(57) **CLAIM**

We claim the ornamental design for a display screen with a graphical user interface of a receipt reader application, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with a graphical user interface of a receipt reader application, showing the new design; and,

FIG. 2 is a front view of a second image thereof.

The outermost broken line perimeter illustrates a display screen, while the other broken lines in the drawings illustrate portions of the graphical user interface of a receipt reader application. No subject matter represented in any of the broken lines form part of the claimed design.
