FIG. 19 is a fourth-side view of the leaf shredder attachment according to the third embodiment of the present invention. FIG. 20 is a top plan view of the leaf shredder attachment according to the third embodiment of the present invention.

(Continued)

FIG. 21 is a bottom plan view of the leaf shredder attachment according to the third embodiment of the present invention.

FIG. 22 is a perspective view of a trimmer according to a fourth embodiment of the present invention.

FIG. 23 is a bottom plan view of the trimmer according to the fourth embodiment of the present invention.

FIG. 24 is a top plan view of the trimmer according to the fourth embodiment of the present invention.

FIG. 25 is a first-side view of the trimmer according to the fourth embodiment of the present invention.

FIG. 26 is a second-side view of the trimmer according to the fourth embodiment of the present invention.

FIG. 27 is a third-side view of the trimmer according to the fourth embodiment of the present invention.

FIG. 28 is a fourth-side view of the trimmer according to the fourth embodiment of the present invention.

FIG. 29 is a perspective view of a leaf shredder attachment according to a fifth embodiment of the present invention.

FIG. 30 is a first-side view of the leaf shredder attachment according to the fifth embodiment of the present invention.

FIG. 31 is a second-side view of the leaf shredder attachment according to the fifth embodiment of the present invention.

FIG. 32 is a third-side view of the leaf shredder attachment according to the fifth embodiment of the present invention.

FIG. 33 is a fourth-side view of the leaf shredder attachment according to the fifth embodiment of the present invention.

FIG. 34 is a top plan view of the leaf shredder attachment according to the fifth embodiment of the present invention;

and,

FIG. 35 is a bottom plan view of the leaf shredder attachment according to the fifth embodiment of the present invention.
