(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

**DESCRIPTION**

The single FIGURE is a front elevation view of a display screen with graphical user interface showing the new design. The broken lines showing a mobile phone are included for the purpose of illustrating environmental structure, and form no part of the claimed design.

The broken lines that illustrate the display screen on the mobile phone show the boundary of the claimed design, and form no part thereof.
