(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

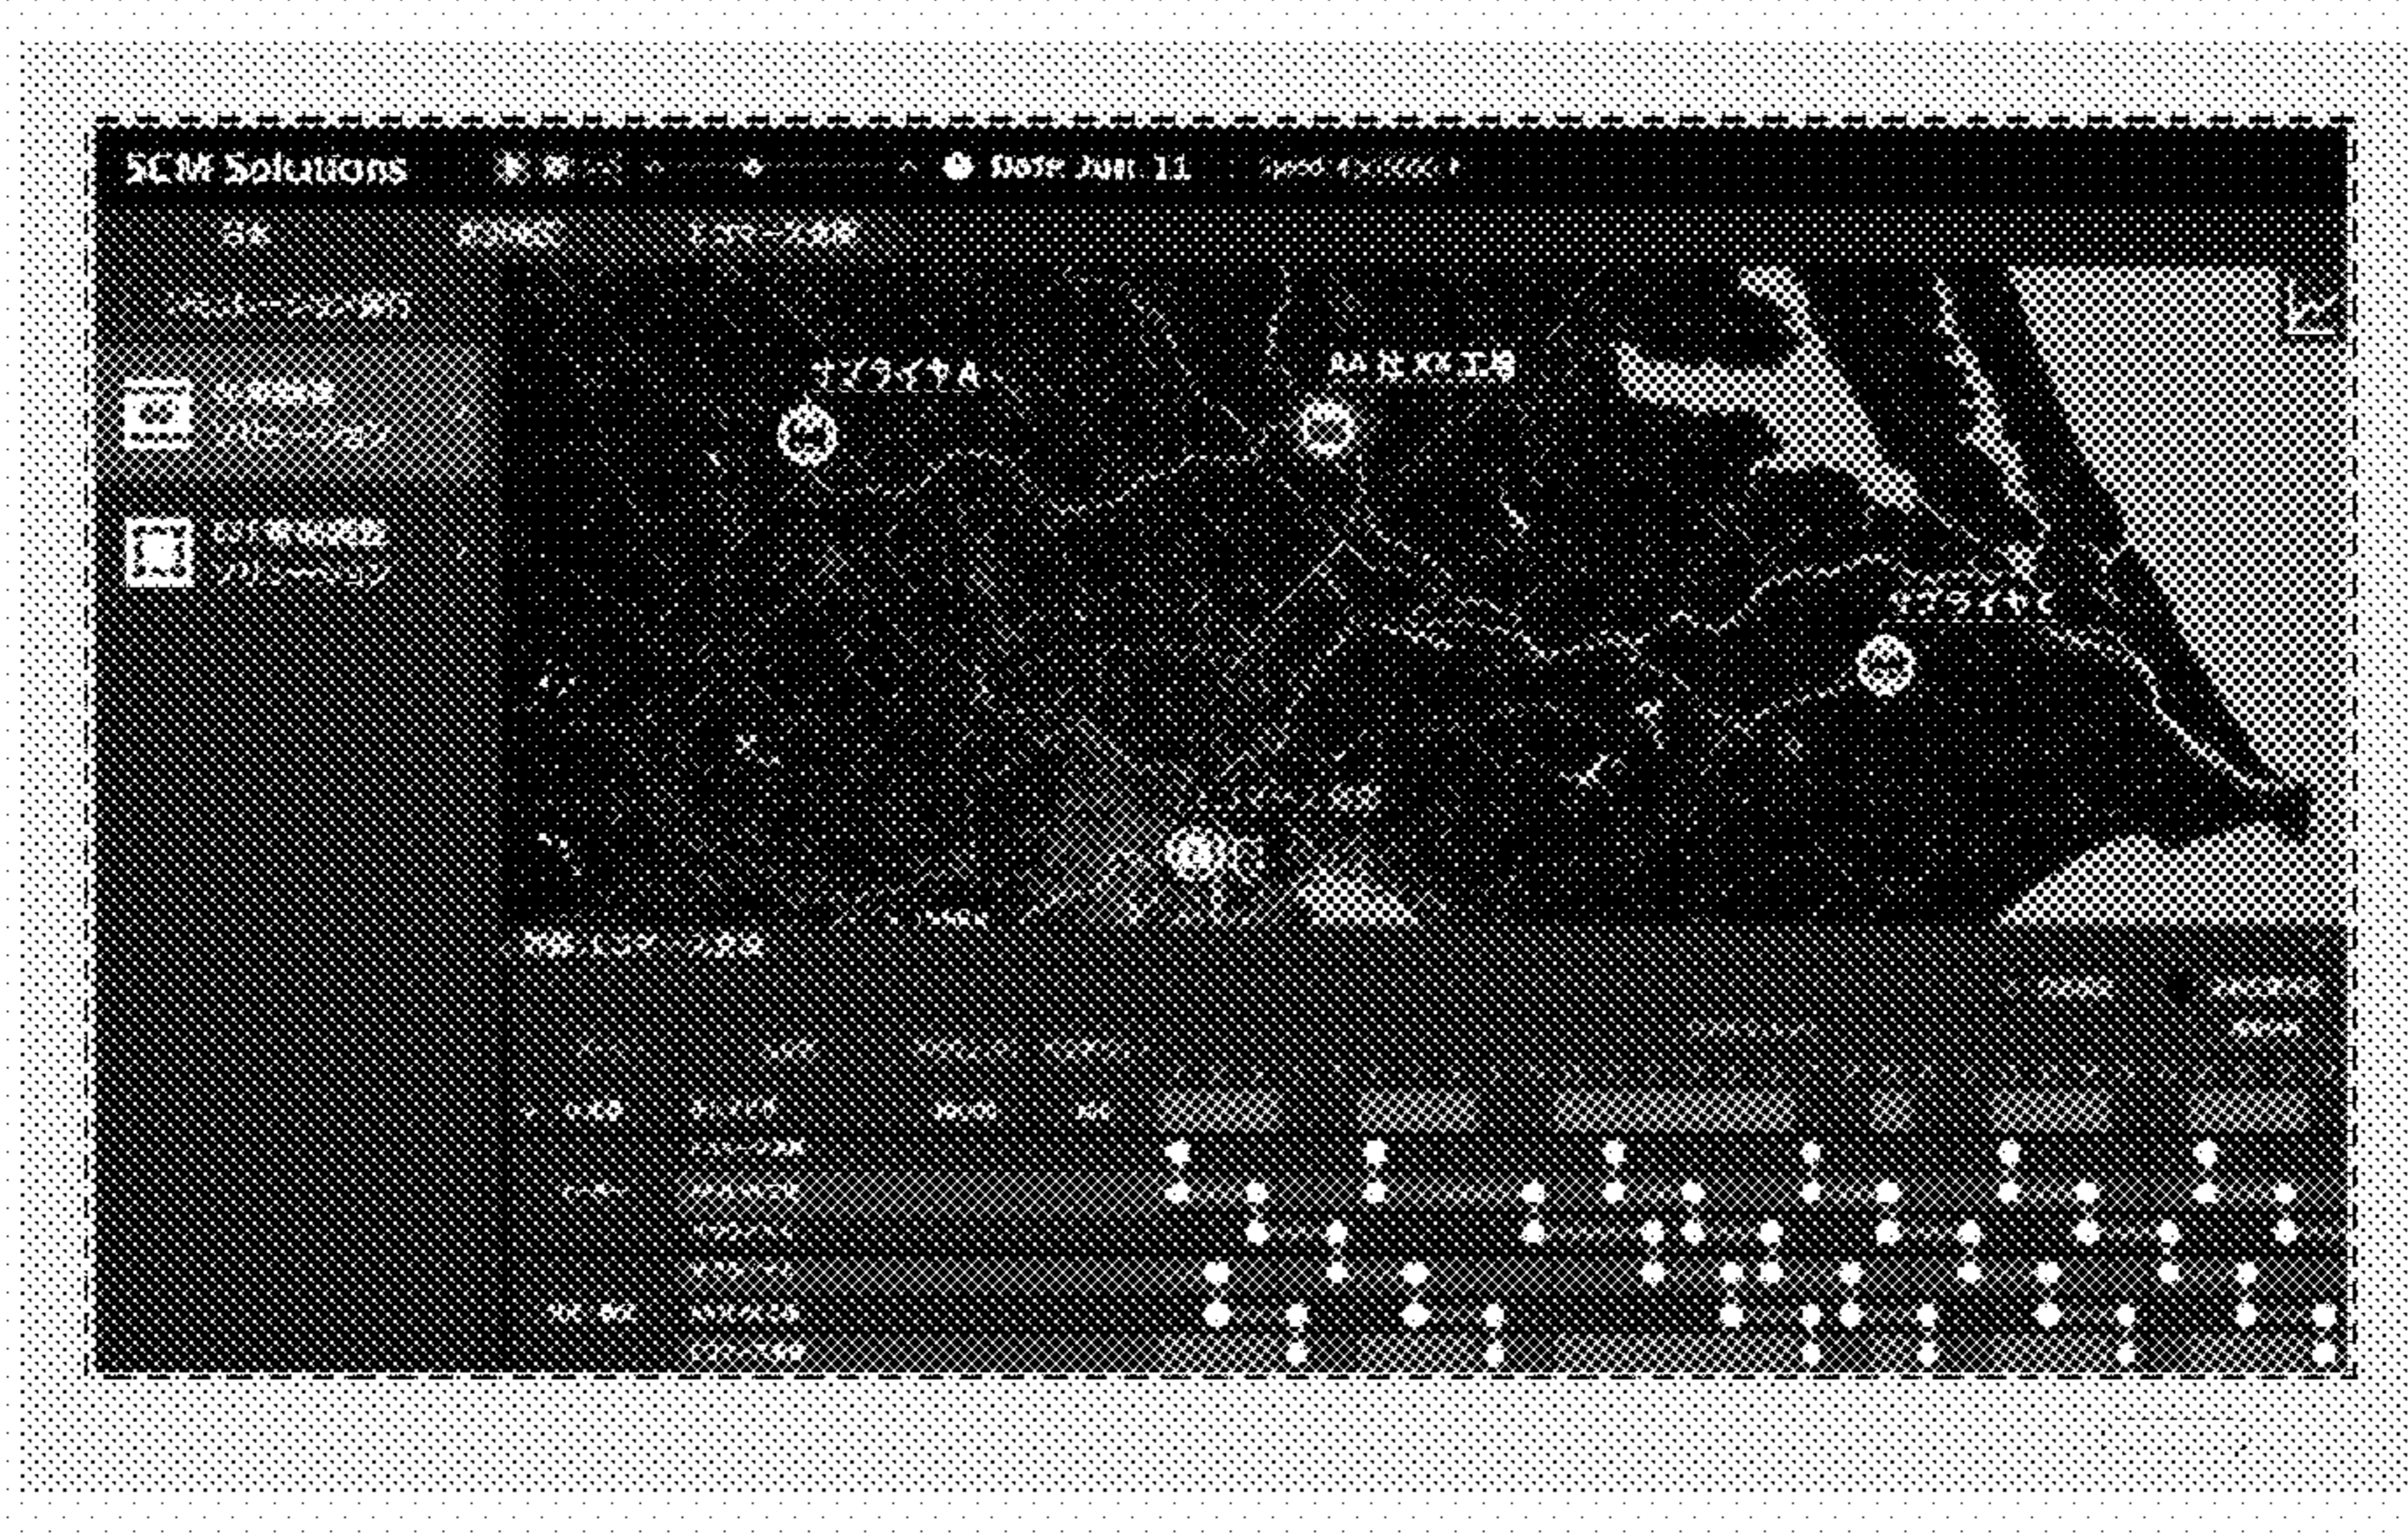

DESCRIPTION

The file of this patent contains a least one drawing executed in color. Copies of this patent with color drawing(s) will be provided by the Office upon request and payment of necessary fee.

The FIGURE is a front view of a display screen with graphical user interface showing our new design.

The broken lines showing a display screen illustrates portions of the article and forms no part of the claimed design. The grayscale showing of a computer monitor outside the broken line display screen illustrates environment that forms no part of the claimed design.
