(57) **CLAIM**

The ornamental design for a catheter sleeve, as shown and described.

DESCRIPTION

FIG. 1 is a front and top view of a first embodiment of a catheter sleeve in accordance with the new design in an open or extended position;

FIG. 2 is a rear and top view thereof;

FIG. 3 is a rear and top view of the first embodiment of a catheter sleeve in accordance with the new design in a closed or folded over position;

FIG. 4 is a top view thereof;

FIG. 5 is a front and rear view thereof;

FIG. 6 is a rear view thereof;

FIG. 7 is an inside-out view of the first embodiment of a catheter sleeve showing a front and top view of the inside-out catheter sleeve;

FIG. 8 is a rear and top view thereof;

FIG. 9 is a front isometric view of the first embodiment of a catheter sleeve in accordance with the new design in a closed or folded over position;

FIG. 10 is a front and top view of a second embodiment of a catheter sleeve in accordance with the new design in an open or extended position;

FIG. 11 is a rear and top view thereof;

FIG. 12 is a rear and top view of the second embodiment of a catheter sleeve in accordance with the new design in a closed or folded over position;

FIG. 13 is a top view thereof;

FIG. 14 is a front and rear view thereof;

FIG. 15 is a rear view thereof;

FIG. 16 is an inside-out view of the second embodiment of a catheter sleeve showing a front and top view in the inside-out catheter sleeve; and,

FIG. 17 is a rear and top view thereof.

The broken lines shown in FIGS. 1, 2, 3, 5, 7, 8, 9, 10, 11, 12, 14, 16, and 17 represent stitching and form no part of the claimed design.

The outline of a person shown in broken lines in FIG. 9 illustrates the environment of use of the catheter sleeve on a person and form no part of the claimed design.

1 Claim, 13 Drawing Sheets
