(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface for controlling an electronic candle, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image of the display screen with transitional graphical user interface for controlling an electronic candle; FIG. 2 is a front view of a second image thereof; and, FIG. 3 is a front view of a third image thereof. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design. The broken lines in the figures depict portions of the display screen and transitional graphical user interface which form no part of the claimed design.
