(57) **CLAIM**

We claim the ornamental design for a display screen or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is the first image in a sequence for a display screen or portion thereof with an animated graphical user interface showing our new design;

FIG. 2 is the second image thereof;

FIG. 3 is the third image thereof;

FIG. 4 is the fourth image thereof;

FIG. 5 is the fifth image thereof;

FIG. 6 is the sixth image thereof; and,

FIGS. 7 to 12 are the reference view of FIGS. 1 to 6 shown in an example environment.

The evenly spaced dash-dash broken lines in the figures depict environmental subject matter and form no part of the claimed design. The outermost evenly spaced dash-dash broken lines forming a rectangle surrounding the claimed design represent a display screen or portion thereof and form no part of the claimed design. The unevenly spaced dot-dash broken lines in the figures represent a boundary line and form no part of the claimed design.

The appearance of the animated user interface sequentially transitions between the images shown in FIGS. 1-6, and 7-12. The process or period in which one image transitions to another forms no part of the claimed design.

1 Claim, 6 Drawing Sheets
