DESCRIPTION

This application is related to: U.S. Design patent application Ser. No. 29/557,507, filed on Mar. 9, 2016 and entitled “industrial tool insert;” and U.S. Design patent application Ser. No. 29/560,981, filed on the same date as this application (Apr. 12, 2016) and entitled “industrial tool insert.”

FIG. 1 is a perspective view of an industrial tool insert; FIG. 2 is a front elevation view of the industrial tool insert, the rear elevation view is a mirror image thereof; FIG. 3 is a right side elevation view of the industrial tool insert, the left side elevation view is a mirror image thereof; FIG. 4 is a top plan view of the industrial tool insert; and, FIG. 5 is a bottom plan view of the industrial tool insert.

The illustrated industrial tool insert may be used with any industrial tool, for example a tamping tool. The illustrated industrial tool insert may be formed of any wear resistant material, such as a ceramic material, a wear-proof metal alloy, a specialty metal alloy, or a carbide material, for example tungsten carbide.
