(57) **CLAIM**

The ornamental design for a display panel with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a display panel with graphical user interface of a first embodiment of the present invention; FIG. 2 is a front view of a second embodiment of the present invention;

FIG. 3 is a front view of a third embodiment of the present invention; FIG. 4 is a front view of a fourth embodiment of the present invention;

FIG. 5 is a front view of a fifth embodiment of the present invention; and, FIG. 6 is a front view of a sixth embodiment of the present invention.

The outermost circle in broken lines in each of the drawings illustrates the display panel. The broken lines in each of the figures illustrating the display panel, and the broken lines illustrating the alphanumeric characters, symbols and icons that are portions of the graphical user interface do not form part of the claimed invention.
