A portion of the disclosure of this patent document contains material which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the US Patent and Trademark Office patent file or records, but reserves all other copyrights whatsoever.

FIG. 1 is a front view of a display screen or portion thereof showing a first image of a graphical user interface.

FIG. 2 is a front view of a display screen or portion thereof showing a second image of the graphical user interface; and,

FIG. 3 is a front view of a display screen or portion thereof showing a third image of the graphical user interface.

The appearance of the display screen or portion thereof with graphical user interface transitions sequentially between the images shown in FIGS. 1-3. The process or period in which the display screen or portion thereof with graphical user interface transitions forms no part of the claimed design.

The outermost broken line showing of a display screen or portion thereof forms no part of the claimed design. All other broken lines illustrate portions of the graphical user interface that form no part of the claimed design.
