(57) **CLAIM**

The ornamental design for a medical device packaging tray, as shown and described.

DESCRIPTION

FIG. 1A is a partial right, front and top perspective view of a first embodiment of the medical device packaging tray, including a tray with two lids, showing our new design;

FIG. 1B is the completion of the partial view shown in FIG. 1A when FIG. 1B is placed to the right of and below FIG. 1A;

FIG. 2A is a partial right, front and bottom perspective view of the first embodiment of the medical device packaging tray;

FIG. 2B is the completion of the partial view shown in FIG. 2A when FIG. 2B is placed to the right of and above FIG. 2A;

FIG. 3 is a front view of the first embodiment of the medical device packaging tray broken into two pieces connected by a projection line to show how they fit together;

FIG. 4 is a right side view of the first embodiment of the medical device packaging tray;

FIG. 5 is a back view of the first embodiment of the medical device packaging tray broken into two pieces connected by a projection line to show how they fit together;

FIG. 6 is a left side view of the first embodiment of the medical device packaging tray;

FIG. 7 is a top view of the first embodiment of the medical device packaging tray broken into two pieces connected by a projection line to show how they fit together;

FIG. 8 is a bottom view of the first embodiment of the medical device packaging tray broken into two pieces connected by a projection line to show how they fit together;

FIG. 9A is a partial exploded perspective view of the first embodiment of the medical device packaging tray;

FIG. 9B is the completion of the partial view shown in FIG. 9A when FIG. 9B is placed to the right of and below FIG. 9A;

FIG. 10A is a partial right, front and top perspective view of the first embodiment of the medical device packaging tray with the two lids removed for ease of illustration;

FIG. 10B is the completion of the partial view shown in FIG. 10A when FIG. 10B is placed to the right of and below FIG. 10A;

FIG. 11 is a top view of the first embodiment of the medical device packaging tray with the two lids removed for the ease of illustration broken into two pieces connected by a projection line to show how they fit together;

FIG. 12A is a partial right, front and top perspective view of a second embodiment of the medical device packaging tray, including a tray with two lids;

(Continued)

FIG. 12B is the completion of the partial view shown in FIG. 12A when FIG. 12B is placed to the right of and above FIG. 12A;

FIG. 13A is a partial right, front and bottom perspective view of the second embodiment of the medical device packaging tray;

FIG. 13B is the completion of the partial view shown in FIG. 13A when FIG. 13B is placed to the right of and below FIG. 13A;

FIG. 14 is a front view of the second embodiment of the medical device packaging tray broken into two pieces connected by a projection line to show how they fit together; FIG. 15 is a right side view of the second embodiment of the medical device packaging tray;

FIG. 16 is a back view of the second embodiment of the medical device packaging tray broken into two pieces connected by a projection line to show how they fit together;

FIG. 17 is a left side view of the second embodiment of the medical device packaging tray;

FIG. 18 is a top view of the second embodiment of the medical device packaging tray broken into two pieces connected by a projection line to show how they fit together;

FIG. 19 is a bottom view of the second embodiment of the medical device packaging tray broken into two pieces connected by a projection line to show how they fit together;

FIG. 20A is a partial exploded perspective view of the second embodiment of the medical device packaging tray; FIG. 20B is the completion of the partial view shown in FIG. 20A when FIG. 20B is placed to the right of and below FIG. 20A;

FIG. 21A is a partial right, front and top perspective view of the second embodiment of the medical device packaging tray with the two lids removed for ease of illustration; FIG. 21B is the completion of the partial view shown in FIG. 21A when FIG. 21B is placed to the right of and below FIG. 21A; and,

FIG. 22 is a top view of the second embodiment of the medical device packaging tray with the two lids removed for ease of illustration broken into two pieces connected by a projection line to show how they fit together.

The dash dot lines shown in the figures are included to show how partial views fit together and form no part of the claimed design.
