(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

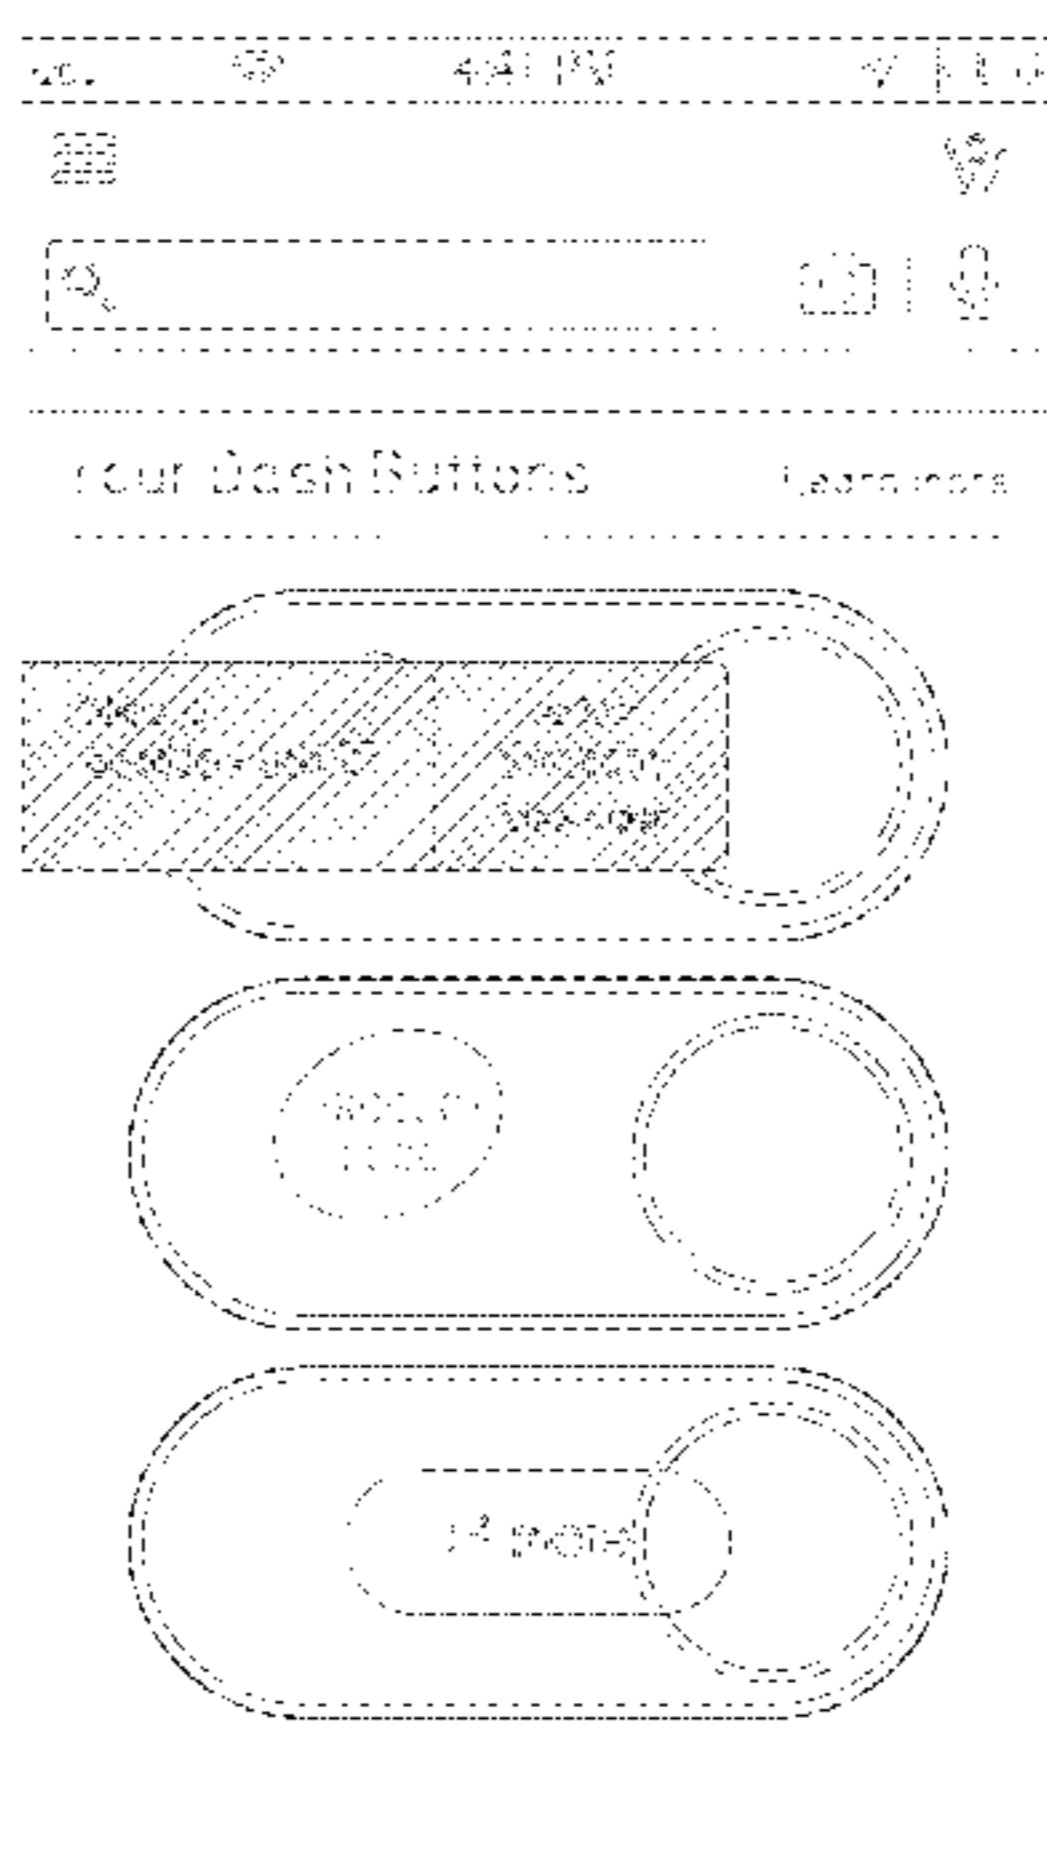

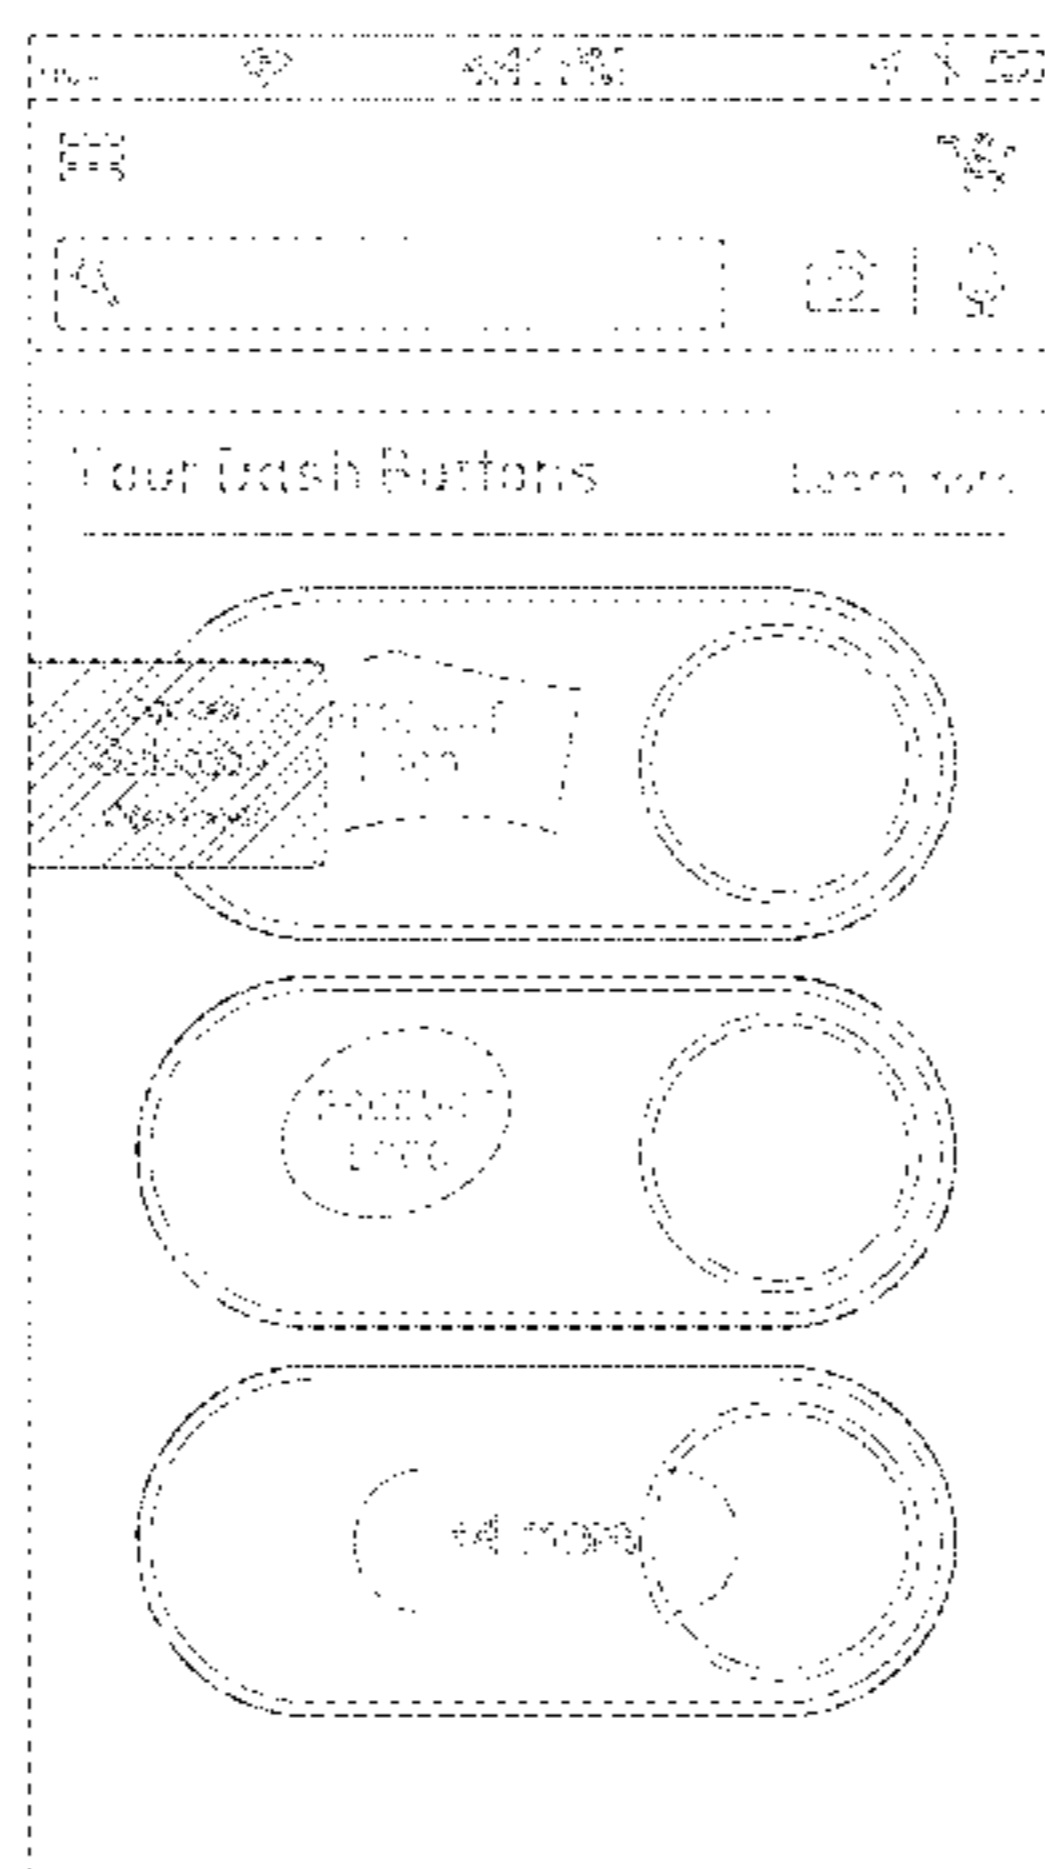

DESCRIPTION

This application incorporates by reference U.S. Design patent application Ser. No. 29/589,467. All the material from the U.S. Application which is essential to the claimed design is included in this application. It is understood that any material in the U.S. Application which is not present in this application forms no part of the claimed design.

FIG. 1 is a front view of a display screen or portion thereof with graphical user interface in accordance with a first embodiment; and,

FIG. 2 is a front view of a display screen or portion thereof with graphical user interface in accordance with a second embodiment.

(Continued)

The broken lines, including those showing a display screen or portion thereof and those depicting portions of a graphical user interface, form no part of the claimed design. The areas shown with diagonal lines in the figures illustrate contrasting appearance.
