(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the first image in the sequence for a display screen with graphical user interface showing a first embodiment of the new design;

FIG. 2 is a front view of the second image thereof;

FIG. 3 is a front view of the first image in the sequence for a display screen with graphical user interface showing a second embodiment of the new design;

FIG. 4 is a front view of the second image thereof;

FIG. 5 is a front view of the first image of the first embodiment shown with differing broken-line subject matter.

FIG. 6 is a front view of the second image of the first embodiment shown with differing broken-line subject matter.

FIG. 7 is a front view of the first image of the second embodiment shown with differing broken-line subject matter; and,

FIG. 8 is a front view of the second image of the second embodiment shown with differing broken-line subject matter.

The dot-dash perimeter illustrates a display screen and forms no part of the claimed design. The remaining broken lines illustrate portions of a graphical user interface and form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2 and FIGS. 5-6 in the first embodiment, and FIGS. 3-4 and FIGS. 7-8 in the second embodiment. The process or period in which one image transitions to another forms no part of the claimed design.

1 Claim, 4 Drawing Sheets
