(57) **CLAIM**

The ornamental design for a dual cup lockout device, as shown and described.

**DESCRIPTION**

FIG. 1 is a top, rear, and right perspective view of a dual cup lockout device, according to a first embodiment of our new design;

FIG. 2 is a top, front, and right perspective view of the dual cup lockout device of FIG. 1;

FIG. 3 is a top, front, and left perspective view of the dual cup lockout device of FIG. 1;

FIG. 4 is a bottom, rear, and left view of the dual cup lockout device of FIG. 1;

FIG. 5 is a right elevational view of the dual cup lockout device of FIG. 1;

FIG. 6 is a left elevational view of the dual cup lockout device of FIG. 1;

FIG. 7 is a rear elevational view of the dual cup lockout device of FIG. 1;

FIG. 8 is a front elevational view of the dual cup lockout device of FIG. 1;

FIG. 9 is a top plan view of the dual cup lockout device of FIG. 1; and,

FIG. 10 is a bottom plan view of the dual cup lockout device of FIG. 1.

The broken line representations in the views are for illustrative purposes only and form no part of the claimed design. The dash-dot lines indicate boundaries of a claimed surface that are not an edge. The jagged broken line on the non-claimed section of the bar is an indeterminate length line which is used to indicate that the bar can be of lengths other than the specific length illustrated. The portions between the jagged broken lines form no part of the claimed design.
