(57) **CLAIM**

The ornamental design for a display panel or screen with a graphical user interface, as shown and described.

**DESCRIPTION**

The FIGURE is a front view of a display panel or screen with a graphical user interface showing our new design. The outermost even-dash broken-line perimeter, which illustrates a display panel or screen, forms no part of the claimed design. The remaining even-dash broken lines, which illustrate portions of a graphical user interface, form no part of the claimed design. The features within the small circles of the circle grid form no part of the claimed design.
