(57) **CLAIM**

We claim the ornamental design for a medication packaging and dispensing system, as substantially shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a medication packaging and dispensing system including a lid shown in a closed position.

FIG. 2 is a front elevational view of the medication packaging and dispensing system shown in FIG. 1.

FIG. 3 is a rear elevational view of the medication packaging and dispensing system shown in FIG. 1.

FIG. 4 is a right side elevational view of the medication packaging and dispensing system shown in FIG. 1.

FIG. 5 is a left side elevational view of the medication packaging and dispensing system shown in FIG. 1.

FIG. 6 is a top view of the medication packaging and dispensing system shown in FIG. 1.

FIG. 7 is a bottom view of the medication packaging and dispensing system shown in FIG. 1.

FIG. 8 is a front perspective view of the medication packaging and dispensing system shown in FIG. 1 with the lid shown in an open position and an inner panel shown in a closed position such that a plurality of medication packages are visible.

FIG. 9 is a top view of the medication packaging and dispensing system shown in FIG. 8.

FIG. 10 is a front perspective view of the medication packaging and dispensing system shown in FIG. 1 with the lid shown in the open position and the inner panel shown in the open position such that the plurality of medication packages are visible.

FIG. 11 is a top view of the medication packaging and dispensing system shown in FIG. 10.

FIG. 12 is a front perspective view of the medication packaging and dispensing system shown in FIG. 1 with the lid shown in the open position and the inner panel shown in the closed position in an another embodiment where two or more medication packages are visible.

FIG. 13 is a top view of the medication packaging and dispensing system shown in FIG. 12.

(Continued)

FIG. 14 is a front perspective view of the medication packaging and dispensing system shown in FIG. 1 with the lid shown in the open position and the inner panel shown in the open position in the another embodiment where two or more medication packages are visible; and,

FIG. 15 is a top view of the medication packaging and dispensing system shown in FIG. 14.

FIGS. 1-15 are various views of a medication packaging and dispensing system in accordance with the present design. The medication packaging and dispensing system includes a container, a tray insert, and a plurality of medication packages. In one embodiment, the system includes four medication packages. In another embodiment, the system includes two or more medication packages. Features disclaimed with broken lines in the Figures indicate structure which forms no part of the claimed design.
