(57) **CLAIM**

The ornamental design for a display screen or portion thereof with tab based graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or a portion thereof with a tabbed graphical user interface illustrating a first image of the novel design.

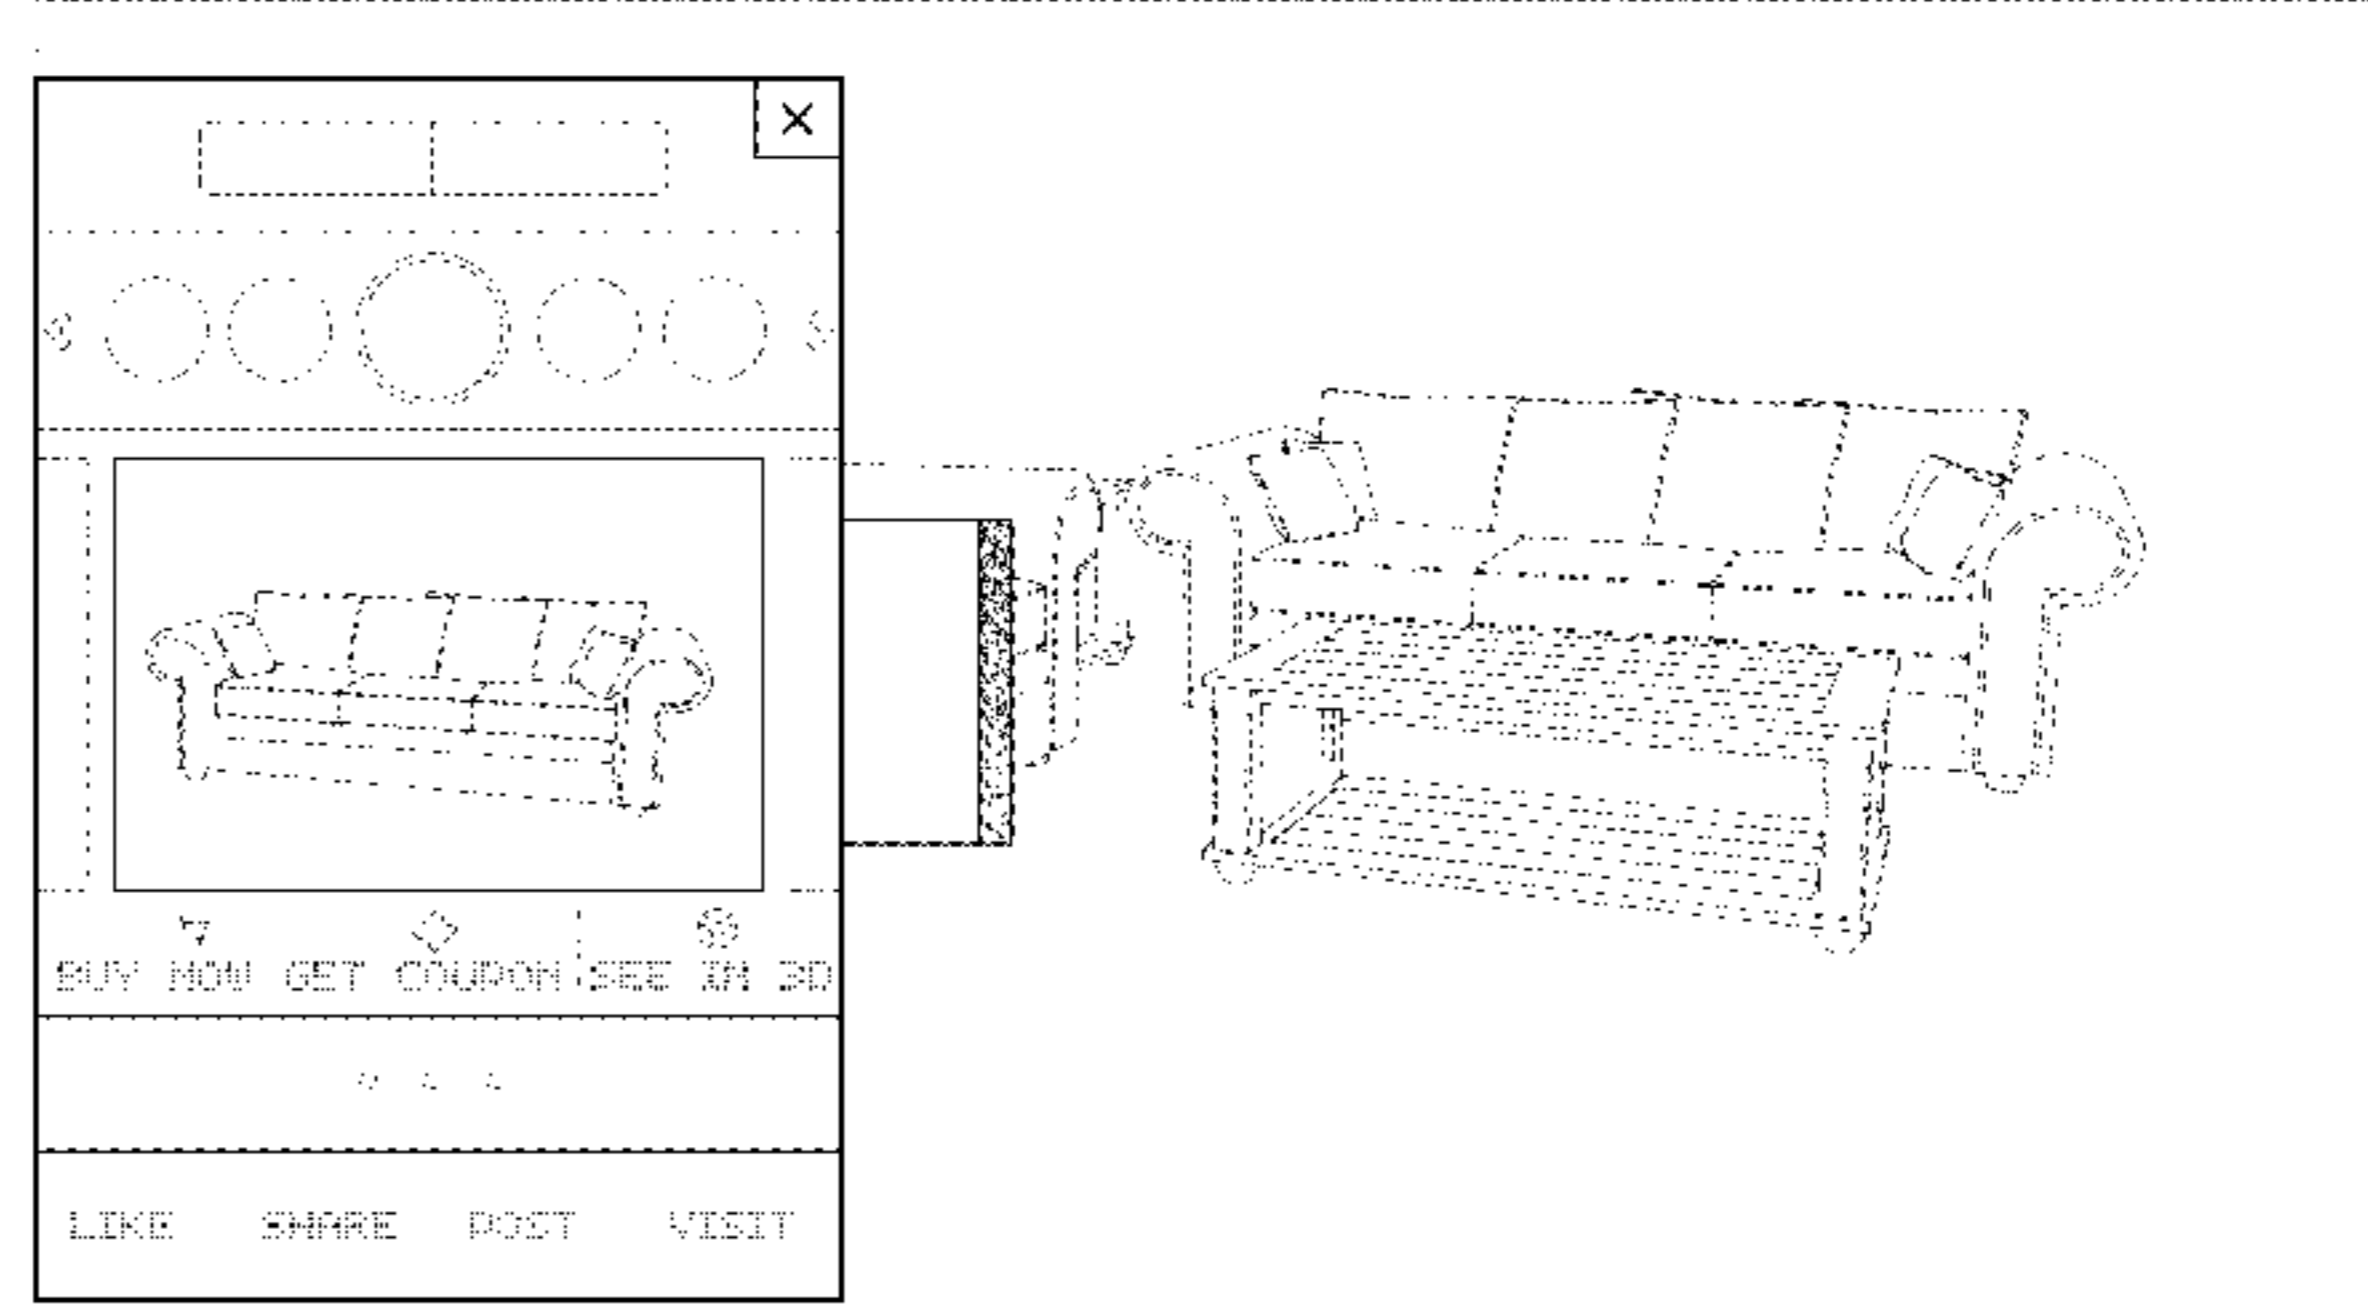

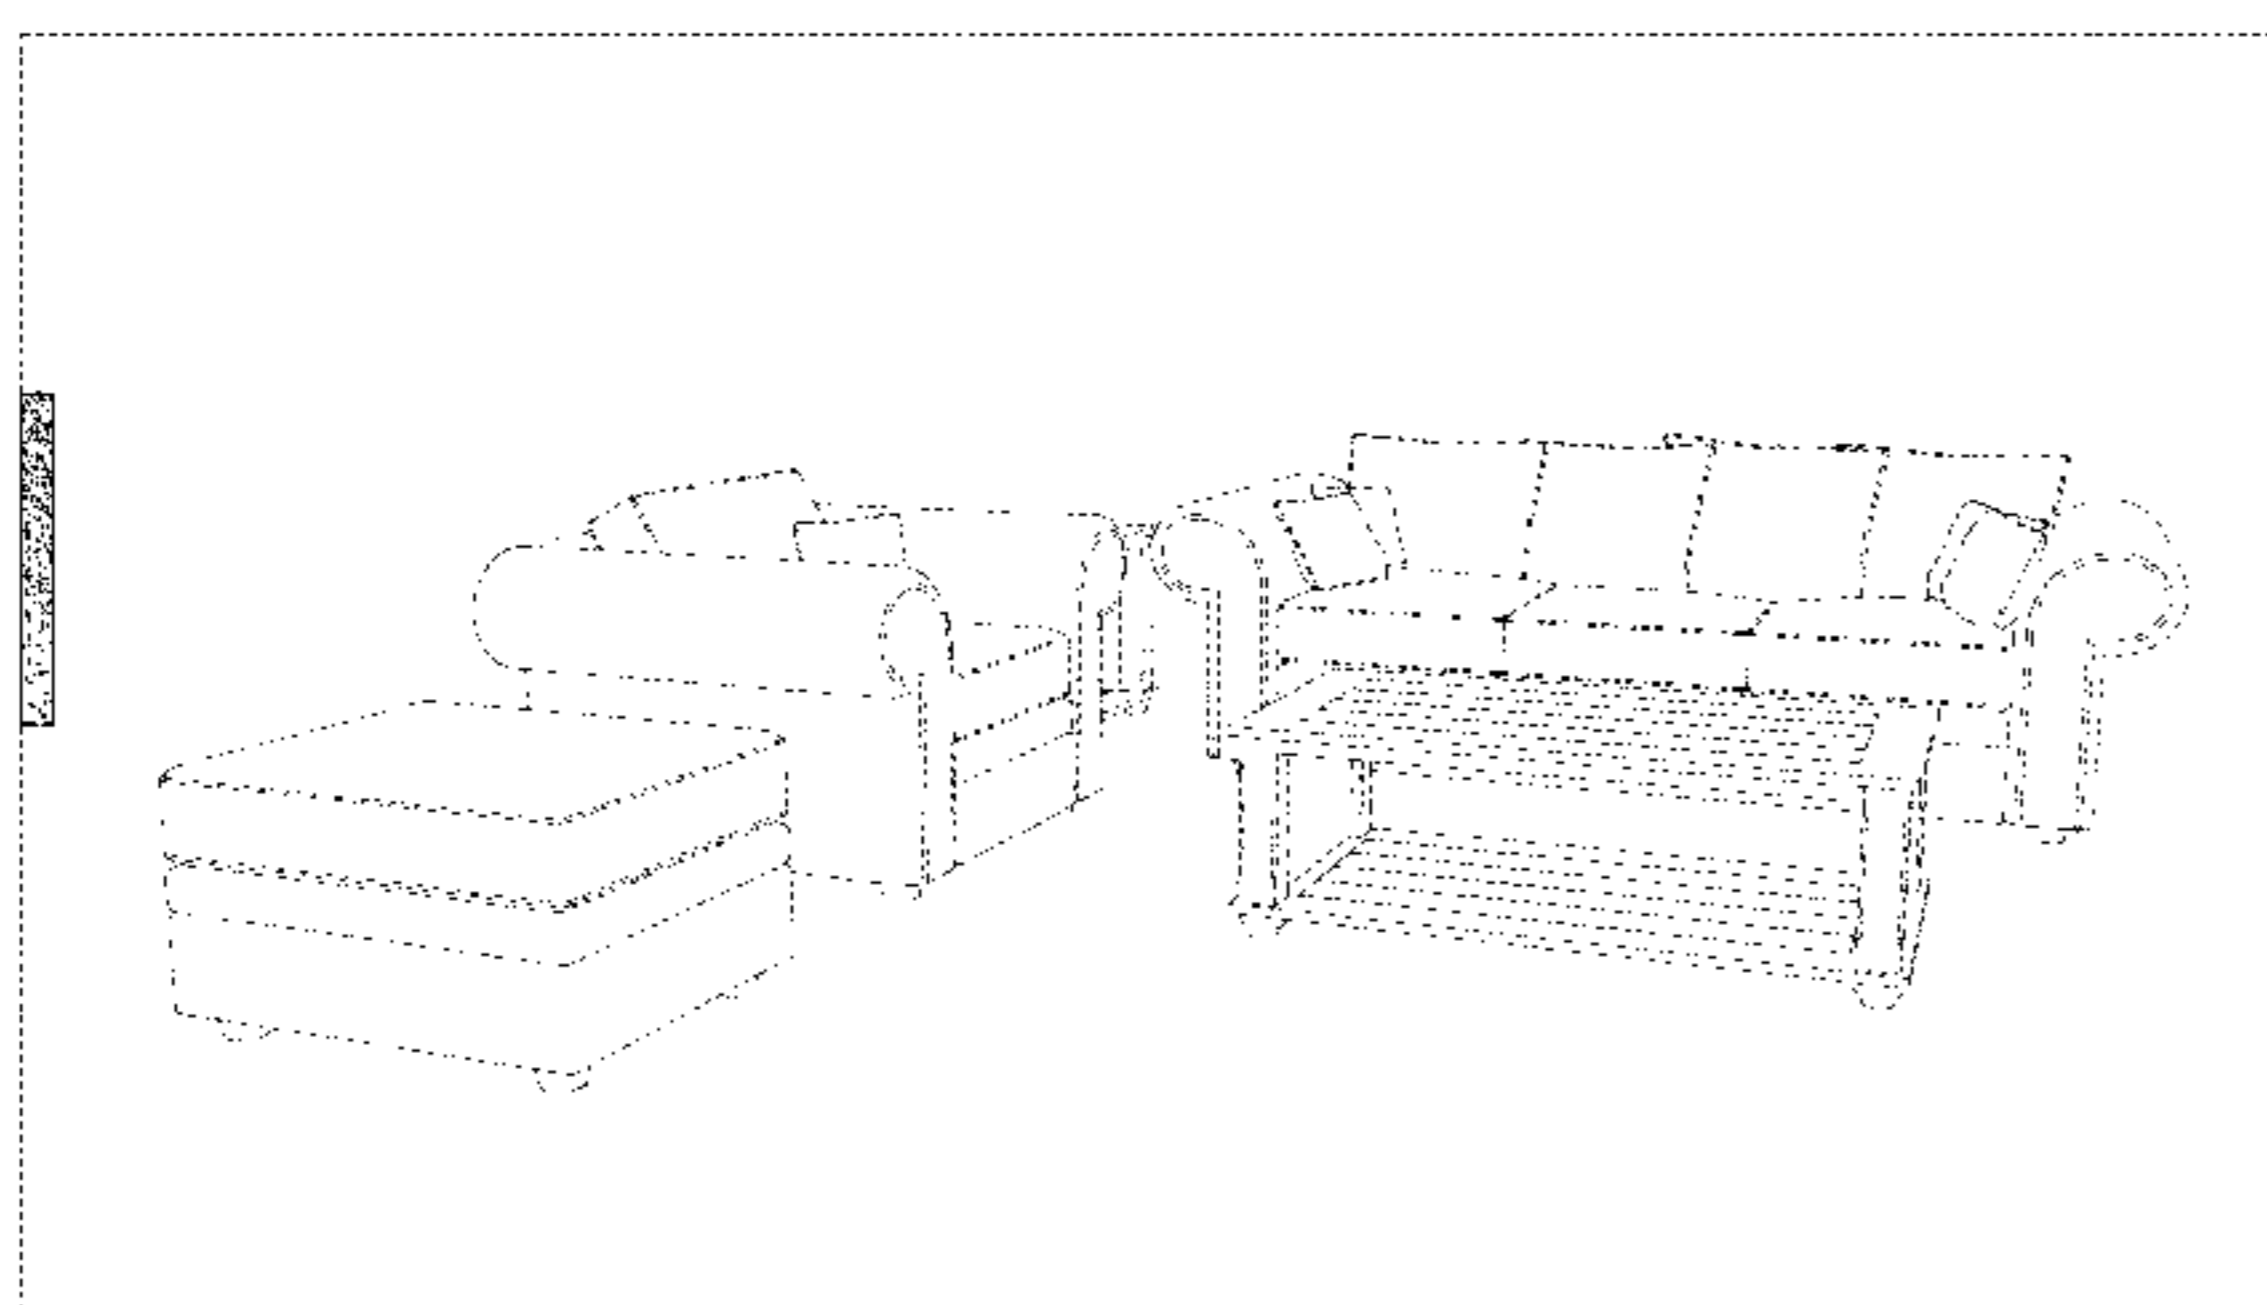

FIG. 2 is a front view of a display screen or a portion thereof with a tabbed graphical user interface illustrating a second image of the novel design; and,

FIG. 3 is a front view of a display screen or a portion thereof with a tabbed graphical user interface illustrating a third image of the novel design.

The broken lines, including the showing of a portion of a display panel of a communications terminal surrounding the illustrated graphical user interface and portions of the graphical user interface, depict unclaimed subject matter only and are included for the purpose of illustrating the graphical environment; the broken lines form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.
