CLAIM

The ornamental design for an earring back, as shown and described.

DESCRIPTION

FIG. 1 is a front top perspective view of an earring back showing my new design.

FIG. 2 is a front elevation view thereof.

FIG. 3 is a rear elevation view thereof.

FIG. 4 is a right side elevation view thereof.

FIG. 5 is a left side elevation view thereof.

FIG. 6 is a top plan view thereof; and,

FIG. 7 is a bottom plan view thereof.

The item is a back for a post-mounted earring.

The broken lines in the drawing depict the boundary of the claim. It is understood that the claim extends to the boundary but that the boundary forms no part of the claim.

1 Claim, 6 Drawing Sheets

A line drawing of an earring back. The top part is a heart-shaped cap. Below it is a base with a multi-lobed, flower-like shape. In the center of the base is a circular hole for a post. A small circular feature is visible on the side of the base. The drawing uses solid lines for the main structure and dashed/broken lines to indicate the boundary of the claimed design.
