(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first image in a sequence for a first embodiment of a display screen with animated graphical user interface and a fourth image of in a sequence for a second embodiment thereof;

FIG. 2 is a second image of a first embodiment thereof and a third image of a second embodiment thereof;

FIG. 3 is a third image of a first embodiment thereof and a second image of a second embodiment thereof; and,

FIG. 4 is a fourth image of a first embodiment thereof and a first image of a second embodiment thereof.

The broken lines illustrate a mobile electronic device as well as portions of a graphical user interface. The broken lines form no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIG. 1-4 and FIG. 4-1, respectively. The process or period in which one image transitions to another image forms no part of the claimed design. Tonal shading shown in the drawings is a visual feature of the graphical user interface and is included in the claimed design.
