

(10) **Patent No.:** US D823,625 S
(45) **Date of Patent:** ** Jul. 24, 2018

A line drawing of a chair. The backrest is large and circular, composed of several concentric rings or bands that are slightly offset from each other, creating a woven or layered effect. The seat is a simple, flat square. The chair has four legs, with the front legs being slightly angled outwards. The drawing is done in a minimalist, sketchy style with clean lines.
