(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. **1** is a front view of a display screen with animated graphical user interface showing the new design;
FIG. **2** is a front view of a second image thereof;
FIG. **3** is a front view of a third image thereof; and,
FIG. **4** is a front view of a fourth image thereof.
The appearance of the image transitions between the images shown in FIGS. **1-4**. The process or period in which an image transitions to another forms no part of the claimed design. The broken lines of uneven length show the display screen and form no part of the claimed design. The broken lines of even length shown in the drawings illustrate portions of the display screen with animated graphical user interface that form no part of the claimed design.
