(57) **CLAIM**

I claim the ornamental design for a robotic creature, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view, from the top front left, of a first embodiment of the robotic creature.

FIG. 2 is an isometric view, from the bottom back right, of the first embodiment of the robotic creature.

FIG. 3 is a plan view from the top of the first embodiment of the robotic creature.

FIG. 4 is an elevation view from the front of the first embodiment of the robotic creature.

FIG. 5 is an elevation view from the left side of the first embodiment of the robotic creature.

FIG. 6 is an elevation view from the back of the first embodiment of the robotic creature.

FIG. 7 is an elevation view from the right side of the first embodiment of the robotic creature.

FIG. 8 is a plan view from the bottom of the first embodiment of the robotic creature.

FIG. 9 is an isometric view, from the top front left, of a second embodiment of the robotic creature.

FIG. 10 is an isometric view, from the bottom back right, of the second embodiment of the robotic creature.

FIG. 11 is a plan view from the top of the second embodiment of the robotic creature.

FIG. 12 is an elevation view from the front of the second embodiment of the robotic creature.

FIG. 13 is an elevation view from the left side of the second embodiment of the robotic creature.

FIG. 14 is an elevation view from the back of the second embodiment of the robotic creature.

(Continued)

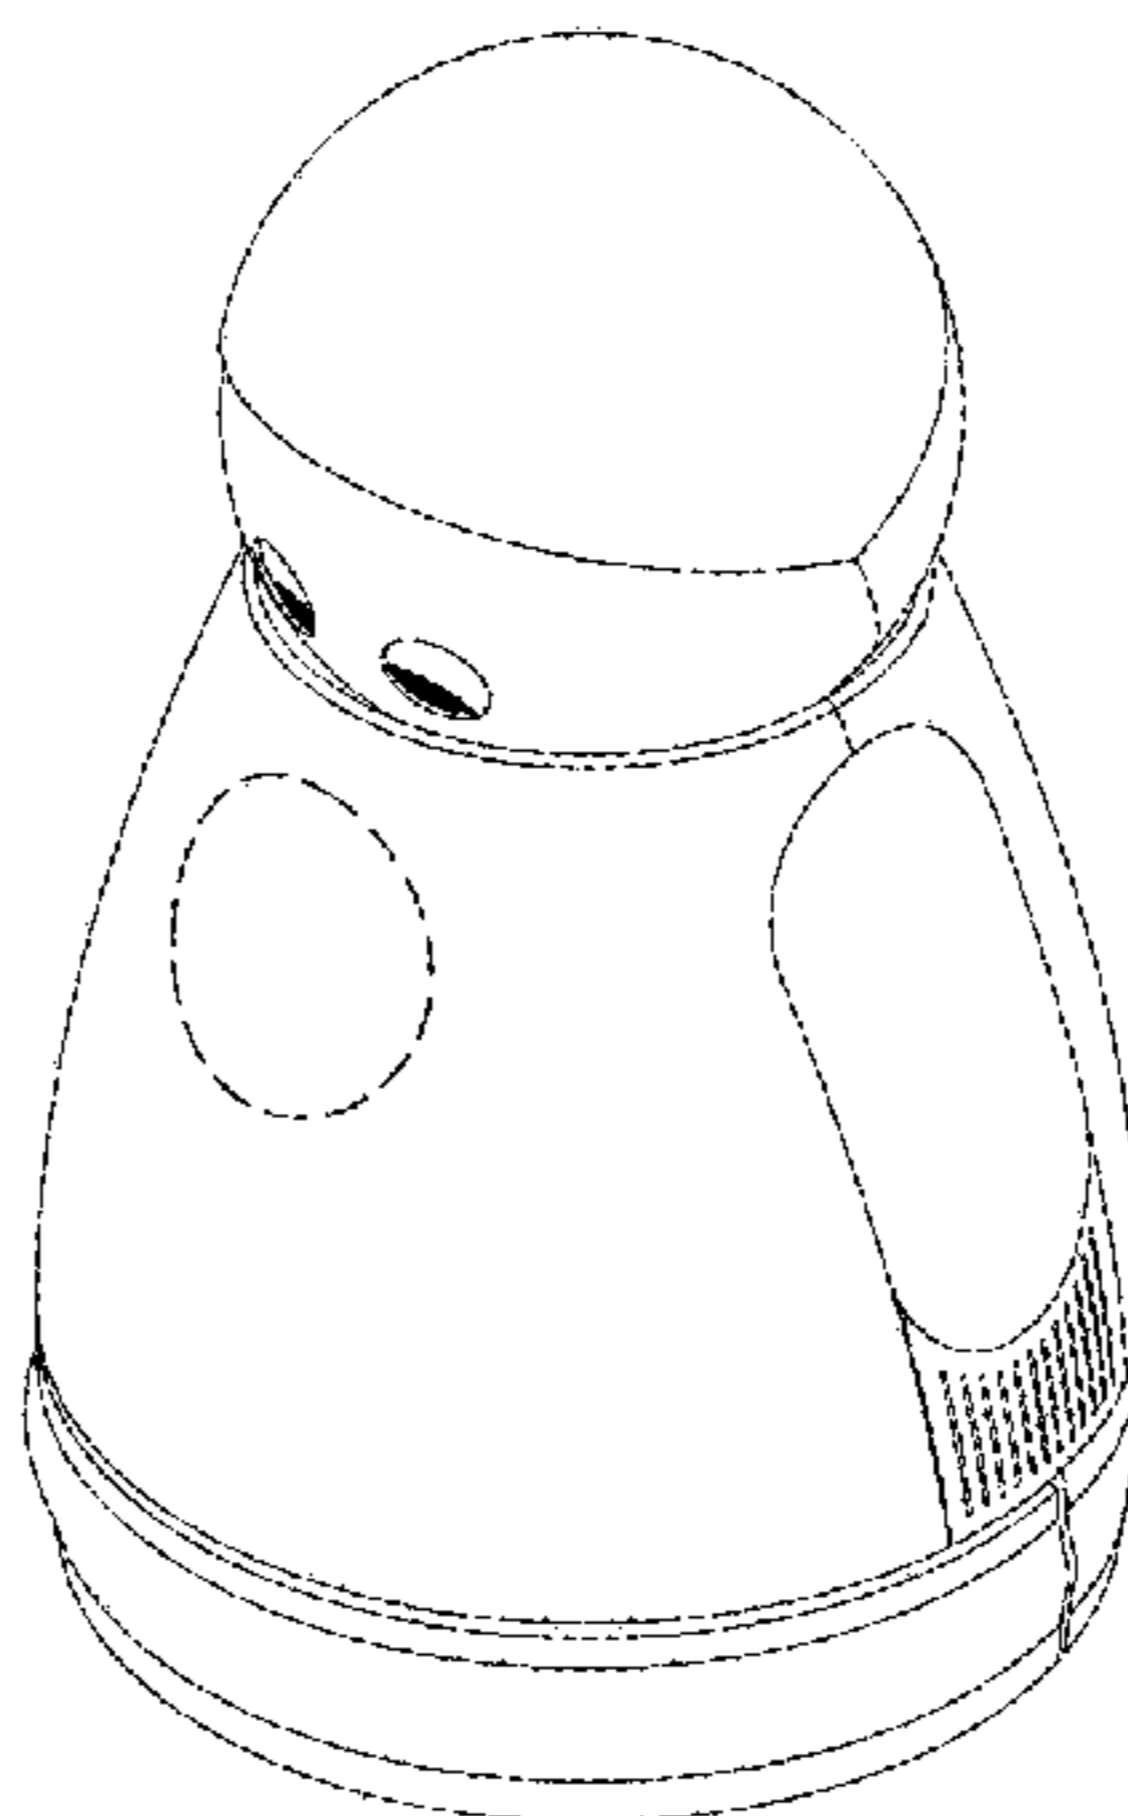

FIG. 15 is an elevation view from the right side of the second embodiment of the robotic creature.

FIG. 16 is a plan view from the bottom of the second embodiment of the robotic creature.

FIG. 17 is an isometric view, from the top front left, of a third embodiment of the robotic creature.

FIG. 18 is an isometric view, from the bottom back right, of the third embodiment of the robotic creature.

FIG. 19 is a plan view from the top of the third embodiment of the robotic creature.

FIG. 20 is an elevation view from the front of the third embodiment of the robotic creature.

FIG. 21 is an elevation view from the left side of the third embodiment of the robotic creature.

FIG. 22 is an elevation view from the back of the third embodiment of the robotic creature.

FIG. 23 is an elevation view from the right side of the third embodiment of the robotic creature; and,

FIG. 24 is a plan view from the bottom of the third embodiment of the robotic creature.

The broken lines show portions of a robotic creature, that form no part of the claimed design.

1 Claim, 9 Drawing Sheets
