*Primary Examiner* — Karen E Kearney*Assistant Examiner* — Katherine A Holbrow(74) *Attorney, Agent, or Firm* — Maschoff Brennan(57) **CLAIM**

The ornamental design for a display screen or a portion thereof with animated graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a first image of a first embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 2 is a second image of a first embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 3 is a third image of a first embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 4 is a forth image of a first embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 5 is a fifth image of a first embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 6 is a sixth image of a first embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 7 is a seventh image of a first embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 8 is a first image of a second embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 9 is a second image of a second embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 10 is a third image of a second embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 11 is a forth image of a second embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 12 is a fifth image of a second embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 13 is a sixth image of a second embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 14 is a first image of a third embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 15 is a second image of a third embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 16 is a third image of a third embodiment of a display screen or a portion thereof with animated graphical user interface;

(Continued)

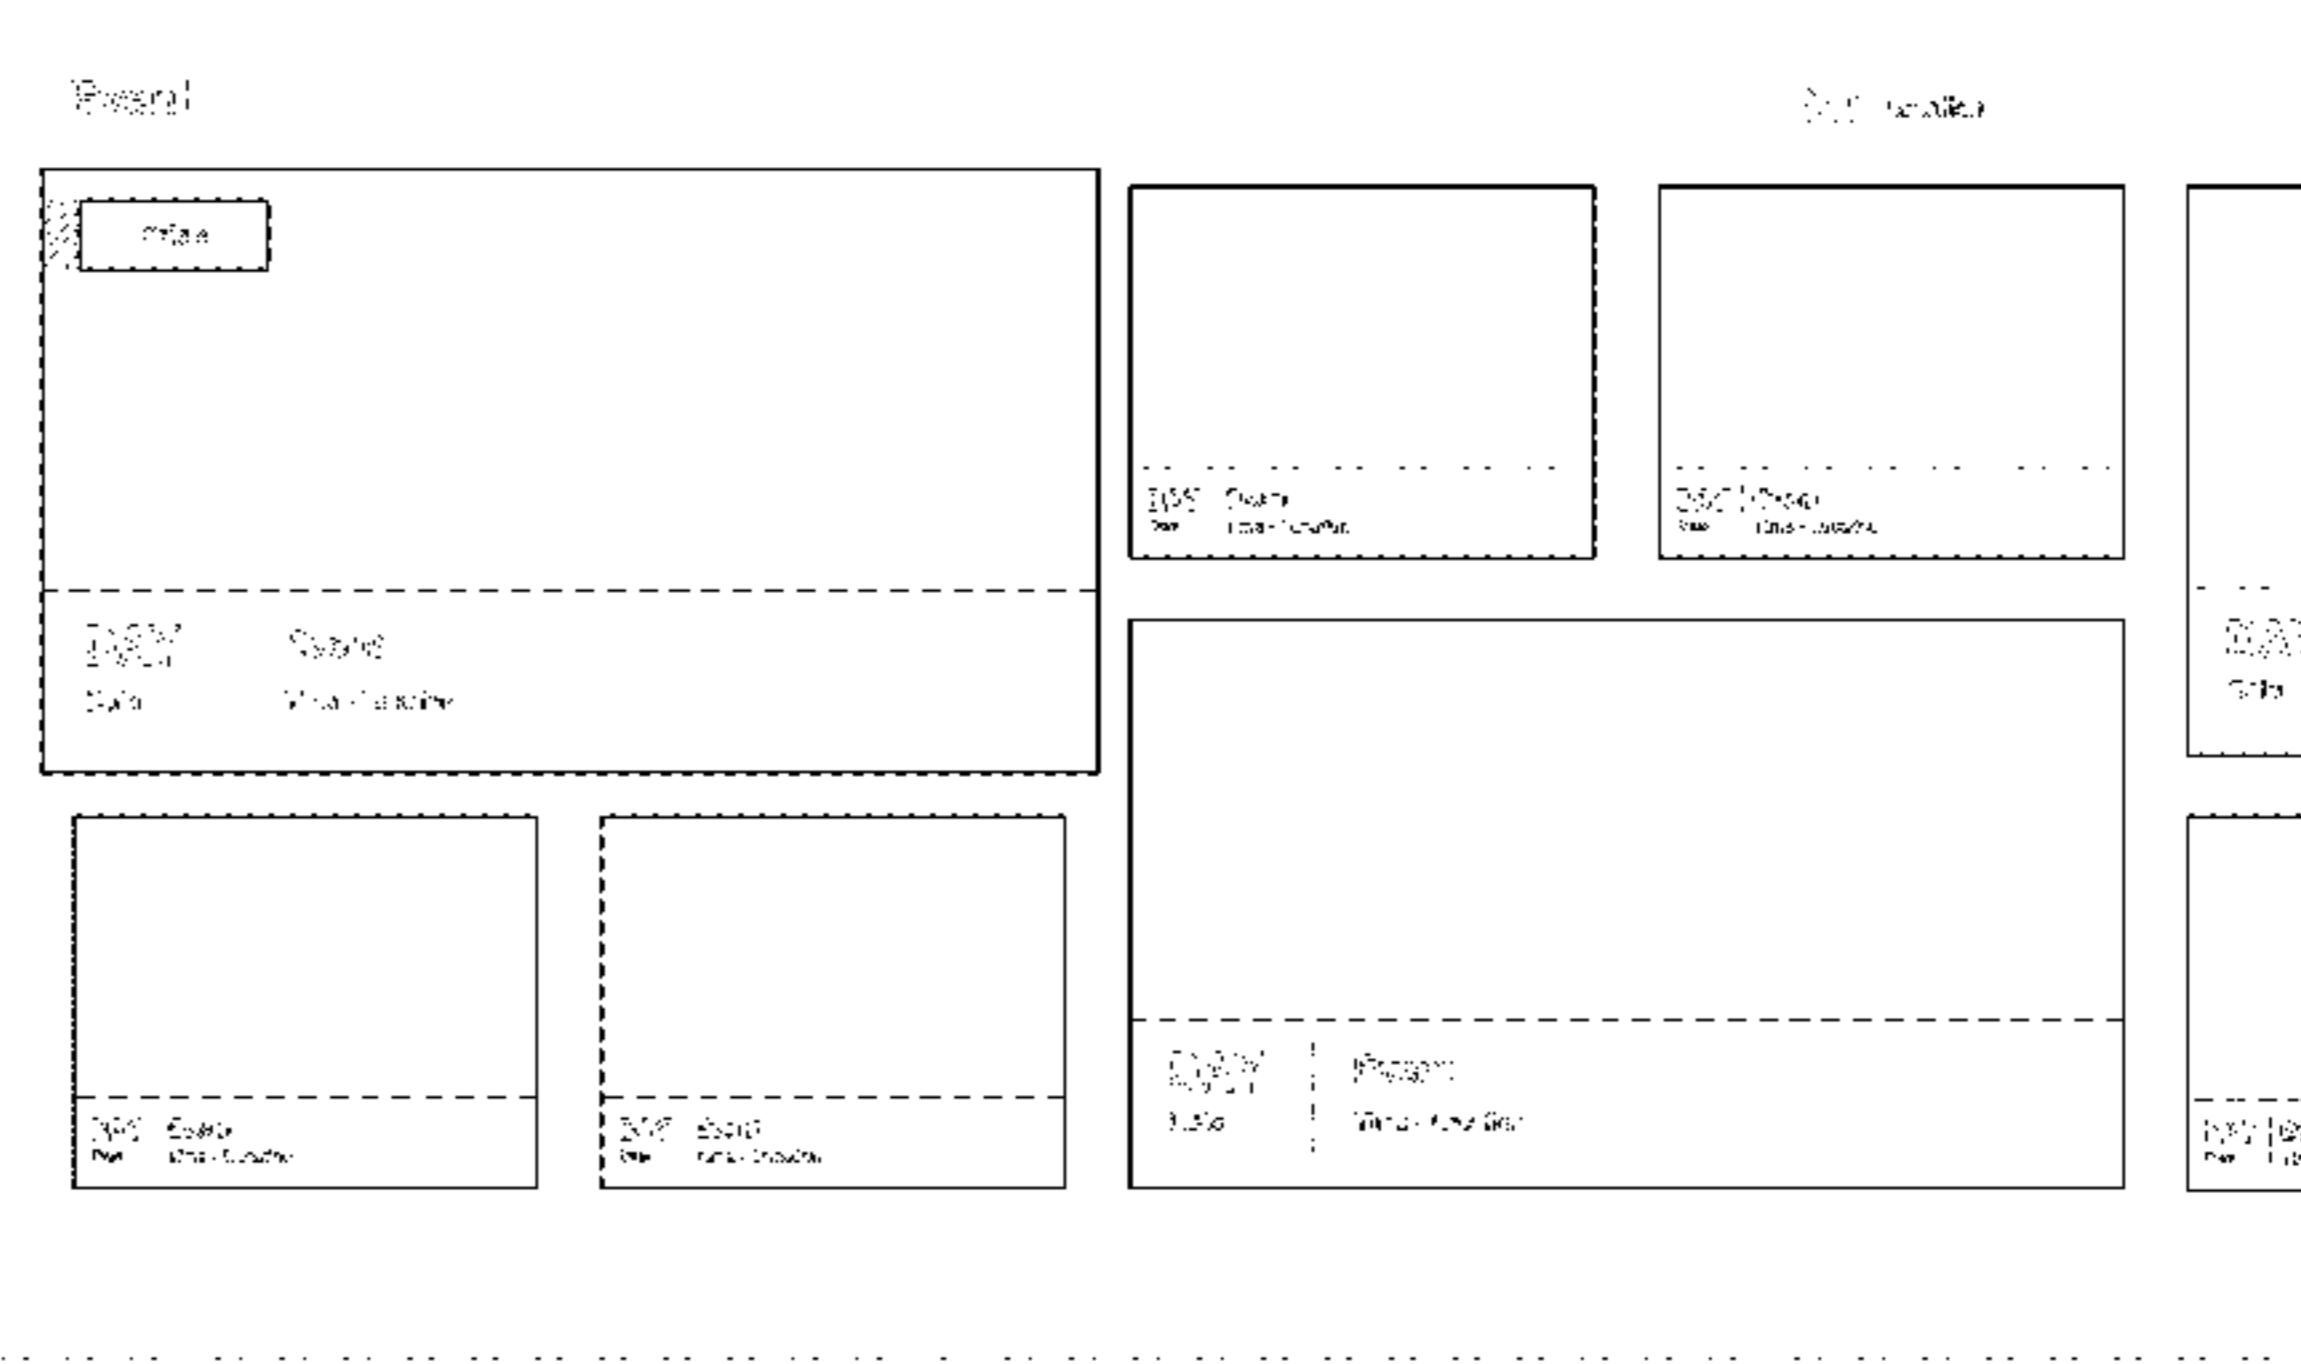

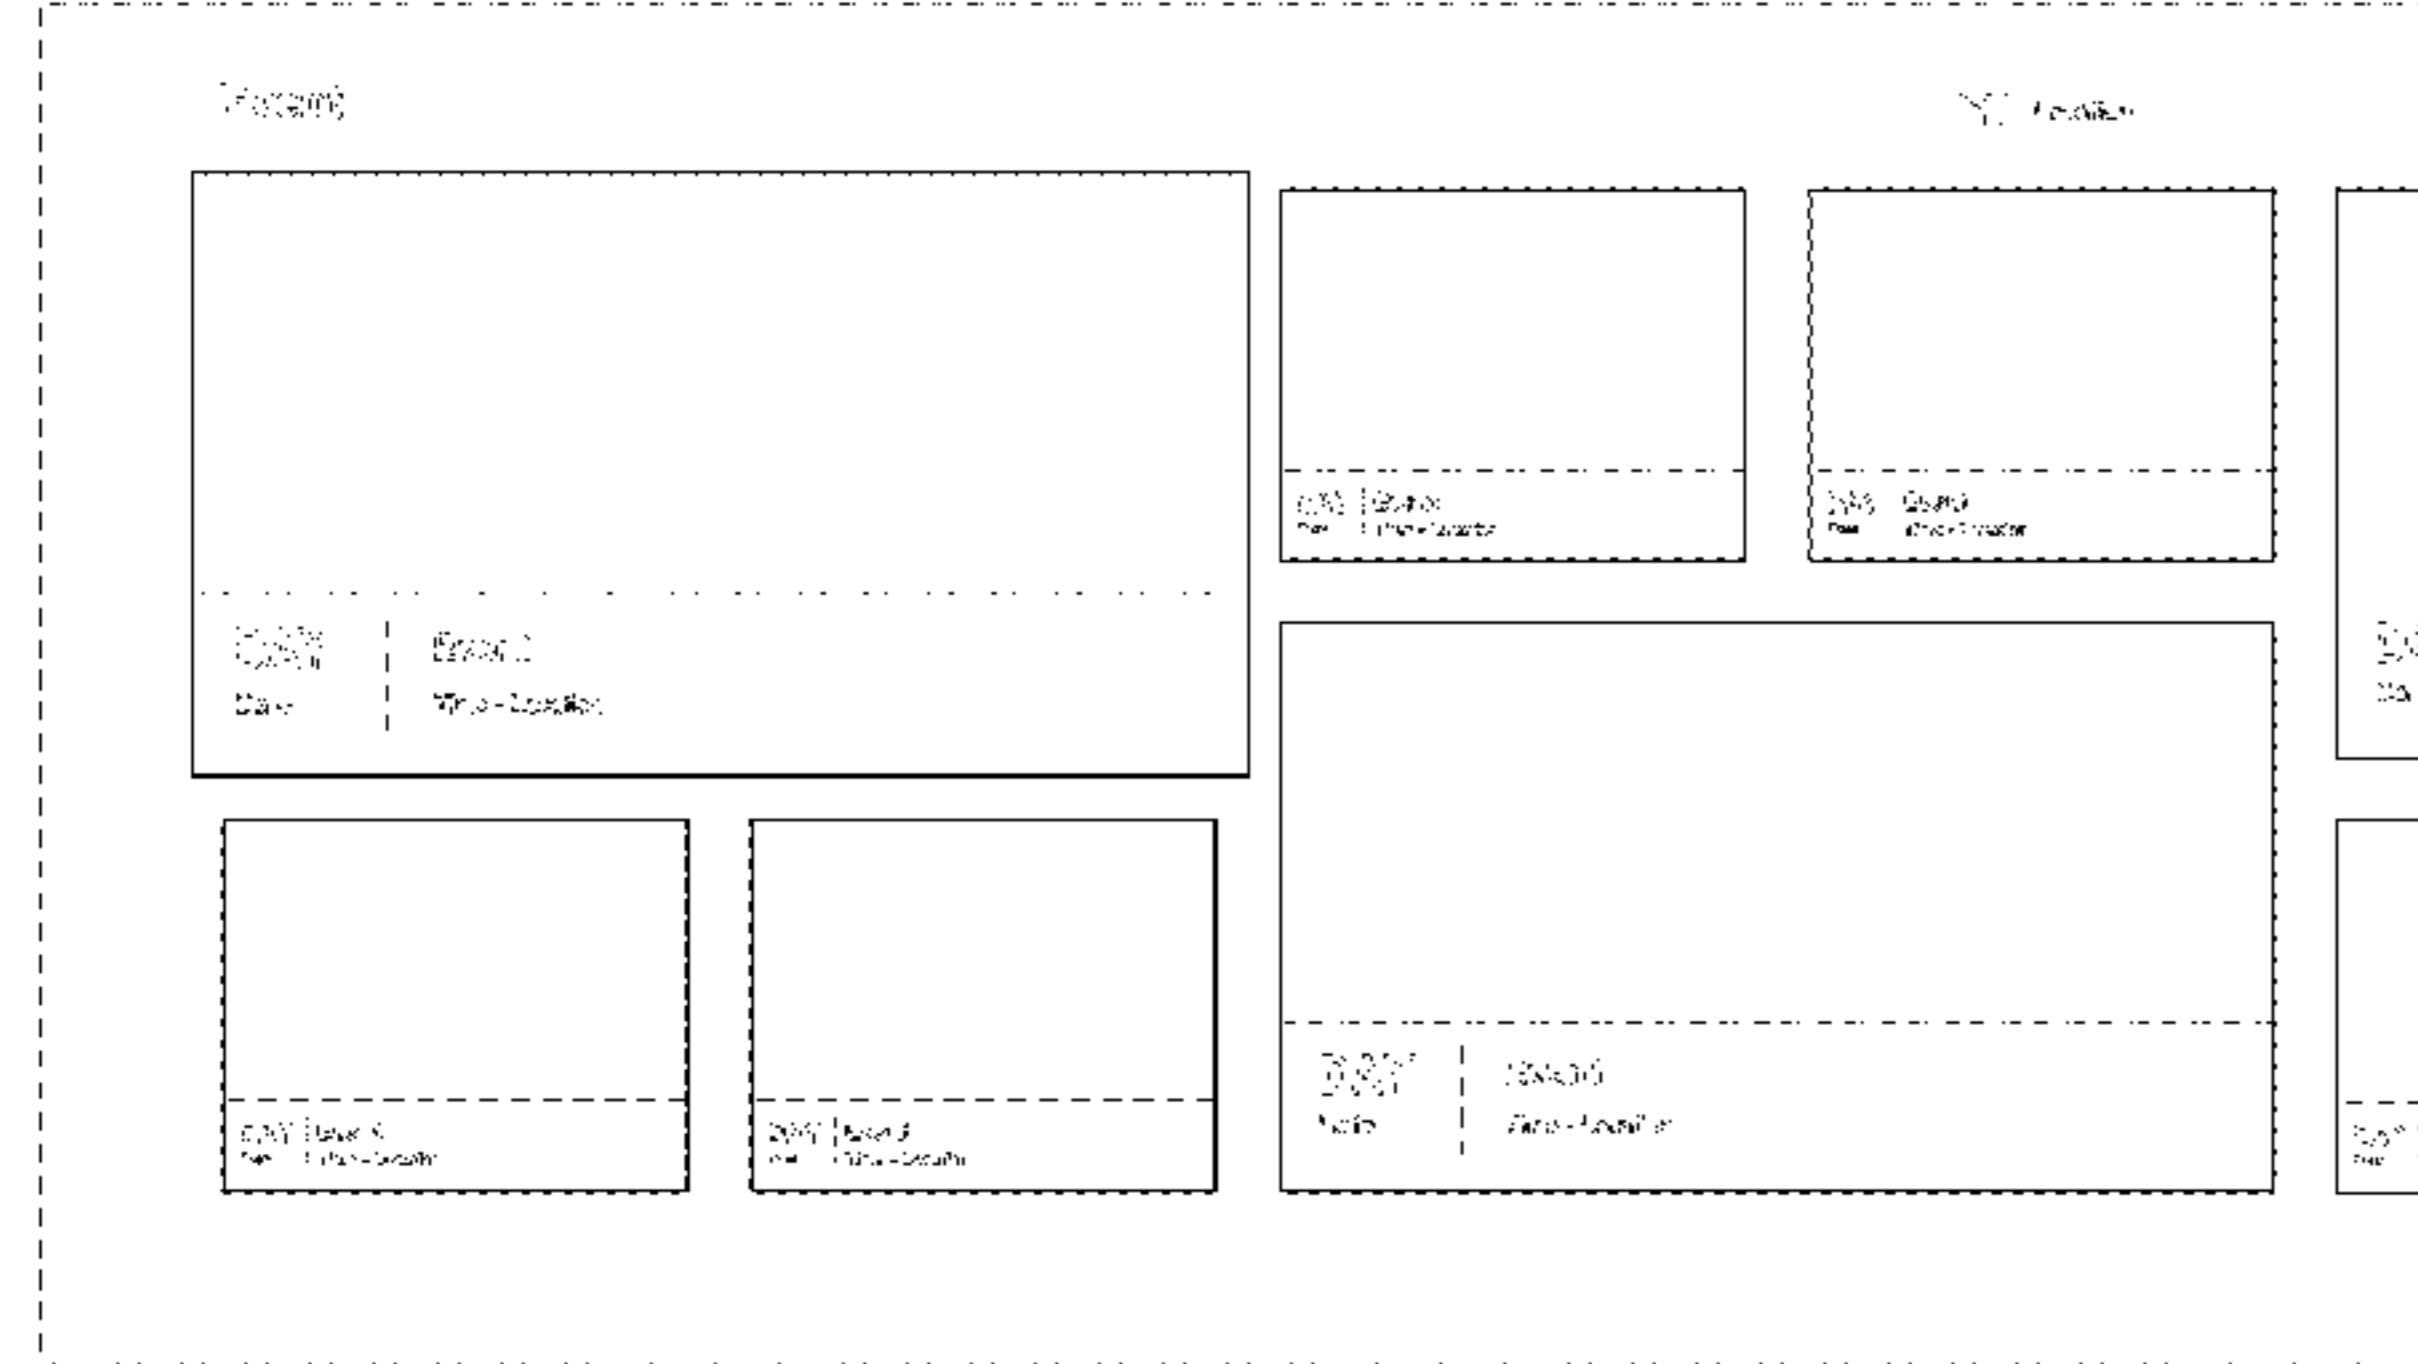

FIG. 17 is a forth image of a third embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 18 is a fifth image of a third embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 19 is a sixth image of a third embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 20 is a seventh image of a third embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 21 is a first image of a fourth embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 22 is a second image of a fourth embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 23 is a third image of a fourth embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 24 is a forth image of a fourth embodiment of a display screen or a portion thereof with animated graphical user interface;

FIG. 25 is a fifth image of a fourth embodiment of a display screen or a portion thereof with animated graphical user interface; and,

FIG. 26 is a sixth image of a fourth embodiment of a display screen or a portion thereof with animated graphical user interface.

The outermost broken line rectangle showing of the display screen portion and all other broken lines showing text and portions of the graphical user interface are included for the purpose of illustrating portions of the article and form no part of the claimed design.

In the first embodiment, the appearance of the animated graphical user interface sequentially transitions from FIG. 1 to FIG. 7. In the second embodiment, the appearance of the animated graphical user interface sequentially transitions from FIG. 8 to FIG. 13. In the third embodiment, the appearance of the animated graphical user interface sequentially transitions from FIG. 14 to FIG. 20. In the fourth embodiment, the appearance of the animated graphical user interface sequentially transitions from FIG. 21 to FIG. 26. The process-or period in which one image transitions to another image forms no part of the claimed design.
