(57) **CLAIM**

The ornamental design for a display screen or portion thereof with a graphical user interface, substantially as shown and described.

DESCRIPTION

A portion of the disclosure of this patent document contains material to which a claim for copyright is made. The copyright owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the Patent and Trademark Office patent file or records, but reserves all other copyright rights whatsoever.

FIG. 1 is an enlarged front view of a portion of the display screen or portion thereof with graphical user interface that is illustrated in FIG. 4, shown separately for clarity of illustration.

FIG. 2 is an enlarged front view of a portion of the display screen or portion thereof with graphical user interface that is illustrated in FIG. 5, shown separately for clarity of illustration.

FIG. 3 is an enlarged front view of a portion of the display screen or portion thereof with graphical user interface that is illustrated in FIG. 6, shown separately for clarity of illustration.

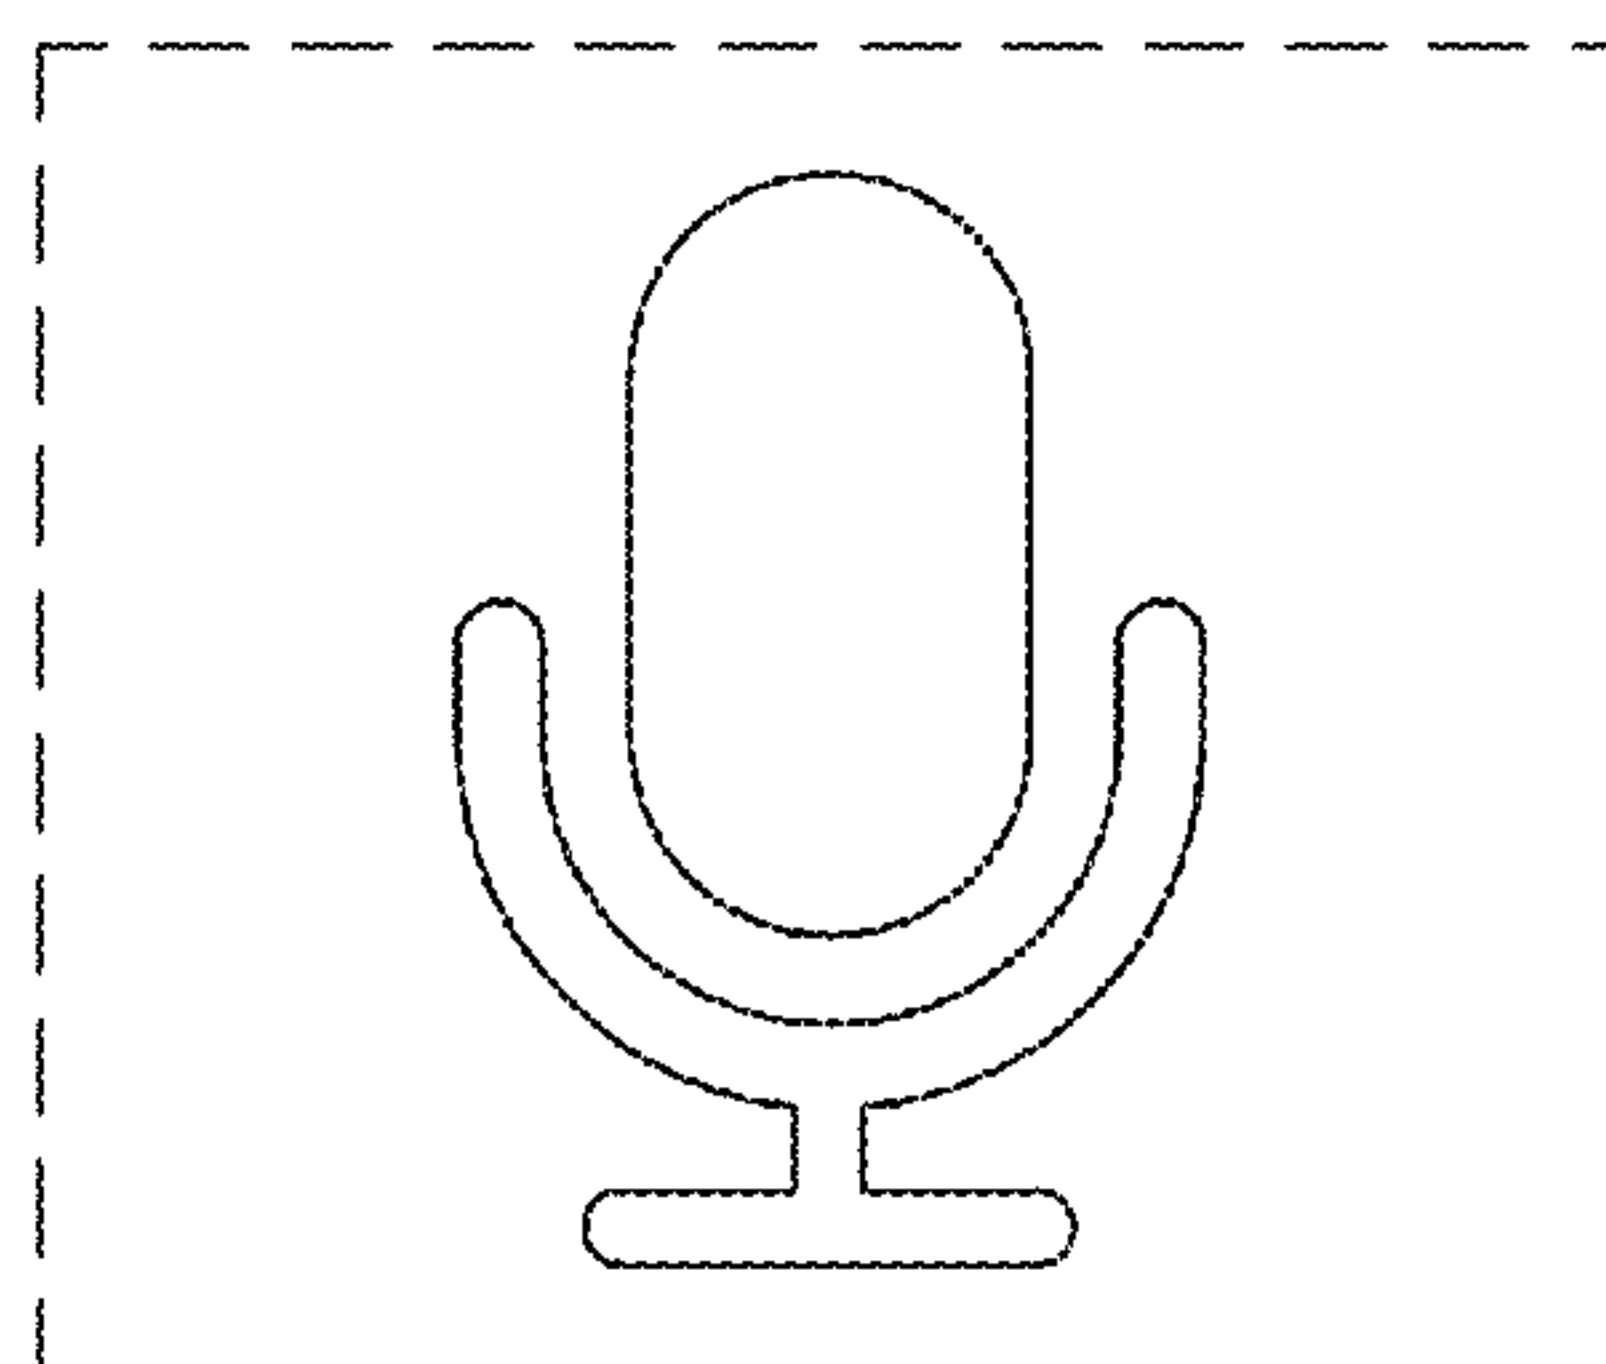

FIG. 4 is a front view of a display screen or portion thereof showing a first image of the graphical user interface.

FIG. 5 is a front view of a display screen or portion thereof showing a second image of the graphical user interface; and, FIG. 6 is a front view of a display screen or portion thereof showing a third image of the graphical user interface.

The appearance of the graphical user interface of the display screen or portion thereof sequentially transitions between the images shown in FIGS. 1-3 and FIGS. 4-6. The process or period in which one image transitions to another forms no part of the claimed design.

The outermost broken line perimeter illustrates a display screen or portion thereof and forms no part of the claimed
