(57) **CLAIM**

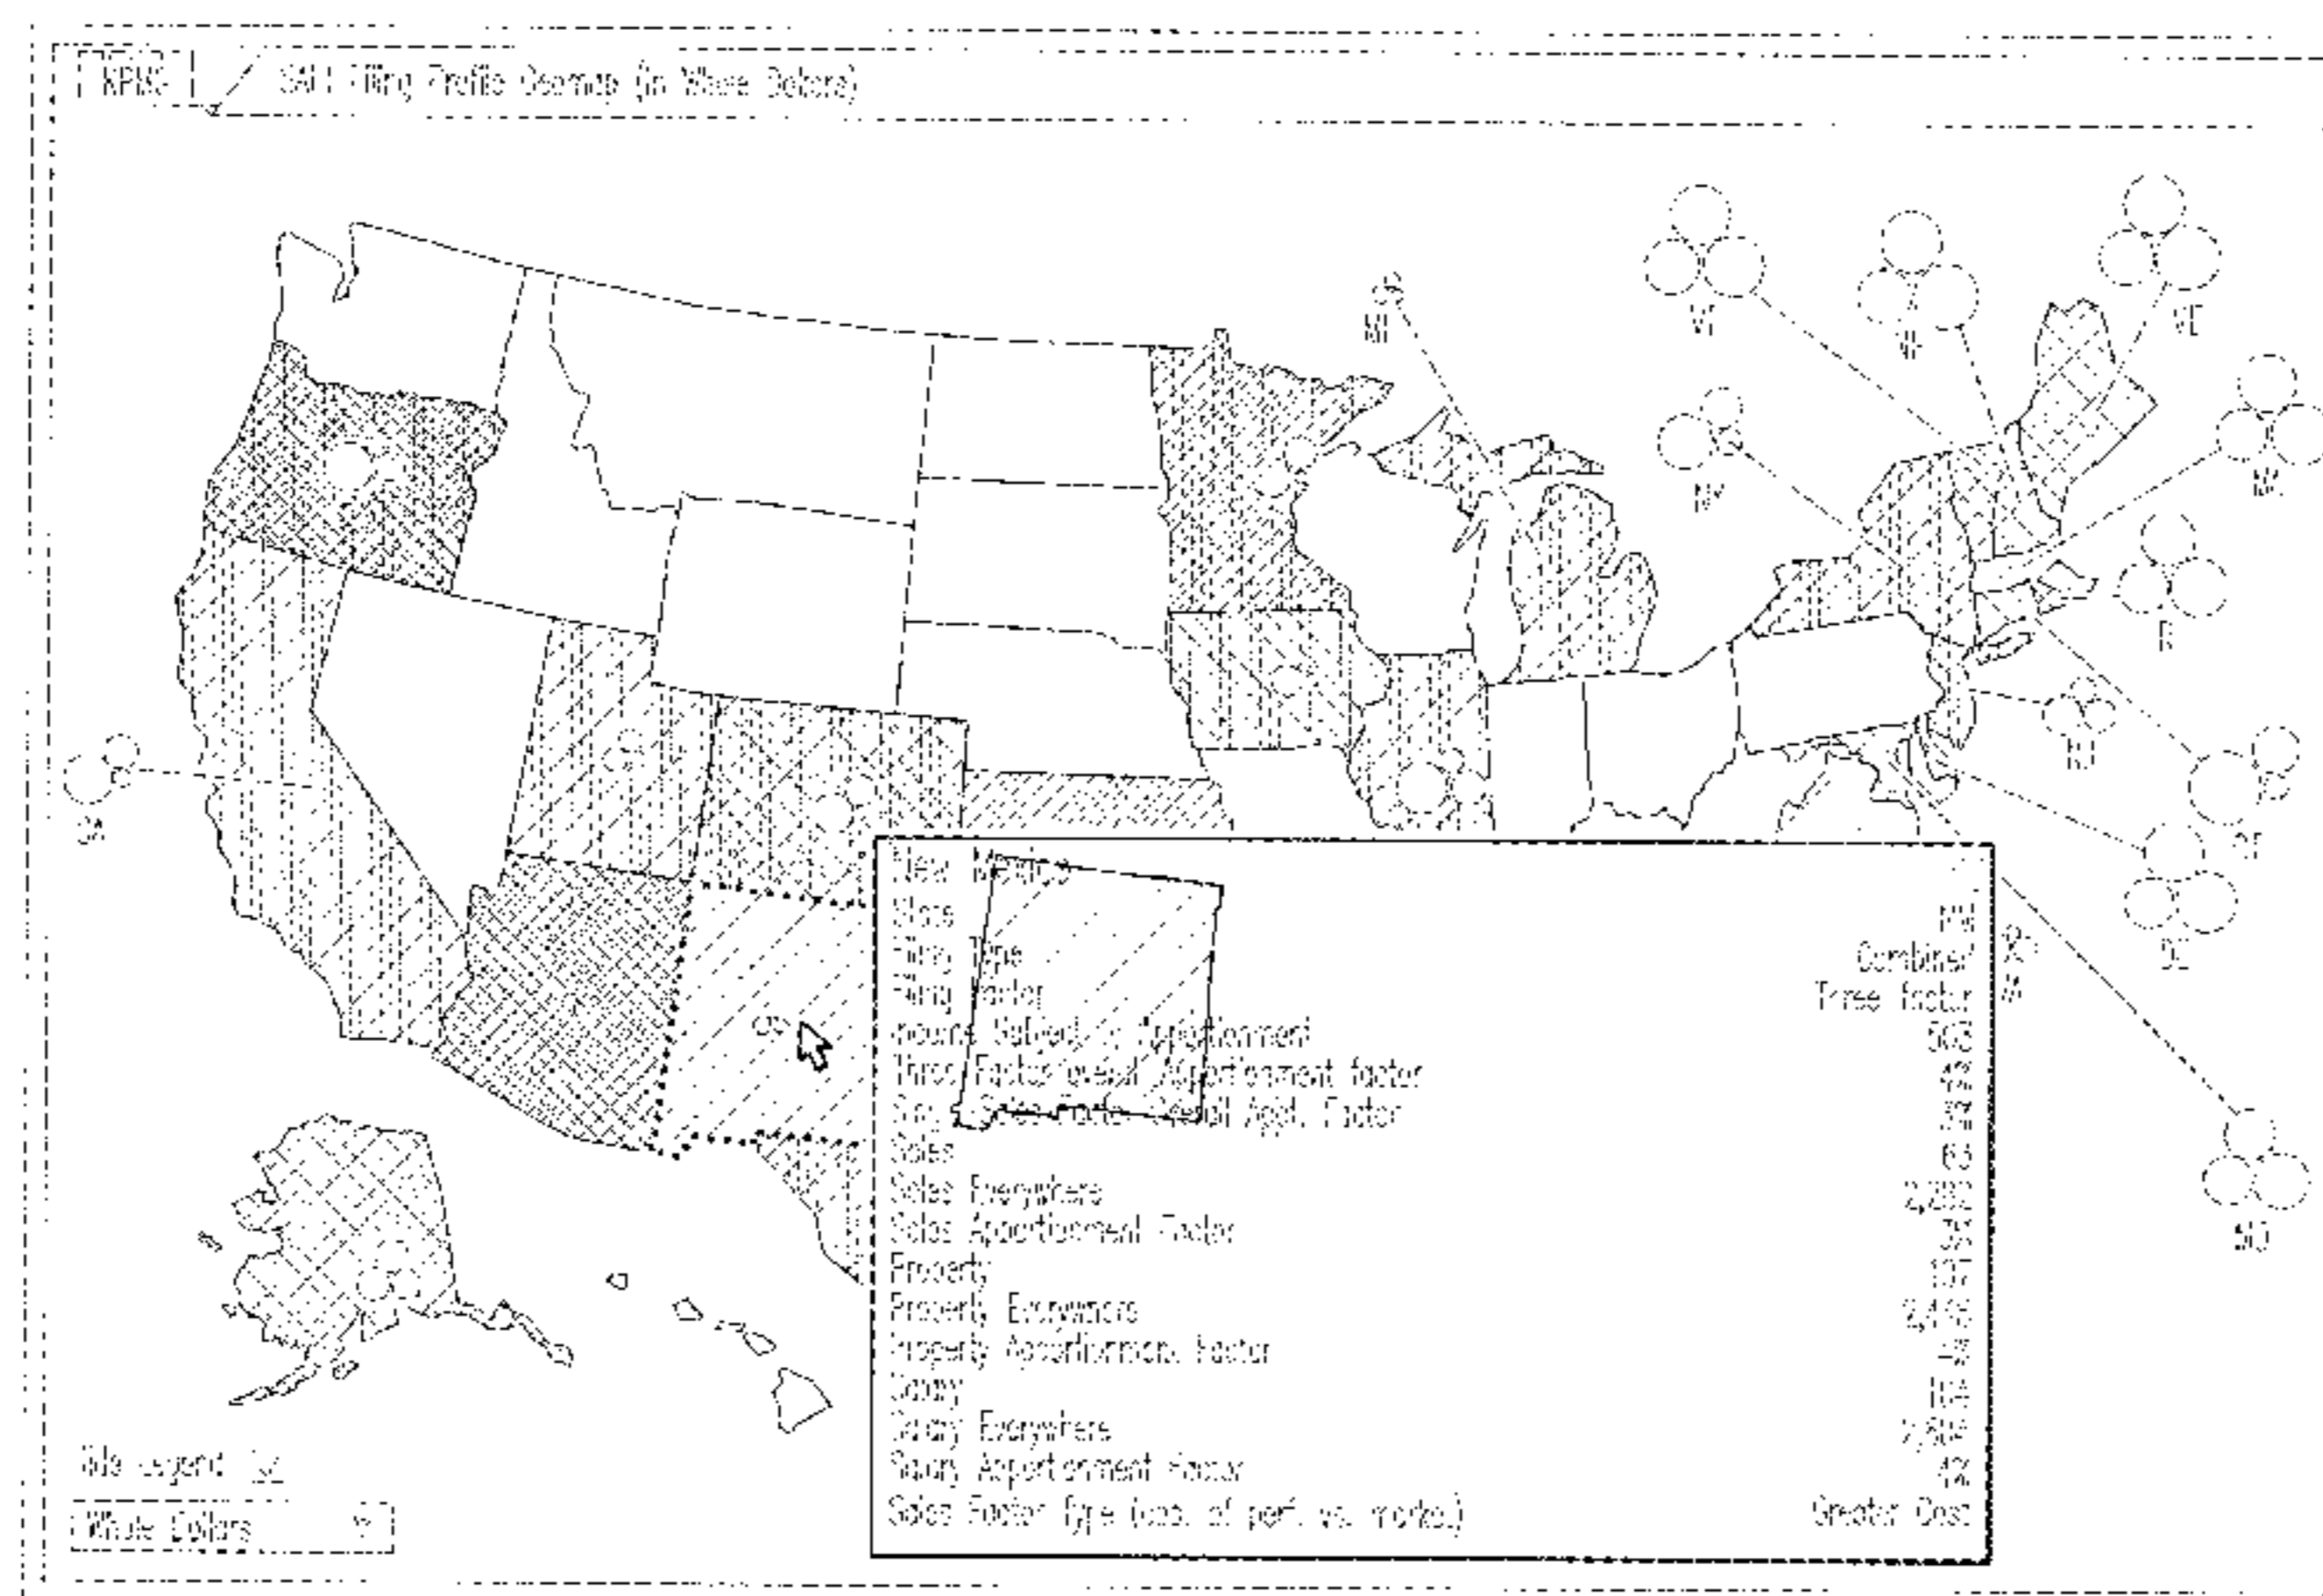

The ornamental design for a display screen with graphical user interface for map information, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence of a display screen with graphical user interface for map information, showing our new design; and, FIG. 2 is a front view of a second image thereof; The appearance of the image transitions sequentially between the images shown in FIGS. 1 and 2. The process of period in which one image transitions to another forms no part of the claimed design.

The outermost broken lines illustrate a display screen and form no part of the claimed design. The remaining broken
